Computer software does not include computer databases or computer software documentation.

"Computer software documentation" means owner's manuals, user's manuals, installation instructions, operating instructions, and other similar items, regardless of storage medium, that explain the capabilities of the computer software or provide instructions for using the software.

"Covered Government support contractor" means a contractor (other than a litigation support contractor covered by 252.204-7014) under a contract, the primary purpose of which is to furnish independent and impartial advice or technical assistance directly to the Government in support of the Government's management and oversight of a program or effort (rather than to directly furnish an end item or service to accomplish a program or effort), provided that the contractor-

(1) Is not affiliated with the prime contractor or a first-tier subcontractor on the program or effort, or with any direct competitor of such prime contractor or any such first-tier subcontractor in furnishing end items or services of the type developed or produced on the program or effort; and

(2) Receives access to the technical data or computer software for performance of a Government contract that contains the clause at 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

"Detailed manufacturing or process data" means technical data that describe the steps, sequences, and conditions of manufacturing, processing or assembly used by the manufacturer to produce an item or component or to perform a process.

"Developed" means-

(1) (Applicable to technical data other than computer software documentation.) An item, component, or process, exists and is workable. Thus, the item or component must have been constructed or the process practiced. Workability is generally established when the item, component, or process has been analyzed or tested sufficiently to demonstrate to reasonable people skilled in the applicable art that there is a high probability that it will operate as intended. Whether, how much, and what type of analysis or testing is required to establish workability depends on the nature of the item, component, or process, and the state of the art. To be considered "developed," the item, component, or process need not be at the stage where it could be offered for sale or sold on the commercial market, nor must the item, component or process be actually reduced to practice within the meaning of Title 35 of the United States Code;

(2) A computer program has been successfully operated in a computer and tested to the extent sufficient to demonstrate to reasonable persons skilled in the art that the program can reasonably be expected to perform its intended purpose;

(3) Computer software, other than computer programs, has been tested or analyzed to the extent sufficient to demonstrate to reasonable persons skilled in the art that the software can reasonably be expected to perform its intended purpose; or

(4) Computer software documentation required to be delivered under a contract has been written, in any medium, in sufficient detail to comply with requirements under that contract.

"Developed exclusively at private expense" means development was accomplished entirely with costs charged to indirect cost pools, costs not allocated to a government contract, or any combination thereof.

(1) Private expense determinations should be made at the lowest practicable level.

(2) Under fixed-price contracts, when total costs are greater than the firm-fixed-price or ceiling price of the contract, the additional development costs necessary to complete development shall not be considered when determining whether development was at government, private, or mixed expense.

"Developed exclusively with government funds" means development was not accomplished exclusively or partially at private expense.

"Developed with mixed funding" means development was accomplished partially with costs charged to indirect cost pools and/or costs not allocated to a government contract, and partially with costs charged directly to a government contract.

"Form, fit, and function data" means technical data that describe the required overall physical, functional, and performance characteristics (along with the qualification requirements, if applicable) of an item, component, or process to the extent necessary to permit identification of physically and functionally interchangeable items.

"Generated" means, with respect to technical data or computer software, first created in the performance of this contract.

"Government purpose" means any activity in which the United States Government is a party, including cooperative agreements with international or multi-national defense organizations or sales or transfers by the United States Government to foreign governments or international organizations. Government purposes include competitive procurement, but do not include the rights to use, modify, reproduce, release, perform, display, or disclose technical data or computer software for commercial purposes or authorize others to do so.

"Government purpose rights" means the rights to-

(1) Use, modify, reproduce, release, perform, display, or disclose technical data or computer software within the Government without restriction; and

(2) Release or disclose technical data or computer software outside the Government and authorize persons to whom release or disclosure has been made to use, modify, reproduce, release, perform, display, or disclose that data for United States Government purposes.

"Limited rights" means the rights to use, modify, reproduce, release, perform, display, or disclose technical data, in whole or in part, within the Government. The Government may not, without the written permission of the party asserting limited rights, release or disclose the technical data outside the Government, use the technical data for manufacture, or authorize the technical data to be used by another party, except that the Government may reproduce, release, or disclose such data or authorize the use or reproduction of the data by persons outside the Government if-

(1) The production, release, disclosure, or use is-

(i) Necessary for emergency repair and overhaul; or

(ii) A release or disclosure to-

(A) A covered Government support contractor in performance of its covered Government support contracts for use, modification, reproduction, performance, display, or release or disclosure to a person authorized to receive limited rights technical data; or

(B) A foreign government, of technical data other than detailed manufacturing or process data, when use of such data by the foreign government is in the interest of the Government and is required for evaluational or informational purposes;

(2) The recipient of the technical data is subject to a prohibition on the further reproduction, release, disclosure, or use of the technical data; and

(3) The Contractor or subcontractor asserting the restriction is notified of such reproduction, release, disclosure, or use.

"Minor modification" means a modification that does not significantly alter the nongovernmental function or purpose of computer software or is of the type customarily provided in the commercial marketplace.

"Other than commercial computer software" means software that does not qualify as commercial computer software under the definition of "commercial computer software" of this clause.

"Restricted rights" apply only to other than commercial computer software and mean the Government's rights to-

(1) Use a computer program with one computer at one time. The program may not be accessed by more than one terminal or central processing unit or time shared unless otherwise permitted by this contract;

(2) Transfer a computer program to another Government agency without the further permission of the Contractor if the transferor destroys all copies of the program and related computer software documentation in its possession and notifies the licensor of the transfer. Transferred programs remain subject to the provisions of this clause;

(3) Make a reasonable number of copies of the computer software required for the purposes of safekeeping (archive), backup, modification, or other activities authorized in paragraphs (1), (2), and (4) through (7) of this definition;

(4) Modify computer software provided that the Government may-

(i) Use the modified software only as provided in paragraphs (1) and (3) of this definition; and

(ii) Not release or disclose the modified software except as provided in paragraphs (2), (5), (6), and (7) of this definition;

(5) Use and permit contractors or subcontractors performing service contracts (see 37.101 of the Federal Acquisition Regulation) in support of this or a related contract to use, computer software to diagnose and correct deficiencies in a computer program, to modify computer software to enable a computer program to be combined with, adapted to, or merged with other computer programs or when necessary to respond to urgent tactical situations, provided that-

(i) The Government notifies the party which has granted restricted rights that any such release or disclosure to particular contractors or subcontractors was made;

(ii) Such contractors or subcontractors are subject to the nondisclosure agreement at 227.7103-7 of the Defense Federal Acquisition Regulation Supplement or are Government contractors receiving access to the software for performance of a Government contract that contains the clause at 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends;

(iii) The Government shall not permit the recipient to decompile, disassemble, or reverse engineer the software, or use software decompiled, disassembled, or reverse engineered by the Government pursuant to paragraph (4) of this definition, for any other purpose; and

(iv) Such use is subject to the limitations in paragraphs (1) through (4) of this definition;

(6) Use, and permit contractors or subcontractors performing emergency repairs or overhaul of items or components of items procured under this or a related contract to use, the computer software when necessary to perform the emergency repairs or overhaul, or to modify the computer software to reflect the repairs or overhaul made, provided that-

(i) The intended recipient is subject to the nondisclosure agreement at 227.7103-7 or is a Government contractor receiving access to the software for performance of a Government contract that contains the clause at 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends;

(ii) The Government shall not permit the recipient to decompile, disassemble, or reverse engineer the software, or use software decompiled, disassembled, or reverse engineered by the Government pursuant to paragraph (4) of this definition, for any other purpose; and

(iii) Such use is subject to the limitations in paragraphs (1) through (4) of this definition; and

(7) Use, modify, reproduce, perform, display, or release or disclose computer software to a person authorized to receive restricted rights computer software for management and oversight of a program or effort, and permit covered Government support contractors in the performance of covered Government support contracts that contain the clause at 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends, to use, modify, reproduce, perform, display, or release or disclose the computer software to a person authorized to receive restricted rights computer software, provided that-

(i) The Government shall not permit the covered Government support contractor to decompile, disassemble, or reverse engineer the software, or use software decompiled, disassembled, or reverse engineered by the Government pursuant to the paragraph (4) of this definition, for any other purpose; and

(ii) Such use is subject to the limitations in paragraphs (1) through (4) of this definition.

"Small Business Innovation Research/Small Business Technology Transfer (SBIR/STTR) data" means all technical data or computer software developed or generated in the performance of a phase I, II, or III SBIR/STTR contract or subcontract.

"SBIR/STTR data protection period" means the time period during which the Government is obligated to protect SBIR/STTR data against unauthorized use and disclosure in accordance with SBIR/STTR data rights. The SBIR/STTR data protection period begins on the date of award of the contract under which the SBIR/STTR data are developed or generated and ends 20 years after that date unless, after the award, the agency and the Contractor negotiate for some other protection period for the SBIR/STTR data developed or generated under that contract.

"SBIR/STTR data rights" means the Government's rights, during the SBIR/STTR data protection period, in SBIR/STTR data covered by paragraph (c)(5) of this clause, as follows:

(1) Limited rights in such SBIR/STTR technical data; and

(2) Restricted rights in such SBIR/STTR computer software.

"Technical data" means recorded information, regardless of the form or method of the recording, of a scientific or technical nature (including computer software documentation). The term does not include computer software or financial, administrative, cost or pricing, or management information, or information incidental to contract administration.

"Unlimited rights" means rights to use, modify, reproduce, release, perform, display, or disclose, technical data or computer software in whole or in part, in any manner and for any purpose whatsoever, and to have or authorize others to do so.

(b) *Applicability.* This clause governs all SBIR/STTR data. For any data that are not SBIR/STTR data-

(1) The clause at Defense Federal Acquisition Regulation Supplement (DFARS) 252.227-7013, Rights in Technical Data-Other Than Commercial Products and Commercial Services, governs the technical data pertaining to other than commercial products and commercial services or to any portion of a commercial product or commercial service that was developed in any part at Government expense, and the clause at DFARS 252.227-7015, Technical Data-Commercial Products and Commercial Services, governs the technical data pertaining to any portion of a commercial product or commercial service that was developed exclusively at private expense;

(2) The clause at DFARS 252.227-7014, Rights in Other Than Commercial Computer Software and Other Than Commercial Computer Software Documentation, governs other than commercial computer software and other than commercial computer software documentation; and

(3) A license consistent with DFARS 227.7202 governs commercial computer software and commercial computer software documentation.

(c) *Rights in technical data and computer software.* The Contractor grants or shall obtain for the Government the following royalty-free, worldwide, nonexclusive, irrevocable license rights in technical data or other than commercial computer software. All rights not granted to the Government are retained by the Contractor.

(1) *Unlimited rights.* The Government shall have unlimited rights in technical data or computer software, including such data generated under this contract, that are-

(i) Form, fit, and function data;

(ii) Necessary for installation, operation, maintenance, or training purposes (other than detailed manufacturing or process data);

(iii) Corrections or changes to Government-furnished technical data or computer software;

(iv) Otherwise publicly available or have been released or disclosed by the Contractor or a subcontractor without restrictions on further use, release, or disclosure other than a release or disclosure resulting from the sale, transfer, or other assignment of interest in the technical data or computer software to another party or the sale or transfer of some or all of a business entity or its assets to another party;

(v) Technical data or computer software in which the Government has acquired previously unlimited rights under another Government contract or as a result of negotiations;

(vi) Technical data or computer software furnished to the Government, under this or any other Government contract or subcontract thereunder, with license rights for which all restrictive conditions on the Government have expired; and

(vii) Computer software documentation generated or required to be delivered under this contract.

(2) *Government purpose rights.*

(i) The Government shall have government purpose rights for the period specified in paragraph (c)(2)(ii) of this clause in data that are-

(A) Not SBIR/STTR data, and are-

(1) Technical data pertaining to items, components, or processes developed with mixed funding, or are computer software developed with mixed funding, except when the Government is entitled to unlimited rights in such data as provided in paragraph (c)(1) of this clause;

(2) Created with mixed funding in the performance of a contract that does not require the development, manufacture, construction, or production of items, components, or processes; or

(B) SBIR/STTR data, upon expiration of the SBIR/STTR data protection period.

(ii)(A) For the non-SBIR/STTR data described in paragraph (c)(2)(i)(A) of this clause, the Government shall have government purpose rights for a period of 5 years, or such other period as may be negotiated. This period shall commence upon award of the contract, subcontract, letter contract (or similar contractual instrument), or contract modification (including a modification to exercise an option) that required development of the items, components, or processes, or creation of the data described in paragraph (c)(2)(i)(A)(2) of this clause. Upon expiration of the 5-year or other negotiated period, the Government shall have unlimited rights in the data.

(B) For the SBIR/STTR data described in paragraph (c)(2)(i)(B) of this clause, the Government shall have government purpose rights perpetually. This Government purpose rights period commences upon the expiration of the SBIR/STTR data protection period.

(iii) The Government shall not release or disclose data in which it has government purpose rights unless-

(A) Prior to release or disclosure, the intended recipient is subject to the nondisclosure agreement at DFARS 227.7103-7; or

(B) The recipient is a Government contractor receiving access to the data for performance of a Government contract that contains the clause at DFARS 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

(iv) The Contractor has the exclusive right, including the right to license others, to use technical data in which the Government has obtained government purpose rights under this contract for any commercial purpose during the time period specified in the government purpose rights marking prescribed in paragraph (g)(3) of this clause.

(3) *Limited rights.* The Government shall have limited rights in technical data, that were not generated under this contract, pertain to items, components, or processes developed exclusively at private expense, and are marked, in accordance with the marking instructions in paragraph (g)(1) of this clause, with the legend prescribed in paragraph (g)(4) of this clause.

(4) *Restricted rights in computer software.* The Government shall have restricted rights in other than commercial computer software required to be delivered or otherwise furnished to the Government under this contract that were developed exclusively at private expense and were not generated under this contract.

(5) *SBIR/STTR data rights.* Except for technical data, including computer software documentation, or computer software in which the Government has unlimited rights under paragraph (c)(1) of this clause, the Government shall have SBIR/STTR data rights, during the SBIR/STTR data protection period of this contract, in all SBIR/STTR data developed or generated under this contract. This protection period is not extended by any subsequent SBIR/STTR contracts under which any portion of that SBIR/STTR data is used or delivered. The SBIR/STTR data protection period of any such subsequent SBIR/STTR contract applies only to the SBIR/STTR data that are developed or generated under that subsequent contract. The SBIR/STTR data protection period is governed by the version of this clause that is incorporated in the contract under which the SBIR/STTR data are developed or generated. If the SBIR/STTR data were developed or generated under a contract that included a previous version of this clause, then the SBIR/STTR data protection period is governed by that previous version of this clause.

(6) *Specifically negotiated license rights.* After contract award, the standard license rights granted to the Government under paragraphs (c) (1) through (5) of this clause may be modified by mutual agreement to provide such rights as the parties consider appropriate but shall not provide the Government lesser rights in technical data, including computer software documentation, than are enumerated in the definition of "limited rights" of this clause or lesser rights in computer software than are enumerated in the definition of "restricted rights" of this clause. Any rights so negotiated shall be identified in a license agreement made part of this contract.

(7) *Prior government rights.* Technical data, including computer software documentation, or computer software that will be delivered, furnished, or otherwise provided to the Government under this contract, in which the Government has previously obtained rights shall be delivered, furnished, or provided with the preexisting rights, unless-

(i) The parties have agreed otherwise; or

(ii) Any restrictions on the Government's rights to use, modify, release, perform, display, or disclose the technical data or computer software have expired or no longer apply.

(8) *Release from liability.* The Contractor agrees to release the Government from liability for any release or disclosure of technical data, computer software, or computer software documentation made in accordance with the definitions of "Government purpose," "other than commercial computer software," or paragraph (c)(5) of this clause, or in accordance with the terms of a license negotiated under paragraph (c)(6) of this clause, or by others to whom the recipient has released or disclosed the data, software, or documentation and to seek relief solely from the party who has improperly used, modified, reproduced, released, performed, displayed, or disclosed Contractor data or software marked with restrictive legends.

(9) *Covered Government support contractors.* The Contractor acknowledges that-

(i) Limited rights technical data and restricted rights computer software are authorized to be released or disclosed to covered Government support contractors;

(ii) The Contractor will be notified of such release or disclosure;

(iii) The Contractor may require each such covered Government support contractor to enter into a nondisclosure agreement directly with the Contractor (or the party asserting restrictions as identified in a restrictive legend) regarding the covered Government support contractor's use of such data or software, or alternatively that the Contractor (or party asserting restrictions) may waive in writing the requirement for a nondisclosure agreement; and

(iv) Any such nondisclosure agreement shall address the restrictions on the covered Government support contractor's use of the data or software as set forth in the clause at DFARS 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends. The nondisclosure agreement shall not include any additional terms and conditions unless mutually agreed to by the parties to the nondisclosure agreement.

(d) *Rights in derivative computer software or computer software documentation.* The Government shall retain its rights in the unchanged portions of any computer software or computer software documentation delivered under this contract that the Contractor uses to prepare, or includes in, derivative software or documentation.

(e) *Third party copyrighted technical data and computer software.* The Contractor shall not, without the written approval of the Contracting Officer, incorporate any copyrighted technical data, including computer software documentation, or computer software in the data or software to be delivered under this contract unless the Contractor is the copyright owner or has obtained for the Government the license rights necessary to perfect a license or licenses in the deliverable data or software of the appropriate scope set forth in paragraph (c) of this clause and, prior to delivery of such-

(1) Technical data, has affixed to the transmittal document a statement of the license rights obtained; or

(2) Computer software, has provided a statement of the license rights obtained in a form acceptable to the Contracting Officer.

(f) *Identification and delivery of technical data or computer software to be furnished with restrictions on use, release, or disclosure.*

(1) This paragraph does not apply to technical data or computer software that were or will be generated under this contract or to restrictions based solely on copyright.

(2) Except as provided in paragraph (f)(3) of this clause, technical data or computer software that the Contractor asserts should be furnished to the Government with restrictions on use, release, or disclosure is identified in an attachment to this contract (the Attachment). The Contractor shall not deliver any technical data or computer software with restrictive markings unless the technical data or computer software are listed on the Attachment.

(3) In addition to the assertions made in the Attachment, other assertions may be identified after award when based on new information or inadvertent omissions unless the inadvertent omissions would have materially affected the source selection decision. Such identification and assertion shall be submitted to the Contracting Officer as soon as practicable prior to the scheduled date for delivery of the technical data or computer software, in the following format, and signed by an official authorized to contractually obligate the Contractor:

Identification and Assertion of Restrictions on the Government's Use, Release, or Disclosure of Technical Data or Computer Software.

The Contractor asserts for itself, or the persons identified below, that the Government's rights to use, release, or disclose the following technical data or computer software should be restricted:

Technical Data or Computer Software to be Furnished With Restrictions ¹	Basis for Assertion ²	Asserted Rights Category ³	Name of Person Asserting Restrictions ⁴
____(LIST)	____(LIST)	____(LIST)	____(LIST)

¹ If the assertion is applicable to items, components, or processes developed at private expense, identify both the technical data and each such item, component, or process.

² Generally, development at private expense, either exclusively or partially, is the only basis for asserting restrictions on the Government's rights to use, release, or disclose technical data or computer software. Indicate whether development was exclusively or partially at private expense. If development was not at private expense, enter the specific reason for asserting that the Government's rights should be restricted.

³ Enter asserted rights category (e.g., limited rights, restricted rights, government purpose rights, or government purpose license rights from a prior contract, SBIR/STTR data rights under this or another contract, or specifically negotiated licenses).

(End of identification and assertion)

(4) When requested by the Contracting Officer, the Contractor shall provide sufficient information to enable the Contracting Officer to evaluate the Contractor's assertions. The Contracting Officer reserves the right to add the Contractor's assertions to the Attachment and validate any listed assertions, at a later date, in accordance with the procedures in the DFARS 252.227-7019, Validation of Asserted Restrictions-Computer Software, and/or DFARS 252.227-7037, Validation of Asserted Restrictions on Technical Data, clauses of this contract.

(g) *Marking requirements.* The Contractor, and its subcontractors or suppliers, may only assert restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data or computer software to be delivered under this contract by marking the deliverable data or software subject to restriction. Except as provided in paragraph (g)(8) of this clause, only the following markings are authorized under this contract: the government purpose rights marking at paragraph (g)(3) of this clause; the limited rights legend at paragraph (g)(4) of this clause; the restricted rights legend at paragraph (g)(5) of this clause; the SBIR/STTR data rights legend at paragraph (g)(6) of this clause; the special license rights legend at paragraph (g)(7) of this clause; and a notice of copyright as prescribed under 17 U.S.C. 401 or 402.

(1) *General marking instructions.* The Contractor, or its subcontractors or suppliers, shall conspicuously and legibly mark the appropriate legend to all technical data and computer software that qualify for such markings. The authorized legends shall be placed on the transmittal document or storage container and, for printed material, each page of the printed material containing technical data or computer software for which restrictions are asserted. When only portions of a page of printed material are subject to the asserted restrictions, such portions shall be identified by circling, underscoring, with a note, or other appropriate identifier. Technical data or computer software transmitted directly from one computer or computer terminal to another shall contain a notice of asserted restrictions. However, instructions that interfere with or delay the operation of computer software in order to display a restrictive rights legend or other license statement at any time prior to or during use of the computer software, or otherwise cause such interference or delay, shall not be inserted in software that will or might be used in combat or situations that simulate combat conditions, unless the Contracting Officer's written permission to deliver such software has been obtained prior to delivery. Reproductions of technical data, computer software, or any portions thereof subject to asserted restrictions shall also reproduce the asserted restrictions.

(2) *Omitted markings.*

(i) Technical data, computer software, or computer software documentation delivered or otherwise provided under this contract without restrictive markings shall be presumed to have been delivered with unlimited rights. To the extent practicable, if the Contractor has requested permission (see paragraph (g)(2)(ii) of this clause) to correct an inadvertent omission of markings, the Contracting Officer will not release or disclose the technical data, software, or documentation pending evaluation of the request.

(ii) The Contractor may request permission to have conforming and justified restrictive markings placed on unmarked technical data, computer software, or computer software documentation at its expense. The request must be received by the Contracting Officer within 6 months following the furnishing or delivery of such technical data, software, or documentation, or any extension of that time approved by the Contracting Officer. The Contractor shall-

(A) Identify the technical data, software, or documentation that should have been marked;

(B) Demonstrate that the omission of the marking was inadvertent, the proposed marking is justified and conforms with the requirements for the marking of technical data, computer software, or computer software documentation contained in this clause; and

(C) Acknowledge, in writing, that the Government has no liability with respect to any disclosure, reproduction, or use of the technical data, software, or documentation made prior to the addition of the marking or resulting from the omission of the marking.

(3) *Government purpose rights markings.* Technical data or computer software delivered or otherwise furnished to the Government with government purpose rights shall be marked as follows:

No restrictions apply after the expiration date shown above. Any reproduction of technical data or computer software or portions thereof marked with this restrictive marking must also reproduce the markings.

(End of legend)

(4) *Limited rights markings.* Technical data not generated under this contract that pertain to items, components, or processes developed exclusively at private expense and delivered or otherwise furnished with limited rights shall be marked as follows:

Any reproduction of technical data or portions thereof marked with this legend must also reproduce the markings. Any person, other than the Government, who has been provided access to such data must promptly notify the above named Contractor.

(End of legend)

(5) *Restricted rights markings.* Computer software delivered or otherwise furnished to the Government with restricted rights shall be marked as follows:

RESTRICTED RIGHTS			
		Contract Number	=====
		Contractor Name	=====
		Contractor Address	=====

The Government's rights to use, modify, reproduce, release, perform, display, or disclose this software are restricted by paragraph (c) (4) of the DFARS 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software-Small Business Innovation Research Program and Small Business Technology Transfer Program, clause contained in the above identified contract. Any reproduction of computer software or portions thereof marked with this legend must also reproduce the markings. Any person, other than the Government, who has been provided access to such software must promptly notify the above named Contractor.

(End of legend)

(6) *SBIR/STTR data rights markings.* Except for technical data or computer software in which the Government has acquired unlimited rights under paragraph (c)(1) of this clause or negotiated special license rights as provided in paragraph (c)(5) of this clause, technical data or computer software generated under this contract shall be marked as follows. The Contractor shall enter the expiration date for the SBIR/STTR data protection period on the legend:

SBIR/STTR DATA RIGHTS

		Contract Number	=====
		Contractor Name	=====
		Contractor Address	=====
		Expiration of SBIR/STTR Data Protection Period	=====
		Expiration of the Government Purpose Rights Period	=====

The Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data or computer software marked with this legend are restricted during the period shown as provided in paragraph (c)(5) of the DFARS 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software-Small Business Innovation Research Program and Small Business Technology Transfer Program, clause contained in the above identified contract. After the SBIR/STTR data protection period expiration date shown above, the Government has perpetual government purpose rights as provided in paragraph (c)(4) of that clause, unless otherwise indicated by the government purpose rights expiration date shown above. Any reproduction of technical data, computer software, or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(7) *Special license rights markings.*

(i) Technical data or computer software in which the Government's rights stem from a specifically negotiated license shall be marked as follows:

SPECIAL LICENSE RIGHTS
The Government's rights to use, modify, reproduce, release, perform, display, or disclose this technical data or computer software are restricted by Contract Number ____ <i>[Insert contract number]</i> ____, License Number ____ <i>[Insert license identifier]</i> ____. Any reproduction of technical data, computer software, or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(ii) For purposes of this clause, special licenses do not include government purpose license rights acquired under a prior contract (see paragraph (c)(7) of this clause).

(8) *Preexisting data markings.* If the terms of a prior contract or license permitted the Contractor to restrict the Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data or computer software, and those restrictions are still applicable, the Contractor may mark such data or software with the appropriate restrictive legend for which the data or software qualified under the prior contract or license. The Contractor shall follow the marking procedures in paragraph (g)(1) of this clause.

(h) *Contractor procedures and records.* Throughout performance of this contract, the Contractor, and its subcontractors or suppliers that will deliver technical data or computer software with other than unlimited rights, shall-

(1) Have, maintain, and follow written procedures sufficient to assure that restrictive markings are used only when authorized by the terms of this clause; and

(2) Maintain records sufficient to justify the validity of any restrictive markings on technical data or computer software delivered under this contract.

(i) *Removal of unjustified and nonconforming markings.*

(1) *Unjustified markings.* The rights and obligations of the parties regarding the validation of restrictive markings on technical data or computer software furnished or to be furnished under this contract are contained in the DFARS 252.227-7037, Validation of Asserted Restrictions on Technical Data, and the DFARS 252.227-7019, Validation of Asserted Restrictions-Computer Software, clauses of this contract, respectively. Notwithstanding any provision of this contract concerning inspection and acceptance, the Government may ignore or, at the Contractor's expense, correct or strike a marking if, in accordance with the applicable procedures of those clauses, a restrictive marking is determined to be unjustified.

(2) *Nonconforming markings.* A nonconforming marking is a marking placed on technical data or computer software delivered or otherwise furnished to the Government under this contract that is not in the format authorized by this contract. Correction of nonconforming markings is not subject to the DFARS 252.227-7037, Validation of Asserted Restrictions on Technical Data, or the DFARS 252.227-7019, Validation of Asserted Restrictions-Computer Software, clause of this contract. (ii) Does not include the reasonable costs of reproducing, handling, or mailing the documents or other media in which the technical data or computer software will be delivered.

(l) *Subcontractors or suppliers.*

(1) The Contractor shall assure that the rights afforded its subcontractors and suppliers under 10 U.S.C. 3771-3775, 10 U.S.C. 3781-3786, 15 U.S.C. 638(j)(1)(B)(iii) and (v), and the identification, assertion, and delivery processes required by paragraph (f) of this clause are recognized and protected.

(3) Technical data required to be delivered by a subcontractor or supplier shall normally be delivered to the next higher tier contractor, subcontractor, or supplier. However, when there is a requirement in the prime contract for technical data which may be submitted with other than unlimited rights by a subcontractor or supplier, then said subcontractor or supplier may fulfill its requirement by submitting such technical data directly to the Government, rather than through a higher tier contractor, subcontractor, or supplier.

(4) The Contractor and higher tier subcontractors or suppliers shall not use their power to award contracts as economic leverage to obtain rights in technical data or computer software from their subcontractors or suppliers.

(5) In no event shall the Contractor use its obligation to recognize and protect subcontractor or supplier rights in technical data or computer software as an excuse for failing to satisfy its contractual obligation to the Government.

(h) *Certification Regarding Responsibility Matters (Executive Order 12689)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals-

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.*

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) *Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126).* [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at 22.1503(b).]

(End of provision)

FAR 52.212-1 "Instructions to Offerors - Commercial Products and Commercial Services"

The following will be included in the solicitation (using estimated dates that are subject to change):

SUBMISSION OF PROPOSALS (BEST VALUE/TRADE-OFF)

INSTRUCTIONS TO OFFERORS

I. GENERAL

All proposals shall be submitted electronically via email as email attachments to the solicitation point of contact, John Favata at john.d.favata.civ@us.navy.mil. All proposals are due NO LATER THAN 12:00 PM Philadelphia Time on 21-April-2026 to john.d.favata.civ@us.navy.mil.

Any other method of delivery (e.g., hard copy, CD, thumb drive, portal, emailed hyperlink, hand-carried, etc.) will not be accepted. Proposals shall be received no later than the DATE and TIME FOR RECEIPT OF PROPOSALS specified in the solicitation. Offerors shall make all efforts to confirm receipt of proposals PRIOR to the date and time specified for receipt of proposals. Proposals not received by the solicitation point of contact, Mr. John Favata, by the date and time specified for receipt of proposals will be considered late, and will not be considered for award. Proposals shall comply with the detailed instructions for the format and content of the proposals contained herein; proposals that do not comply may be considered unacceptable and may render the proposal ineligible for award. All electronic files and versions of proposals shall be submitted in Adobe Acrobat and Microsoft Office Suite (Excel) formats and be in an unlocked and searchable format. The offeror shall be responsible for ensuring that its submissions are virus free. NOTE: Each proposal submission email shall not exceed 10 Megabytes (MBs). If the proposal package exceeds 10 MBs, the offeror shall submit multiple emails so that each email is under 10 MBs. If the offeror submits multiple email submissions, they should label them accordingly (i.e., RFP N0018926RB002, Volume II - Non-Price Proposal - email 1 of 3, etc.).

Potential offerors are encouraged to carefully review all solicitation requirements and, if they have questions concerning the solicitation, should submit one consolidated list of questions concerning the solicitation via email to the solicitation point of contact, John D. Favata at john.d.favata.civ@us.navy.mil. The time and date for submission of questions is NO LATER THAN 12:00 PM PHILADELPHIA TIME on 07-April-2026. Questions should be submitted as early as feasible prior to the above date and time; questions received later may be answered at the discretion of the Navy.

Offerors shall submit their Proposals in two separate volumes as follows:

This volume shall address its Institutional Characteristics. This volume shall exclude any pricing information that would reveal the total pricing detailed in Volume III of the proposal.

Volume I - Non-Price Proposal

This volume shall address Phase I Institutional Characteristics, and Phase II consisting of Performance Approach, Academic Capabilities, and Past Performance. This volume shall exclude any pricing information that would reveal the total pricing detailed in Volume III of the proposal.

Each page of each copy of the non-price proposal should include the following legend:

Source Selection Information - See FAR 2.101 and 3.104

Volume II - Price Proposal

This volume must contain the following:

Solicitation cover sheet with appropriate blocks completed by the offeror.

-

Solicitation pricing pages completed by the offeror. (May be a stand-alone Excel file attachment.)

Acknowledgement of solicitation amendments pursuant to FAR 52.212-1 (if not previously acknowledged).

Representations and Certifications completed by the offeror in accordance with instructions contained elsewhere in this solicitation. If the offeror has completed all of the representations and certifications required by this solicitation in SAM (www.sam.gov) in accordance with FAR 52.212-3, then the offeror should so indicate in their response.

Due to the specialized nature of the work, there are no meaningful opportunities for subcontracting the principal requirements of the contract. The prime contractor will perform the essential educational services directly. Any potential subcontracted work (e.g., textbooks, online platform hosting) would be incidental and fall well below the thresholds that would necessitate a comprehensive subcontracting plan. Forcing the inclusion of a subcontracting plan would be an administrative burden without any practical benefit to small businesses. Further, the requirement necessitates the need for fully accredited academic institutions, and therefore no small business participation is anticipated with regard to subcontracts.

Each page of each copy of the price proposal should include the following legend:

Source Selection Information - See FAR 2.101 and 3.104

The completion and submission of the above items will constitute an offer (proposal) and will be considered the offeror's unconditional assent to the terms and conditions of this solicitation and any attachments and/or exhibits hereto. Offerors shall respond to all requirements of the solicitation document. Offerors are cautioned not to alter the solicitation. Any affirmative exception to the material terms and conditions of the solicitation will constitute a deficiency (see FAR 15.001) which will render the offer ineligible for award. Alternate proposals are not authorized.

In the event any person who is not a bona fide employee of the offeror participated in the creation, formulation, or writing of any portion of the proposal, a certificate to this effect shall be included in Volume II of the proposal which shall be signed by an officer of the offeror. Such certificate shall identify the name of the person who is not a bona fide employee, that person's employment capacity, the name of the person's firm, the relationship of that firm to the offeror, and the portion of the proposal in which the person participated.

REQUIREMENTS FOR PROPOSAL CONTENT:

(1) Do not include CLASSIFIED data in your proposal.

(2) Introduction and Purpose - This section specifies the format that offers should use in proposals submitted in response to this solicitation. The intent is not to restrict the offerors in the manner in which they will perform their work but rather to ensure a certain degree of uniformity in the format of the proposals for evaluation purposes.

(3) Each volume should contain the following items in addition to the other information required by this solicitation:

Cover:

The cover should indicate the following:

Title of the proposal

Volume Number (I, II, or III)

Solicitation number

Name and address of offeror

Contractor point of contact (POC) with POC's email address and phone number.

Unique Entity Identifier (UEI) and CAGE of offeror.

Table of Contents: The table of contents should provide detail sufficient to allow the important elements to be easily located.

(4) Requirements for Style: Each offeror shall submit a proposal that clearly and concisely sets forth the contractor's response to the requirements of the solicitation. The proposal shall contain all the pertinent information in sufficient detail in the one area of the proposal where it contributes most critically to the discussion. When necessary, the offeror shall refer to the initial discussion and identify its location within its proposal.

(5) Page Limitations

Volume I, "Non-Price Proposal," is limited to a maximum of 20 pages total (see page limitation by non-price factor below) in length inclusive of any charts, diagrams, and/or other graphics.

The cover letter, table of contents, acronym list (not to exceed one page each per volume) will not count toward the page limit. Pages submitted in excess of the page limitations described below will not be evaluated. The Navy may exercise discretion in determining which specific pages are considered to be in excess of the page limitations.

Each "page" is defined as one printed sheet, 8 1/2 " x 11", with at least one inch margins on all sides, using Times New Roman font with a point size of 12 or greater. Lines shall, at a minimum, be single-spaced. The only exceptions to the font size requirement shown above are that the headers and footers; charts, diagrams, and/or other graphics; and the "Past Performance Information Form" may be completed with a point size of 10 or greater. Pages shall be consecutively numbered. Multiple pages, double pages, or two-sided pages, will count as an equivalent number of 8 1/2" x 11" pages. The non-price factors shall have the following page limitations:

<u>Non-Price Evaluation Factors</u>	<u>Page Limit</u>
Institutional Characteristics	5 pages
Performance Approach	8 pages
Academic Capabilities	1 page per academic field
Past Performance	6 pages

Note: use attached "Past Performance Information Form"

Volume II, "Price Proposal," is not page limited. However, the price proposal is to be strictly limited to price information.

PROPOSAL CONTENT, Volumes I and II:

(1) Volume I - Non-Price Proposal

The Non-Price Proposal consists of the following evaluation factors:

Phase 1:

Institutional Characteristics

Phase 2:

Performance Approach

Academic Capabilities

Past Performance

The selection of offerors for award will be conducted in two Phases. Phase I will consist of evaluation of the **Institutional** Characteristics. Offerors who are determined to be Acceptable upon review of the **Institutional** Characteristics shall move on to Phase II. Offerors who are not determined to be Acceptable in Phase I will be notified that their proposal is no longer eligible for award and will not be included in the Phase II evaluation. Phase II will consist of the evaluation of Performance Approach, Academic Capabilities, Past Performance, and price. Phase II will consist of the evaluation of Performance Approach, Academic Capabilities, Past Performance, and price. The non-price evaluation factors will be considered significantly more important than price. The non-price proposal evaluation factors are Performance Approach, Academic Capabilities, and Past Performance. All three factors are equally weighted. The non-price will be considered significantly more important than price. The Government's best-value award decision will be based upon the factors evaluated in Phase II.

If Performance Approach or Academic Capabilities are not rated at least Acceptable, the offeror is ineligible for award and the remaining factors of Volume II will not be evaluated.

ADDITIONAL NOTE: Statements such as "the offeror/contractor understands," "will comply with the performance work statement," "standard procedures will be employed," "well known techniques will be used" and general paraphrasing of the performance work statement are considered inadequate. The Non-Price Proposal must provide details concerning what the contractor will do and how it will be done. This includes a full explanation of the techniques, disciplines, and procedures proposed to be followed.

(a) Institutional Characteristics

The offeror shall certify they are included on the "Database of Accreditation Postsecondary Institutions and Programs found at: <https://ope.ed.gov/dapip/#/search-results> and Maintain regional accreditation. Offerors shall complete Attachment I, *USNCC CIAS Checklist of the Database of Accreditation for Postsecondary Institutions*.

(b) Performance Approach

NOTE: Performance Approach is rated on how the offeror plans to perform the required effort and is forward looking. The offeror's past performance without sufficient explanation of how it will be applied to the required effort is not relevant to, and may not be considered in the evaluation of, Performance Approach.

The offeror shall provide in detail, a forward-looking performance approach that will successfully accomplish the requirements of the solicitation and PWS. This shall include a discussion regarding the non-academic functional and ancillary services to include admission and enrollment, online course delivery, and student support for all awarded programs. The offeror's performance approach shall address how it aligns with the USNCC learning outcomes and needs of the services. In addition, the contractor shall provide a transition plan that discusses launching new programs and a transition plan. The transition plan discussion should address if the institution closes entirely or closes a program (teach out), USNCC discontinues a program, a student leaves the USNCC program, or a student leaves the Service, (Transitioning Consortium Student), and if the Contract is terminated (Continuity of Services).

The offeror should describe any risks associated with the solicitation, including the PWS and any risks associated with implementation of the offeror's performance approach; describe any techniques and actions to mitigate such risks; and explain whether the techniques and actions identified for risk mitigation have been successfully used by the offeror.

The offeror should provide any other information the offeror considers relevant to the solicitation.

(c) Academic Capabilities

Offerors shall address their academic capabilities with regards to the academic program fields identified in Attachment II: USNCC Academic Program Classification. To demonstrate this, offerors shall complete degree information form and provide all requested information. Each program submission cannot exceed 1 page each.

Failure of an offeror to provide the required information and level of specificity may result in the academic field and program not being considered for award.

The academic program capabilities will be evaluated in the aggregate in order to identify technical superiority of offerors who are capable of supporting numerous academic fields. The academic programs the contractor is determined to be capable of supporting will be incorporated into the resultant award as the programs in which a task order can be issued for.

(d) Past Performance

The offeror shall demonstrate relevant past performance or affirmatively state that it possesses no relevant past performance. Relevant past performance is experience within the past five (5) years that is the same as or similar to the scope and magnitude of the work described by this solicitation.

To demonstrate its past performance, the offeror shall identify up to **THREE (3)** of its most relevant contracts or efforts within the past five (5) years of the solicitation issuance date.

For purposes of this solicitation, a contract or effort is defined as a single contract or a combination of task orders (within the limits provided herein) placed under an IDIQ contract, a Blanket Purchase Agreement (BPA), or a Federal Supply Schedule (FSS). Offerors shall not submit the IDIQ contract, BPA, or itself as a reference, but shall provide the IDIQ/BPA/FSS number and the task order number(s). Offerors may submit a combination of no more than two (2) delivery orders (DOs), task orders (TOs), technical direction letters (TDLs), and/or technical area tasks (TATs) placed under an IDIQ or BPA as one of the three (3) past performance references. Such a combination must also meet the requirements stated above: each individual reference in the combination must have been performed within five (5) years of the solicitation issuance date. If a combination of DOs, TOs, TDLs and or TATs are used as a past performance reference, the offeror shall state the specific experience claimed, period of performance, and dollar value of each. A past performance reference that does not provide the level of detail required may not be evaluated. No more than one combination of DOs, TOs, TDLs and or TATs is permitted in the past performance submittal.

Offerors shall provide a detailed explanation demonstrating the relevance of the contracts or efforts to the requirements of the solicitation. Offerors should also cite the task sections or subsections of the PWS to which the past performance is relevant for each of the three (3) contracts or efforts.

The offeror may identify contracts or efforts for its proposed subcontractors among the three (3) past performance references provided in its proposal. If subcontractor past performance is provided as part of the three (3) most relevant contracts or efforts, the subcontractor past performance will be given weight proportional to the scope and magnitude of the aspects of the work under the solicitation for which the subcontractor is proposed. Therefore, the offeror's proposal shall detail clearly the aspects of the work in the solicitation that the subcontractor is proposed to perform. It is the offeror's responsibility to adequately explain the relevance of a reference provided for a subcontractor's past performance to the effort that the subcontractor is proposed to perform under the solicitation. A past performance reference which does not detail clearly the aspects of the work in the solicitation that the subcontractor is proposed to perform may not be evaluated.

If the prime offeror or intended subcontractor/partner submits a past performance reference in which it served as a subcontractor, the prime/sub/partner shall detail clearly the work that it performed and the magnitude (dollar value) of that subcontracted work only. A past performance reference that does not differentiate between the overall contract effort and the subcontractor effort may not be evaluated.

With respect to joint ventures, the procuring activity will consider work done individually by each member of the joint venture as well as any work done by the joint venture itself previously. Joint venture references must meet the requirements stated above: each joint venture reference must have been performed within five (5) years of the solicitation issuance date. Additionally, if a joint venture member submits a past performance reference, the joint venture member shall detail clearly the work that it performed in that reference and the magnitude (dollar value) of that work. A reference that does not differentiate between the overall contract effort and the joint venture member's effort for that reference may not be evaluated.

In order to receive credit for the past performance of an affiliate, the proposal must clearly demonstrate that the affiliate will be meaningfully involved in performance of the solicited contract. That is, the resources of the affiliate, (e.g., workforce, management, facilities, or other resources that demonstrably contributed to the affiliate's performance on the submitted project(s)) will be provided or relied upon by the contractor for contract performance on the solicited requirement to an extent that warrants attribution of the affiliate's past performance to the offeror. **While there may be multiple ways to demonstrate meaningful involvement, generally reach back capability to the affiliate's or common parent's resources alone does not establish meaningful involvement.** The Agency will not consider an affiliate's record where that record does not bear on the likelihood of successful performance by the offeror. The offeror should also describe the relationship between the offeror and the affiliate. If the offeror purchased or merged with the affiliate, the offeror should state the date of purchase/merger and whether the affiliate's personnel and resources were retained by the offeror after the purchase/merger. The Agency will assess the narrative to determine whether, and to what degree, to attribute the affiliate's past performance to the offeror. If the proposal lacks sufficient detail to establish meaningful involvement by the affiliate, the Agency, at its discretion, may decline to consider the past performance of the affiliate in the evaluation.

Failure of an offeror to provide the required information and level of specificity may result in the contract reference not being evaluated.

The past performance references will be evaluated in the aggregate in order to allow offerors who may not have the entire scope and magnitude of the requirement under one individual contract to still be considered acceptable if experience with the full scope and magnitude of the requirement can be demonstrated within the allotted number of references as described above.

The Past Performance evaluation will result in a past performance confidence assessment.

The Government reserves the right to obtain information for use in the evaluation of past performance from any and all sources including sources outside of the Government. When an offeror is determined to have relevant past performance, the quality of its relevant past performance will be evaluated. Offerors lacking relevant past performance history will not be evaluated favorably or unfavorably under the Past Performance factor. However, the proposal of an offeror with no relevant past performance history, while

not rated favorably or unfavorably for past performance, may not represent the most advantageous proposal to the Government and, thus, may be an unsuccessful proposal when compared to the proposals of other offerors. The evaluation of Past Performance is separate and distinct from the Contracting Officer's responsibility determination. The assessment of the offeror's past performance will be used as a means of evaluating how capable the offeror is of successfully accomplishing the requirements of the solicitation. In determining the rating for the Past Performance evaluation factor, the Government will give greater weight to the contracts or efforts which are determined to have greater relevance to the solicitation. An offeror whose past performance demonstrates either a low expectation or no expectation that the offeror will be able to successfully perform the required effort will be considered ineligible for award.

The offeror should complete a "Past Performance Information Form" - which is included as a separate attachment to the solicitation - for each reference submitted. The forms will count toward the non-price proposal page limit described above. For additional information regarding a particular reference beyond that which will fit on the form, the offeror may continue onto another sheet of paper. Such continuation sheet(s) for submitted references will count toward the non-price proposal page limit. Only a single set of up to **THREE (3)** references shall be submitted.

(2) Volume III - Price Proposal

The Price Proposal in Volume III shall include the solicitation pricing pages completed by the offeror. The solicitation pricing pages completed by the offeror along with the completed Attachment I "Pricing Spreadsheet." The proposed fully burdened Firm Fixed Price credit hour rates shall be provided by the offeror in Attachment I "Pricing Spreadsheet" of the solicitation and will be incorporated into the resultant contract as the ceiling rates for each labor category.

The price proposal shall include all elements of price, and such other price information considered appropriate to support the offeror's proposal. No price information shall be submitted in any other section of the proposal. Price proposals shall be held firm for one-hundred-eighty (180) days. The price information shall be completed in accordance with the following:

1. A completed and signed Standard Form (SF) 1449 "Solicitation/Contract/Order for Commercial Products and Commercial Services."

1. Pricing information shall be submitted in Microsoft Excel format. Pricing narrative shall be provided in Microsoft Word /PDF.

2. A completed and signed page 1 of the most current version of the solicitation and any amendments.

3. Unless completed in SAM, RFP Section, Representation, Certification and Other Statements of Vendors - completed by the offeror. This includes the certification requirements of FAR 52.212-3.

For the purpose of preparing a price proposal, the offeror shall assume that the resultant IDIQ contract will consist of the following five-year base ordering period and one (1) six-month option ordering period (to account for the FAR 52.217-8 "Option to Extend Services" clause):

The contract term will consist of a five-year ordering period commencing on 1 August 2026 ordering period beginning 8/1/2026 or date of award whichever is later, through 60 months thereafter. The contract resulting from this acquisition strategy will also include FAR clause 52.217-8 "Option to Extend Services," which allows for an additional six (6) month optional ordering period.

*** The option ordering period represents services covered under the FAR 52.217-8 "Option to Extend Services" clause - which shall not exceed six (6) months.

An economic price adjustment clause will be included in the contract to allow for specified contingencies such as changes in tuition rates and fees set by the State boards of various commonwealths and states.

A price realism analysis will not be conducted.

IMPORTANT NOTES:

(1) The pricing information shall be completed in accordance with the following:

- (a) The solicitation pricing pages completed by the offeror along with the completed Attachment I "Pricing Spreadsheet." The proposed fully burdened Firm Fixed Price credit hour rates shall be provided by the offeror in Attachment I "Pricing Spreadsheet" of the solicitation and will be incorporated into the resultant contract as the ceiling rates for each labor category. All proposed rates shall be expressed as a value and be rounded to two decimal places (no formulas). Failure to include a credit hour rate within Attachment I "Pricing Spreadsheet" may deem an offeror to be non-responsive. Offerors are to identify any economies of scale that would lower their credit hour rate at task order issuance.

The credit hour rate prevails if a discrepancy exists between the credit hour rate and the extended price. The contractor's price shall be inclusive of all the contractor's direct costs, indirect costs, and profit and shall include all costs associated with providing the services described in the PWS and the solicitation.

Note on Task Order Pricing: The prices or credit hour rates that are in effect on the date any task order is issued by the Government shall apply for the full period of performance of the task order. If the task order also includes option periods, the rates that are in effect on the date the option period is exercisable shall apply for the full period of performance of the option period.

- (b) All price and price supporting information shall be contained in the price proposal. No price or pricing information shall be included in any other volume. Offerors are responsible for submitting sufficient information to enable the Government to fully evaluate their price proposal.

(e) The following amounts (including applicable burdens) will be utilized by the Government for evaluation purposes only in determining the total evaluated price of a proposal.

Not applicable

(f) Any and all subcontracts identified in the non-price proposal shall be identified and priced in the price proposal. Subcontracts (regardless of dollar value) shall be adequately documented. Subcontractor price breakdowns may be submitted in separate emails.

NOTE: The prime contractor shall provide a list of all its subcontractors, the type of contract it will hold with each subcontractor (i.e. CPFF, FFP, LH, etc.), the value of each subcontract and the cognizant Security Office (name, address, and identification code) for each subcontractor.

252.215-7008 Only One Offer.

(Dec 2022)

ONLY ONE OFFER (DEC 2022)

(a) *Cost or pricing data requirements.* After initial submission of offers, if the Contracting Officer notifies the Offeror that only one offer was received, the Offeror agrees to-

(1) Submit any additional cost or pricing data that is required in order to determine whether the price is fair and reasonable (10 U.S.C. 3705) or to comply with the statutory requirement for certified cost or pricing data (10 U.S.C. 3702 and FAR 15.403-3); and

(2) Except as provided in paragraph (b) of this provision, if the acquisition exceeds the certified cost or pricing data threshold and an exception to the requirement for certified cost or pricing data at FAR 15.403-1(b)(2) through (5) does not apply, certify all cost or pricing data in accordance with paragraph (c) of DFARS provision 252.215-7010, Requirements for Certified Cost or Pricing Data and Data Other Than Certified Cost or Pricing Data, of this solicitation.

(4) As specified in FAR 15.403-3(a)(4), an offeror who does not comply with a requirement to submit data that the U.S. Contracting Officer has deemed necessary to determine price reasonableness or cost realism is ineligible for award unless the head of the contracting activity determines that it is in the best interest of the Government to make the award to that offeror.

(May 2024) Alternate I (Aug 2024)

Alternate I. As prescribed in 215.408(5)(i) and (5)(i)(B), use the following provision, which includes different paragraphs (c)(1) and (d)(3) than the basic clause.

**REQUIREMENTS FOR CERTIFIED COST OR PRICING DATA AND DATA OTHER THAN CERTIFIED COST OR PRICING DATA-
ALTERNATE I (AUG 2024)**

(a) *Definitions.* As used in this provision-

"Market prices" means current prices that are established in the course of ordinary trade between buyers and sellers free to bargain and that can be substantiated through competition or from sources independent of the offerors.

"Non-Government sales" means sales of the supplies or services to non-Governmental entities for purposes other than governmental purposes.

"Relevant sales data" means information provided by an offeror on sales of the same or similar items that can be used to establish price reasonableness taking into consideration the age, volume, and nature of the transactions (including any related discounts, refunds, rebates, offsets, or other adjustments).

"Sufficient non-Government sales" means relevant sales data that reflects market pricing and contains enough information to make adjustments covered by Federal Acquisition Regulation (FAR) 15.404-1(b)(2)(ii)(B).

"Uncertified cost data" means the subset of "data other than certified cost or pricing data" (see FAR 2.101) that relates to cost.

(b) *Exceptions from certified cost or pricing data.*

(1) In lieu of submitting certified cost or pricing data, the Offeror may submit a written request for exception by submitting the information described in paragraphs (b)(1)(i) and (ii) of this provision. The Contracting Officer may require additional supporting information, but only to the extent necessary to determine whether an exception should be granted and whether the price is fair and reasonable.

(i) *Exception for price set by law or regulation - Identification of the law or regulation establishing the price offered.* If the price is controlled under law by periodic rulings, reviews, or similar actions of a governmental body, attach a copy of the controlling document, unless it was previously submitted to the contracting office.

(ii) *Commercial product or commercial service exception.* For a commercial product or commercial service exception, the Offeror shall submit, at a minimum, information that is adequate for determining commerciality and evaluating the reasonableness of the price for this acquisition, including prices at which the same product or service or similar products or services have been sold in the commercial market. Such information shall include-

(A) For products or services previously determined to be commercial, the contract number and military department, defense agency, or other DoD component that rendered such determination, and if available, a Government point of contact;

(B) For subsystems of a major weapon system and components and spare parts of a major weapon system or subsystem of a major weapon system that have not previously been determined to be commercial-

(1) The comparable commercial product the Offeror sells to the general public or nongovernmental entities;

(2) A comparison between the physical characteristics and functionality of the comparable commercial product and the subsystem, component, or spare part, including-

(i) For products under paragraph (3)(i) of the "commercial product" definition at FAR 2.101, a description of the modification and documentation to support that the modification is customarily available in the marketplace; or

(ii) For products under paragraph (3)(ii) of the "commercial product" definition at FAR 2.101, a detailed description of the modification and detailed technical data to demonstrate that the modification is minor (e.g., information on production processes and material differences); and

(3) The national stock number (NSN) for the comparable commercial product, if one is assigned, and the NSN for the subsystem, component, or spare part; or

(4) If the Offeror does not sell a comparable commercial product to the general public or nongovernmental entities for purposes other than government purposes, the Offeror shall-

(i) Notify the Contracting Officer in writing that it does not sell such a comparable product; and

(ii) Provide the Contracting Officer with a comparison of the physical characteristics and functionality of the most comparable commercial product in the commercial market.

(C) For items priced based on a catalog-

(1) A copy of or identification of the Offeror's current catalog showing the price for that item; and

(2) If the catalog pricing provided with this proposal is not consistent with all relevant sales data, a detailed description of differences or inconsistencies between or among the relevant sales data, the proposed price, and the catalog price (including any related discounts, refunds, rebates, offsets, or other adjustments);

(D) For items priced based on market pricing, a description of the nature of the commercial market, the methodology used to establish a market price, and all relevant sales data. The description shall be adequate to permit DoD to verify the accuracy of the description;

(E) For items included on an active Federal Supply Service Multiple Award Schedule contract, proof that an exception has been granted for the schedule item; or

(F) For items provided by nontraditional defense contractors, a statement that the entity is not currently performing and has not performed, for at least the 1-year period preceding the solicitation of sources by DoD for the procurement or transaction, any contract or subcontract for DoD that is subject to full coverage under the cost accounting standards prescribed pursuant to 41 U.S.C. 1502 and the regulations implementing such section.

(2) The Offeror grants the Contracting Officer or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify any request for an exception under this provision, and to determine the reasonableness of price.

(c) *Requirements for certified cost or pricing data.* If the Offeror is not granted an exception from the requirement to submit certified cost or pricing data, the following applies:

(1) The Offeror shall submit certified cost or pricing data and supporting attachments in the following format: ____*[Insert description of the data and format that are required, and include access to records necessary to permit an adequate evaluation of the proposed price in accordance with FAR 15.408, Table 15-2, Note 2. The Contracting Officer shall insert the description at the time of issuing the solicitation or specify that the format regularly maintained by the offeror or prospective subcontractor in its business operations will be acceptable. The Contracting Officer may amend the description as the result of negotiations.]*

(2) As soon as practicable after agreement on price, but before contract award (except for unpriced actions such as letter contracts), the Offeror shall submit a Certificate of Current Cost or Pricing Data, as prescribed by FAR 15.406-2.

(3) The Offeror is responsible for determining whether a subcontractor qualifies for an exception from the requirement for submission of certified cost or pricing data on the basis of adequate price competition, i.e., two or more responsible offerors, competing independently, submit priced offers that satisfy the Government's expressed requirement in accordance with FAR 15.403-1(c)(1)(ii).

(d) *Requirements for data other than certified cost or pricing data.*

(1) Data other than certified cost or pricing data submitted in accordance with this provision shall include all data necessary to permit a determination that the proposed price is fair and reasonable, to include the requirements in Defense Federal Acquisition Regulation Supplement (DFARS) 215.402(a)(i), 215.404-1(b), and 234.7002(e).

(2) In cases in which uncertified cost data is required, the information shall be provided in the form in which it is regularly maintained by the Offeror or prospective subcontractor in its business operations.

(3) If the Offeror redacts data that identifies the customer (see DFARS 234.7002(e)(2)), then the Offeror shall include, for each sale, the following signed statement with the data submitted:

"By submission of this data, the Offeror _____[Offeror insert company name] certifies that the customer was _____[Offeror insert one or more of the following as applicable: a government customer (e.g., Federal, state, local, or foreign government); a commercial customer purchasing the same or similar product for governmental purposes; or a commercial customer purchasing the same or similar product for a commercial, mixed, or unknown purpose]."

(4) The Offeror shall provide information described as follows: *[Insert description of the data and the format that are required, including access to records necessary to permit an adequate evaluation of the proposed price in accordance with FAR 15.403-3 or DFARS 234.7002(e)].*

(5) Within 10 days of a written request from the Contracting Officer for additional information to support proposal analysis, the Offeror shall provide either the requested information, or a written explanation for the inability to fully comply.

(6) *Subcontract price evaluation.*

(i) Offerors shall obtain from subcontractors the information necessary to support a determination of price reasonableness, as described in FAR part 15 and DFARS part 215.

(ii) No cost information may be required from a prospective subcontractor in any case in which there are sufficient non-Government sales of the same item to establish reasonableness of price.

(iii) If the Offeror relies on relevant sales data for similar items to determine the price is reasonable, the Offeror shall obtain only that technical information necessary-

(A) To support the conclusion that items are technically similar; and

(B) To explain any technical differences that account for variances between the proposed prices and the sales data presented.

(e) *Subcontracts.* The Offeror shall insert the substance of this provision, including this paragraph (e), in all subcontracts exceeding the simplified acquisition threshold defined in FAR part 2. The Offeror shall require prospective subcontractors to adhere to the requirements of-

(1) Paragraph (c) and (d) of this provision for subcontracts above the threshold for submission of certified cost or pricing data in FAR 15.403-4; and

(2) Paragraph (d) of this provision for subcontracts exceeding the simplified acquisition threshold defined in FAR part 2.

Section M - Evaluation Factors for Award

FAR 52.212-2 "Evaluation - Commercial Products and Commercial Services"

NOTE: Please see FAR 52.212-1 "Instructions to Offerors - Commercial Products and Commercial Services" above for information regarding the submission and evaluation of Step One submissions.

EVALUATION OF PROPOSALS (FFP BEST-VALUE/TRADE-OFF)

Proposal Evaluation:

Proposals will be evaluated in accordance with the instructions set forth in FAR 52.212-1, as well as the evaluation criteria contained in this section. The Government intends to award multiple FFP IDIQ contracts to the responsible offerors whose proposals represents the best value after evaluation in accordance with the factors in the solicitation by utilizing the tradeoff source selection process. The non-price factors will be rated utilizing adjectival ratings and definitions consistent with those provided in Table 3, Table 4, Table 5, and Table 6, as applicable, of the DoD Source Selection Procedures (which can be found at <https://www.acq.osd.mil/dpap/policy/policyvault/USA000740-22-DPC.pdf>). The offeror's proposal shall be in the form prescribed by and shall contain a response to each of the areas identified in FAR 52.212-1 "Instructions to Offerors - Commercial Products and Commercial Services." The Government reserves the right to award a contract to other than the offeror with the lowest priced proposal or to other than the offeror with the highest technically rated non-price proposal; award a contract without discussions; or award a contract after discussions, whichever is in the best interest of the Government.

All proposals will be reviewed for timeliness. If the proposal is received after the solicitation closing date and does not meet the criteria for "late proposals" in the solicitation, the proposal will not be evaluated. Timely proposals will be reviewed for compliance to the solicitation. If the proposal is not compliant to the solicitation, it will NOT be evaluated, and the Offeror will be notified that the proposal is non-responsive and, therefore, will not be considered for award.

The Government reserves the right to award without discussions. Accordingly, the offerors should submit its most favorable terms from non-price and price standpoints. However, the Government reserves the right to conduct discussions if later determined by the Procuring Contracting Officer (PCO) to be necessary. Offerors simply providing general statements or paraphrasing/parroting the PWS in whole or in any part may result in a rating of "Unacceptable."

The selection of offerors for award will be conducted in two Phases. Phase I will consist of evaluation of the Institutional Characteristics. Offerors who are determined to be Acceptable upon review of the Instructional Characteristics shall move on to Phase II. Offerors who are not determined to be Acceptable in Phase I will be notified that their proposal is no longer eligible for award and will not be included in the Phase II evaluation. Phase II will consist of the evaluation of Performance Approach, Academic Capabilities, Past Performance, and price. The non-price will be considered significantly more than price. Within the non-price proposal, Performance Approach, Academic Capabilities, and Past Performance are equally weighted. The Government's best-value award decision will be based upon the factors evaluated in Phase II.

The non-price factor of Performance Approach must be determined to be Acceptable or better in order to be eligible for award. If an offeror's Performance Approach is rated less than Acceptable that concludes the evaluation of that proposal (i.e., if Performance Approach is rated less than Acceptable, Academic Capabilities, and Past Performance shall not be evaluated).

A rating that is less than Acceptable in any non-price evaluation factor and/or less than a Satisfactory

Confidence rating in the Past Performance evaluation factor will render a proposal ineligible for award

consideration as submitted.

Institutional Capabilities:

-

The Institutional Capabilities factor will be evaluated in accordance with the Institution Capabilities instructions in FAR 52.212-1.

Performance Approach:

-

The Performance Approach factor will be evaluated in accordance with the Performance Approach instructions at FAR 52.212-1.

Academic Capabilities:

-

The Academic Capabilities factor will be evaluated in accordance with the Academic Capabilities instructions in FAR 52.212-1. Offerors may only be awarded an IDIQ in support of the academic programs in which they are determined to be capable of supporting.

Past Performance:

The Past Performance factor will be evaluated in accordance with the Past Performance instructions at FAR 52.212-1.

In considering the relevance of an offeror's past performance, the past performance references provided by the offeror will be evaluated individually and in the aggregate. The method of aggregation shall be at the discretion of the Government. Individual references determined to be not relevant shall not be included in the aggregate evaluation. Only references exhibiting a meaningful degree of relevance in scope shall be considered in the aggregate. If subcontractor past performance is provided as part of the three (3) most relevant contracts or efforts, the subcontractor past performance will be given weight proportional to the scope, and magnitude of the aspects of the work under the solicitation for which the subcontractor is proposed. The Government reserves the right to obtain information for use in the evaluation of past performance from any and all sources including sources outside of the Government. When an offeror is determined to have relevant or somewhat relevant past performance, the quality of such past performance will be evaluated. Offerors lacking any relevant or somewhat relevant past performance history will not be evaluated favorably or unfavorably under the Past Performance factor. However, the proposal of an offeror with no relevant past performance history, while not rated favorably or unfavorably for past performance, may not represent the most advantageous proposal to the Government and, thus, may be an unsuccessful proposal when compared to the proposals of other offerors. The evaluation of Past Performance is separate and distinct from the Contracting Officer's responsibility determination. The assessment of the offeror's past performance will be used as a means of evaluating how capable the offeror is of successfully accomplishing the requirements of the solicitation. In determining the rating for the Past Performance evaluation factor, the Government will give greater weight to the contracts or efforts which are determined to have greater relevance to the solicitation. An offeror whose past performance demonstrates either a low expectation or no expectation that the offeror will be able to successfully perform the required effort will be considered ineligible for award.

NOTE: A rating of "Limited Confidence" for the past performance factor means that the proposal submitted in response to the solicitation is not awardable without a change or changes to the proposal. A proposal that includes a "Limited Confidence" rating is considered to be susceptible to correction if the contracting officer determines that an exchange is appropriate and said exchange is conducted. A rating of "No Confidence" for the past performance factor means that the proposal is not awardable, is not susceptible to correction, and will not be further evaluated.

Price:

A price analysis will be used to evaluate price reasonableness. A price realism analysis will not be conducted.

Offerors responding to this solicitation are advised that, prior to award, the Government may request offerors to submit information /data to support price reasonableness such as copies of paid invoices for the same or similar items, sales history for the same or similar items, price list with effective date and/or copies of catalog pages along with any applicable discounts. Failure to submit the requested information may result in disqualification of the submitted offer.

The Government may evaluate any and all information submitted by the vendor to support the reasonableness of prices proposed. The method of evaluation used by the Contracting Officer is solely within the discretion of the Contracting Officer.

FAR 52.217-8 "Option to Extend Services" will be evaluated pursuant to solicitation provision FAR 52.217-5 "Evaluation of Options." The Government will evaluate offers for award purposes by adding the total price for the option period to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option period.

The evaluated price will be the offeror's total proposed price. The total proposed price is determined by adding together the proposed prices for all CLINs. The total evaluated price will be evaluated as fair and reasonable using techniques in FAR 15.404-1 as elected by the Contracting Officer.

A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer, whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

NOTE: Proposals submitted in response to this solicitation shall be valid for a minimum of 180 days from the solicitation closing date.
