

ATTACHMENT II

THE UNITED STATES COAST GUARD

FOREIGN MILITARY SALES

CASE NUMBER ZB-P-LEC

EL SALVADOR

1 REQUIREMENTS

1.1 General

The Contractor must provide the following communication equipment:

Description	Purpose	Part Number
VHF Base Station Transceiver	Short-range maritime communication (up to 25 nautical miles)	Icom IC-M605 (or equivalent)
UHF Base Station Transceiver	Short-range, line-of-sight for local operations or interagency coordination	Motorola SLR 5700 (or equivalent)
HF Transceiver with ALE	Long-range, over-the-horizon for covering large Pacific operational areas. ALE automates channel selection.	Codan Envoy X1 or Barrett 4050 (or equivalent)
HF Power Amplifier	Boost HF signal to 400-500W for reliable long-distance transmission	Codan 306 (or equivalent)
VHF High-Gain Antenna	Omni-directional antenna to maximize range of VHF base station	Comrod AV903-L (or equivalent)
UHF High-Gain Antenna	Omni directional antenna to maximize range of UHF base station	Comrod AV1503-L (or equivalent)
HF Broadband Dipole Antenna	Robust, multi-frequency antenna suitable for wide range of HF channels.	Codan 463 (or equivalent)
Uninterruptible Power Supply (UPS)	Provide clean, stable power and backup during short electrical outages.	
Operator Console Equipment (Desk, Microphones, Speakers, Headsets, etc...)	Provide all equipment required for personnel to operate communication equipment at base station.	
Cabling and Installation Kit (coaxial cables, connectors, lightning arrestors, and grounding materials)	Provide all necessary cabling and materials for successful installation and operation of communication suite.
