

Technical Exhibit N
Target Fabrication and Workload

Note supplies and material are not a part of the supply CLIN and the cost burden is not borne by the Contract.
The associated labor cost is borne by the contract for fabrication, issue and turn in.
Additionally note that the only information available to the Government about the amount of time to fabricate all labor is proprietary to previous contractor's methods and means.

Target	Annual Workload	
	CY24	CY 25
