

CONTROLLED UNCLASSIFIED INFORMATION

Sole Source (Including Brand Name) Justification - Simplified Procedures for Certain Commercial Items

NOTE: If a Justification was approved for the preceding acquisition, a copy of the approved Justification for the predecessor action must be included in the staff package for approval of the instant Justification. This applies to Justification staff packages that are submitted for review and approval at a level above the contracting officer. The predecessor Justification will be used as a reference document by the approving official.

Is this a new or amended J&A Document? ☒ New ☐ Amended (Prior to Award Only!)

Is this a Bridge Action as defined in the [AF Bridge Action Reduction Plan](#)? ☐ Yes ☒ No

Funding level for this acquisition: ☒ >SAT and ≤ \$900K ☐ > \$900K and ≤ \$15M

Contracting Activity: AFLCMC/ROMK

Purchase Request / Local ID Number: 26M-630A/B/C/D/E/F/G-FO

Program / Project (and PE, if applicable): AFPSL - Load Cell Exchange

Program Type (PEO or Other Contracting): PEO (Combat Readiness)

Authority: ☒ AFFARS 5313.501 - 10 U.S.C. 3572, Implementation of Simplified Acquisition Procedures (41 U.S.C. 1901)

☐ AFFARS 5313.501 - 10 U.S.C. 3403, Special Emergency Procurement Authority (41 U.S.C. 1903)

Estimated Contract Cost (including options): XXXXXXXXXX Justification Type: ☐ Class ☒ Individual

Per PM 26-C-01 Attachment 1, Inflation Adjustment of Acquisition Related Thresholds - Effective 1 Oct 2025, "Approval thresholds of justifications for other than full and open competition (FAR 6.304) will increase from \$750,000 to \$900,000."

Sole Source (Including Brand Name) Justification - Simplified Procedures for Certain Commercial Items

I. Contracting Activity.

AFMETCAL/ROMK, 813 Irving Wick Drive West, Heath Ohio 43056-1199.

II. Nature and/or description of the action being processed.

This J&A is for a new sole source, firm-fixed-price commercial contract to procure load cells, digital indicators, adapters, and travel cases. The proposed contractor is Tovey Engineering Inc. (Tovey). The projected period of performance is 7/1/2026-9/30/2030

III. Description of supplies/services required to meet agency needs.

CS10-2.5K-B300, CS10-10K-B300, CS20-30K-B300, and CS20-60K-B300 load cells and the 9150-2-300 digital indicator quantities to be purchased are 125 units (25 units per part number) from FY26-30 using 3080/Investment funds at a total estimated price of [REDACTED]. Only 20 units (5 per part number but no units for the 60K) are being purchased the first year, remaining units are options that will only be exercised if existing assets continue to be damaged.

Additionally, P/Ns 2133-0007-02, 2133-0009-02, 2133-0008, 2133-0010, 210506, and 2133-0012 load adapters and TC-10-300, TC-20-30K-300, TC-20-60K-300, and TC-Inst-300 cases quantities to be procured are 50 units (5 per part number in FY26 using 3080/Investment funds at a total estimated price of [REDACTED]

IV. Statutory authority permitting other than full and open competition.

[10 USC 2304\(c\)\(1\), as implemented by Federal Acquisition Regulation \(FAR\) Part 6.302-1\(a\)\(1\) Only One Responsible Source and No Other Supplies or Services Will Satisfy Agency Requirements, and required by FAR 6.303-2\(b\)\(4\).](#)

V. Demonstration that the contractor's unique qualifications or nature of the acquisition requires the use of the authority cited above (applicability of authority).

The Tovey C3-100 Automated Vertical Force Press, CS Series Load Cells, 9150-2-300 Digital Indicators, adapters, and travel cases were originally procured under FA2263-11-C-0002. This procurement process was completed without a sole source or limited source procedure.

New Tovey CS Series load cells and 9150-2-300 digital indicators are needed to replace the current load cells, digital indicators, load adapters, and transport cases that are damaged beyond repair or have degraded due to age. These items shall have the same capabilities and specifications as the items currently in the Air Force Force Exchange Kit inventory that were procured under FA2263-11-C-0002.

The Tovey CS Series load cells serve as the base reference standards for force measurements in the Air Force. The load cells are designed to interface exclusively with the Tovey C3-100 Automated Vertical Force Press which is located at 31 PMELs. The C3-100 utilizes software to provide faster calibrations. Proper configuration between the C3-100 software, C3-100 hardware, load cells, and indicator are required for the system to perform. It involves proprietary technology and software which the manufacturer is unwilling to release to another company. Procuring load cells and indicators from another manufacturer would make the C3-100 inoperable.

AFMETCAL owns 82 load cell kits to support the 65 PMELs and the exchange program. Procuring a relatively small number of load cells from another manufacture would introduce unnecessary configuration control issues to the calibration program and to the support of the force measurement area.

Full and Open competition would result in a duplicated cost to the Air Force of:

New Automated Force Press (Qty: 31, Cost per unit: [REDACTED]) = [REDACTED]

New Load Cell Standard Kits (Qty: 82 kits, Kit includes 4 load cells and indicator, Kit cost: [REDACTED]) = [REDACTED]

Total cost: [REDACTED]

Sole Source (Including Brand Name) Justification - Simplified Procedures for Certain Commercial Items

VI. Description of efforts made to ensure that offers are solicited from as many potential sources as practicable.

AFMETCAL Contracting and Small Business Representative-issued Sources Sought Synopsis with draft PD was posted on 7/24/2025 and closed 8/25/2025 and received one reply. The company who replied to the SSS does not possess capability to provide the necessary equipment.

VII. Determination by the Contracting Officer that the anticipated cost to the Government will be fair and reasonable.

A cost analysis will be performed to determine if the proposed amount is fair and reasonable. Price analysis will be used to verify the overall price offered is fair and reasonable.

VIII. Description of the market research conducted and the results, or a statement of the reasons market research was not conducted.

As described in Section VI of this document, market research, IAW FAR Part 10, was conducted by Sources Sought Synopsis to advise industry of the proposed acquisition and to solicit inquiries from interested parties. Based on the results of this market research, the Air Force Technical Team determined that Tovey Engineering provides the best value to the government and no other vendor besides Tovey Engineering was found to be able to meet the requirements described in this Justification and Approval.

IX. Any other facts supporting the use of Other Than Full and Open Competition.

The component items are COTS items, so delays in delivery are not expected.

X. List of any sources that expressed, in writing, an interest in the acquisition.

Tovey Engineering, Inc.
1619 W Knudsen Dr
Phoenix, AZ 85027
POC: Mike Tovey
Phone: (623) 434-5110
E-mail: miketovey@toveyengineering.com

XI. A statement of the actions, if any, the agency may take to remove or overcome any barriers to competition before making subsequent acquisitions for the supplies or services required.

Tovey is the manufacturer of the original calibration system. Operating the calibration system involves proprietary technology and software which the manufacturer is unwilling to release to another company. For this requirement there is no other action that can be accomplished to generate competition without a substantial duplication of costs. This procurement will provide the best value to the Government at this time. A sole source effort is required for the base quantities and option years to prevent significant downtime and increased calibration costs due to proprietary data involved with the upgrade. We will continue to monitor the market place to see if other viable vendors become available.

XII. Certification by the Contracting Officer.

As evidenced by my signature above, I have determined this document to be both accurate and complete to the best of my knowledge and belief.

XIII. Certification by the technical/requirements personnel.

As evidenced by my (our) signature(s) above, I (we) certify that any supporting data contained herein, which is my (our)

Sole Source (Including Brand Name) Justification - Simplified Procedures for Certain Commercial Items

responsibility, is both accurate and complete.
