

Request for Information (RFI)

Tier 2 Gooseneck Mobile Command Post Vehicle (MCPV) Trailer

10 APRIL 2026

1. Notice Type

This is a Request for Information (RFI) issued for market research purposes only. This is not a solicitation and does not constitute a commitment by the Government to issue a solicitation or award a contract.

2. Background

The Government is seeking industry input regarding the design, development, and production of Tier 2 Gooseneck Mobile Command Post Vehicle (MCPV) Trailer system to support mission-critical operations.

These Tier 2 MCPV Trailers are intended to provide mobile command, control, communications, and computing (C4) capabilities in support of:

- Emergency response
- Major investigations
- Special events
- Interagency coordination

The Government anticipates a future Indefinite Delivery/Indefinite Quantity (IDIQ) contract for the design-build and sustainment of these systems.

3. Purpose

The purpose of this RFI is to:

- Identify capable and qualified vendors
- Assess industry capabilities and innovative solutions
- Refine the Government's acquisition strategy and requirements
- Obtain feedback on a performance-based approach (SOO/PWS)
- Identify risks, cost drivers, and schedule considerations

4. Scope of Potential Requirement

The Government is interested in solutions capable of:

- Designing and manufacturing mobile command post trailers (gooseneck configuration)
- Integrating advanced communications systems, including:
 - Satellite (LEO preferred)
 - RF communications
 - Cellular systems
- Providing self-contained power systems with redundancy
- Supporting 15–20 personnel in a mobile workspace
- Delivering secure, interoperable C4 capabilities
- Providing lifecycle sustainment and support

5. Requested Information

Interested vendors are requested to provide the following:

5.1 Company Information

- Company name, address, and point of contact
- Business size and socio-economic status
- Relevant certifications (e.g., ISO 9001)

5.2 Capability Statement

Provide a summary of your company's ability to:

- Design and manufacture mobile command vehicles or similar platforms
- Integrate communications, power, and IT systems
- Deliver complex vehicle-based systems under IDIQ contracts
- Provide nationwide maintenance and sustainment support

Include examples of previous projects of similar size and complexity.

5.3 Technical Approach (Conceptual)

Provide a high-level description of your approach to:

- Tier 2 MCPV trailer design (layout, materials, expandability)
- Power generation and redundancy strategy
- Communications architecture
- Integration with a prime hauler vehicle
- Modularity and upgradeability

5.4 Performance-Based Acquisition Feedback

The Government intends to use a Statement of Objectives (SOO) with an offeror-proposed PWS approach.

Please provide feedback on:

- Feasibility of this approach
- Recommended performance metrics
- Risks or challenges with performance-based requirements
- Suggested improvements

5.5 Rough Order of Magnitude (ROM)

Provide a non-binding ROM estimate for:

- Single Tier 2 MCPV trailer unit (design + build)
- Estimated cost drivers (e.g., communications, power, materials)
- Cost differences between baseline vs. advanced configurations

5.6 Schedule

Provide estimated timelines for:

- Design phase
- Prototype delivery
- Production lead times

5.7 Industry Feedback

Provide input on:

- Key technical risks
- Supply chain considerations
- Warranty and sustainment best practices

6. Responses

Responses shall:

- Be limited to 15–20 pages (excluding cover page)
- Be submitted electronically in PDF format
- Clearly identify RFI Title in subject line

7. Submission Information

Submit responses to:

- Point of Contact: Contracting Officer, Melissa Golicz
- Email: mgolicz@fbi.gov
- Submission Deadline: 30 APR 2026

8. Disclaimer

This RFI:

- Is for information and planning purposes only
- Does not constitute a solicitation
- Does not obligate the Government to issue a solicitation or award a contract
- Will not result in reimbursement for any costs incurred

9. Industry Engagement

The Government may:

- Conduct one-on-one vendor discussions
- Host an industry day or demonstration event
- Request additional information following review of responses
