STATEMENT OF REQUIREMENT

Mobile Carts, Keyboards, and Mice

Objective

Kansas City Community-Based Outpatient Clinics (CBOCs) require the purchase of 77 laptop carts equipped with compatible medical-grade keyboards and mice. These laptop carts will be used to implement Bar Code Medication Administration (BCMA) in accordance with Veterans Health Administration (VHA) Directive 1195 and recommendations from the National Electronic Health Record Modernization (EHRM) transition team.

Requirements

- Must be compatible with our current computers/laptops provided by Office of Information and Technology (OIT).
- Must be serviceable by local Healthcare Technology Management (HTM) department.
- Must be ergonomic and height adjustable by staff for ease of daily use.
- Must be cleanable with common standard facility cleaners/wipers.
- Must have secure laptop locking mechanisms to maintain device security.
- Must have stable worksurface designated space for medications and necessary supplies for medication administration.
- Must have a worksurface capable of securely holding a BCMA scanner and Personal Identification Verification (PIV) card reader.
- Must have area to hold cords and USB hub to attach to laptop.
- Minimum of one (1) year warranty or Standard Manufacturer's Warranty.

Salient Characteristics

- Laptop Cart
 - Workspace must be easily adjustable in height.
 - Cart dimensions must be ≤ 20" width by 28" depth.
 - Weight: ≤ 55 pounds.
 - Easily adjustable keyboard and mouse tray holder.
 - Must have storage under the work surface for the laptop with an opening for the screen and ability to securely lock laptop in place.
 - Must have integrated keyboard and mouse tray which sits below the laptop and worksurface.
 - Must be mobile with locking casters for secure positioning.
 - Medical grade construction designed for continuous use in high volume hospital settings.
 - Cart must have internal power strip.
 - Must have an external coiled power cord.
 - Must have ability to add drawers in the future.
- Computer Mouse
 - Mice must be constructed with hospital grade materials that are easily disinfected.

- Able to withstand multiple cleanings per day.
- Keyboard
 - Keyboards must be constructed with hospital grade materials that are easily disinfected.
 - Able to withstand multiple cleanings per day with hospital grade cleaners.
