As the Original Equipment Manufacturer (OEM) of the above items, Sikorsky Aircraft Corp. (Cage Code 78286) owns all rights to the technical data, specifications, and drawings required for their manufacture. The items to be manufactured are complex and must meet critical operational and reliability requirements, the achievement of which requires unique production techniques and extensive and/or sophisticated testing. The Government does not own or possess any rights to the technical data, specifications, and drawings required to manufacture these items and it has been determined uneconomical to purchase them. These items are the only ones approved by the USCG's Aircraft Configuration Control Board for use on the MH-60T helicopter. In addition, all of the items in the table above have been assigned an Acquisition Method Code (AMC) of 3. An AMC code of 3 indicates to acquire directly from the actual manufacturer, whether or not the prime contractor is the actual manufacturer. The USCG is conducting a sole source acquisition.
