

Sources Sought/Request for Information

The Drug Enforcement Administration (DEA) is conducting market research to determine sources available for: The Peak Scientific Intura H2 1500 gas generators.

Interested vendors should respond to this source sought with a capabilities statement outlining recent/relevant experience and how they are able to meet the intent of this requirement. The Government is using this market research to determine availability of sources, so please be sure to include Name of Business, Government Points of Contact, Unique Entity ID (UEI), Cage Code (as applicable), business size type/socio-economic status as represented/registered in the System for Award Management (SAM), and GSA Schedule/Contract number.

*****NOTE: This is a Brand Specific requirement. No other Brands will be considered. Interested vendors must be Federal Government Authorized Resellers for the listed brand. Interested vendors citing their GSA Schedule must have products available on schedule at the close date of this Sources Sought notice.***

This market research and Sources Sought notice is not a solicitation announcement and will not constitute any commitment by the Government. A market survey is being conducted to gain knowledge of potential qualified sources to determine if they can effectively compete for award of a Delivery Order contract.

All interested vendors shall submit their capabilities packages addressing their interest and capability to provide the products stated below [and the attached Statement of Work (SOW)].

PRODUCT BRAND	PRODUCT NUMBER	PRODUCT DESCRIPTION	QUANTITY
The Peak Scientific	3305698-0-05	Intura H2 1500 gas generator	2
	3306327	Bottle Di Water (Shipping DIMs: 20.0cm x 20.0cm x 45.0cm)	2

All information submitted in response to this announcement is voluntary, the Government will not pay for information requested, nor will it compensate any respondent for any cost incurred in developing information provided to the Government. If information or capabilities packages are not received from at least two capable small business concerns by the response date or if the Government determines that no small businesses are capable of performing this requirement based upon an evaluation of the capabilities packages and information submitted; this requirement may be solicited under unrestricted full and open procedures.

Information/Capabilities packages shall be submitted (via e-mail) to the POC listed below not later than 10:00 am, Eastern Time, April 30, 2026. Any questions concerning this announcement shall be in writing (e-mail) to the POC listed below. No telephone calls will be accepted. POC: The Point of Contact is Monica Gehrer, Contract Specialist, monica.j.gehrer@dea.gov.

In the subject line of your email, state: "Response to D-26-SS-0029 Intura H2 1500 generators"
No responses will be accepted by mail or fax. Submittals will not be returned. Telephonic responses will not be honored.
