

STATEMENT OF WORK

1. Objective/Requirements

- To renew software license maintenance of Solid Edge.

2. Characteristics, Scope, and Specs

The contractor shall perform the following duties:

- The contractor shall provide an updated license file if required
- The software maintenance agreement is used to generate designs currently used on various flight projects. Continued maintenance will allow current designs to be completed and previously completed designs to be modified and processed as needed

3. Place of Performance

- NASA/GSFC (electronic delivery of new license file if applicable)

4. Period of Performance

- 1 year period of performance (12 months)
