2012 S130 Bobcat Skid Loader with 2,343 hours- Trade In				
0008	2.00	EA	_____	_____
Bobcat Buckets Trade In				
			GRAND TOTAL	_____

QUESTIONS AND ANSWERS

Q1. What Bobcat machine is currently being used at the facility and what attachments are currently being used at the facility.

A1: It is a 2012 Bobcat S130 with 2,343 hours on it currently. The machine does have a 7 pin connector and is required for connecting to our 6 way bulldozer blade. We have other typical attachments such as the stump grinder (in the pictures), buckets, snow blades, levelers, snow boxes, brooms, etc.

Buckets are standard duty – one with teeth and the other without teeth with normal wear and tear. Both are just wide enough to cover the tracks of the machine. Unknown dates/models on the buckets.

Q2. Please clarify why Kubota is mentioned in the price schedule?

A2. We have removed 'Kubota' from the line item that was entered in error.

Q3. If the machine currently at the facility is a Bobcat will the attachments currently in use work with another manufacturer's machine?

A3. The buckets do not require an electrical connection. Other brands have electrical connections on their machines. The bulldozer blade does utilize a seven pin electrical connection.

Q4. Is Line Item 2 (Upgrade Package) intended as an add-on to the Compact Track Loader listed in Line Item 1, or if it should be quoted as a separate unit?

A4. The vendor needs to be very clear about what the unit will be equipped with – detailed. That way we know exactly what the machine comes with. Some manufacturers might include some items as “standard equipment” and others might list it as an “option”.

Q5. If trade-in is required of Bobcat machine?

A5. Yes, trade in is required.

Q6: Can the Government consider recent relevant experience of key personnel to satisfy the requirement for two years of satisfactory performance as the Prime Contractor?

A6: No. The solicitation requires the offeror to have at least two years of satisfactory performance as the Prime Contractor. Key personnel experience cannot be used to meet this requirement.

Q7: Can commercial prime contracting experience be used, or must it be federal prime contracting experience?

A7: Commercial prime contracting experience is acceptable. The solicitation does not

limit the required two years of satisfactory prime contractor performance to federal contracts.
