

Draft Performance Work Statement (PWS)
Mission Support/Front Office Support Services
13 February 2026

1.0 DESCRIPTIONS AND SPECIFICATIONS

1.1 Introduction

The Office of Naval Research (ONR) seeks to provide administrative support services for ONR Headquarters, Front Office (Code 01) and the Mission Support Directorate (Code 05). This document is a draft for use in a request for information only.

1.2 Background

The Office of Naval Research (ONR) coordinates, executes and promotes the science and technology programs of the United States Navy and Marine Corps through schools, universities, government laboratories, non-profit and for-profit organizations. ONR formulates and executes the Naval Science and Technology (S&T) portfolio to address the most responsible and promising technology opportunities and solutions in basic, applied science and advanced technology development; transitions the most useful technologies to Acquisition and the Warfighter; and provides technical advice and information to the Chief of Naval Operations, the Secretary of the Navy, and the Department of Defense.

The ONR Front Office (Code 01) and Mission Support Directorate (Code 05) is one of the principal officials within ONR and provides a full range of executive leadership, corporate business, and logistics functions to enable the Command's mission. The Front Office and Mission Support directorate consists of fourteen departments. The Front Office and Mission Support directorate focuses on quality and cost-effective business solutions; data and analytics optimization; effective practices and communications; ensures compliance with statutory and regulatory requirements; and recruits, develops and retains a highly professional workforce.

The contractor will furnish qualified staff to deliver program management, technical, corporate communication and coordination, financial, administrative, and general support services. These services will directly support senior ONR leaders (Code 01), the Director of Mission Support (Code 05), and department heads within Mission Support and the Front Office. This support will enable effective decision-making and efficient operations across ONR.

1.3 Objective

The contractor will provide comprehensive technical, financial management, logistical, administrative, Human Capital, corporate strategic communication & coordination, and FOIA/records management support services to Code 01, Code 05, and its various departments.

1.4 Scope

The contractor shall provide administrative support services for ONR Headquarters, Code 01, Code 05, and its departments. The scope of this tasking also includes the designation of one of the support personnel as the onsite manager/supervisor who will serve as liaison with the Contracting Officer Representative (COR) and ONR 01 and 05 management. Details of the scope of work are described in Section 2.0, Task Requirements. Specific Personnel requirements are described in Section 3.0, Personnel Requirements.

The Contractor shall provide qualified personnel to manage and execute all aspects of the requirement.

All personnel must be U.S. citizens and should possess, have experience, and be proficient in the following:

- Commercial software packages such as Microsoft Office (in particular Word, Excel, PowerPoint, Teams, SharePoint, and Outlook).
- Communicate, clearly and effectively, both verbally and in writing.
- Effectively communicate and interact with others.
- Working independently and collaboratively.
- Possess and maintain the required level of security clearance as described in Section 2.0 Technical and Personnel Tasks / Requirements at time of award and during task order performance.

All contractor personnel supporting the tasks identified in this PWS shall be required to demonstrate professionally polite, proficient and effective verbal and written

communications skills that are void of slang, colloquialisms and/or phrases that could be interpreted as vulgar or offensive.

2.1 Asset Management Specialist (1 FTE + 1 FTE Surge) (05/54)

The support tasks for this position(s), include, but are not limited to:

1. Asset Inventory & Validation
 - Conduct physical inventories of government-owned equipment and facilities.
 - Reconcile physical assets with system records to identify and resolve discrepancies.
 - Tag and document assets in accordance with Navy property accountability standards.
2. Documentation & Record Management
 - Maintain organized records including acquisition receipts, transfer forms, and disposal documentation.
 - Ensure all assets have complete lifecycle documentation to support audit trail requirements.
 - Assist in preparing audit documentation for sampled assets.
3. System Data Integrity
 - Review and validate asset data in Navy systems (e.g., DPAS, ERP) for accuracy and completeness.
 - Coordinate with asset managers to correct data errors or omissions.
 - Monitor system updates to ensure real-time data accuracy for audit sampling.
4. Internal Controls & SOP Alignment
 - Assist in developing and refining Standard Operating Procedures (SOPs) for asset management.
 - Ensure internal controls are documented and consistently followed to support audit readiness.
 - Identify compliance gaps and recommend corrective actions.
5. Training & Awareness
 - Support training initiatives for government personnel on asset accountability procedures.
 - Provide guidance on audit documentation standards and expectations.
6. Audit Liaison & Response Support
 - Serve as a liaison between asset management and audit teams.
 - Prepare responses to audit inquiries and assist during walkthroughs or site visits.
 - Track audit findings and support remediation efforts.

2.1.1.1 Asset Management Specialist Personnel Requirements

At a minimum, this position requires:

- Strong analytical, organizational, and communication skills.
- Ability to work independently and manage multiple priorities in a fast-paced environment.

Desired additional qualifications:

- Familiarity with DoD property accountability regulations and FIAR standards.
- Prior experience with asset management systems (DPAS, ERP).
- Prior experience supporting government audits or compliance programs.

Security Clearance: Public Trust

2.2 Classified Document Control (1 FTE) (05/54)

The support tasks for this position(s), include, but are not limited to:

1. Receive and electronically log all SECRET material coming into ONR Headquarters.
2. Input information into the Security Information Management System (SIMS) or other automated system as required.
3. Prepare necessary route sheets, receipts, and labels using electric typewriter.
4. Package (double wrap) all outgoing SECRET material.
5. Maintain files containing incoming/outgoing receipts.
6. Maintain internal Signature receipts.
7. Photocopy necessary material.
8. Maintain repository of classified documents as required.
9. Assist ONR Security Division Staff as required, including inventories, production of badges or ID cards.
10. Verify identification and utilize the Defense Enrollment Eligibility Reporting System (DEERS)/Real-time Automated Personnel
11. Identification System (RAPIDS) to issue Common Access Cards, update database information, and reset personal identification numbers (PINs).
12. Provide SIPRNET Local Registration Authority (LRA) support.
 - The LRA is an individual that assists the Users that need to reset their token PIN either through a digitally signed email or an in-person visit.
 - The LRA will authenticate the identity of the User and then enable PIN reset of the Users token.
13. Assist in managing and maintaining Emergency Alert Notification system for ONR-global reach.
14. Serve as back-up to Mailroom Clerk.
15. Provide back-up to Common Access Card (CAC) Issuing Official(IO).

2.2.1 Classified Document Control Personnel Requirements

At a minimum, this position requires:

- Associate's degree from an accredited institution and one (1) year as a classified document control clerk or a High School Diploma or GED Equivalent and three (3) years as a classified document control clerk.
- Practical understanding of Security Information Management System (SIMS) or other *automated information system*.

- Practical understanding of Defense Enrollment Eligibility Reporting System (DEERS) and Real-time Automated Personnel Identification System (RAPIDS).
- Current valid driver's license; and
- Acceptable driving record as evidenced by a Motor Vehicle Record (MVR) check.

Security Clearance: SECRET (Current or ability to obtain prior to award)

2.3 Common Access Card Issuing Official (IO) (1 FTE) (05/54)

The support tasks for this position(s), include, but are not limited to:

1. Serves as the primary Issuing Official (IO), Super Verifying Official (SVO), Verifying Official (VO), and Local Registration Authority (LRA) in the DEERS/RAPIDS/ID Card section of the Office of Naval Research Security Directorate.
2. Serves as the primary source on the rules, regulations, and directives regarding ID Cards/DEERS/RAPIDS procedures. More specifically, the contractor is responsible for the following functions: daily work completion and completing the requirements in accordance with regulations and guidelines.
3. Use the rapids workstation to issue CAC and request and download certificates prior to issuing the CAC.
4. Ensures the customer reads and signs the DD Form 2841, DOD (PKI) Registration Official Certificate of Acceptance and Acknowledgement of Responsibilities.
5. Provides the CAC recipients with the information on the electronic DD Form 2841 and obtains their acknowledgement and signature by electronic means.
6. Generates the Common Access Card (CAC) for eligible military, civilian, retired civilians, contractors.
7. Generates the Teslin machine readable Uniform Services Identification Card for the remaining population which includes
8. Guard/Reserve, retired military, and dependents of military and/or foreign nationals.
9. Creates the DD Form 1172 for military dependents of geographically separated from their sponsor and official documentation is presented.
10. Issues cards to personnel classified as unmarried former spouses after verifying that they are eligible for privileges under the Former Spouses Protection Act.
11. Adds and removes dependents based on eligibility and after presentation of proper documentation.
12. Serves as a Local Registration Authority (LRA). Verifies identity and eligibility of card recipients as required by AFI 36-3026(I).
13. Primary point of contact for ensuring that the computer, printers, laminators and cameras and fingerprint identification equipment is functional and makes minor repairs that are authorized.
14. Primary point of contact for the Defense Manpower Data Center (DMDC) to resolve all issues with equipment and cases that involve DMDC input/correction to the DEERS database.
15. Responsible for the training of new employees that will work in the section that may serve as alternates.

2.3.1 Common Access Card Issuing Official (IO) Personnel Requirements

At a minimum, this position requires:

- Associate's degree from an accredited institution and one (1) year of relevant experience as a security specialist or a High School Diploma or GED Equivalent and three (3) years of functional experience as a security specialist.
- Functional Knowledge of (1) Defense Information System for Security (DISS) or (2) other automated database systems.
- Functional knowledge of Defense Enrollment Eligibility Reporting System (DEERS) and Real-time Automated Personnel Identification System (RAPIDS).

Security Clearance: SECRET (Current or ability to obtain prior to award)

2.4 Digital Engagement Strategist III (1 FTE) 05/52

1. Assist in the development and execution of strategic communication plans, including message writing, validation and integration in communication products. This includes developing/assisting in the planning, writing and layout/design of an annual communication strategy; planning, writing and layout/design of a monthly tactical communication document; collecting and analyzing metrics for assessment of communication initiatives using Excel spreadsheets and other tools.
2. Develop and create professional speech and feature-length writing. This includes ghostwriting (seven hundred fifty) 750 to three thousand (3,000) word articles for ONR leadership.
3. Edit feature articles written by ONR subject matter experts to comply with editorial standards of preferred stakeholder communication publications and platforms.
4. Prepare presentations for the CNR and ONR leadership in support of for about sixty (60) speaking engagements per year to include development of messages to align ONR initiatives as outlined in the Science and Technology Strategic Plan with DON leadership/stakeholder and partnership messages. The writing support shall be developed in both traditional Word and PowerPoint formats.
5. Provide timely writing, editing, and media relations support for command activities and special events. These command activities shall include, but are not limited to, the activities outlined in 1.2.1 of this performance work statement.
6. Support the preparation of news releases, articles, social media content, storyboards for video products, preparatory content for video interviews, response-to-query statements, communication/media plans, fact sheets, backgrounders, white papers, key messages, anticipated question-and-answer sheets, email and public announcements or displays, media style photography, event scripts, infographics, talking points, speeches, briefing materials, quarterly reports, issue papers, metrics data, and management information reports, media escort, and monitoring of media interviews.
7. Provide the content in accordance with appropriate style guides, including, but not limited to Associated Press, Navy and ONR styles, and require a minimal amount of editing or rework.

8. Provide internal communication support, including professional journalistic writing, editing and design support.
9. Support writing, editing, and layout support for the command's weekly (ONR Snapshot) newsletter using Adobe In Design software for release to ONR employees.
10. Provide other writing and editing of other written Public Affairs products such as press releases and communication plans as needed.
11. Responsible for development of a strategic communication calendar for ONR and CSC, and maintenance of communication documents on the shared drive.
12. Provide external communications support.
13. Support receiving and cataloging media and public inquiries and coordinating responses with appropriate ONR/DON subject matter experts.
14. Assist in the planning and executing of the release of information on significant, pertinent and timely ONR events for placement in media outlets valued as a credible source by ONR customers and stakeholders.
15. Provide risk communication support.
16. Use science-based risk communications principals and strategies to help define communications needs, planning, execution and to shape ONR messaging with internal and external stakeholders to include government, academia, industry, and the public.
17. Provide multimedia documentation and presentation, including audiovisual and photographic production and editing.
18. Provide multimedia support for approximately fifteen (15) three-to-five (3 to 5) minute videos on ONR-sponsored technology to support command communication goals. Government equipment may be provided for this effort.
19. Support on-site audiovisual documentation and feature-length products for up to four (4) events per year using contractor furnished equipment. Products will be used for multiple outlets including video news releases, posting on ONR web site and other communication products. Material must be edited into a professional audiovisual product in accordance with industry audiovisual standards; adhere to Section 508 standards; and be usable by commercial news outlets when specified.
20. Provide timely multi-media, desktop publishing, and presentation support to meet ONR Corporate Strategic Communication Department requirements. Such support includes creating, editing, designing, formatting, and maintaining internet and intranet pages, blogs, social media websites, newsletters, newspapers, magazines, graphic design and artwork, infographics, video production, photographs, photo captions, video descriptions, social media content, articles, audiovisual presentations, video news releases, "b-roll" video clips, and videotaping in support of communication products and services.
21. Provide multi-media support for digital media using appropriate software including but not limited to: Adobe Creative Cloud Suite including Adobe Photoshop, Adobe Acrobat, Adobe Illustrator, Adobe Bridge, Apple Motion and/or Adobe After Effects, Apple DVD Studio Pro, Apple Color, Apple Live Type or new versions or upgrades as required.
22. Provide content in accordance with appropriate style guides, including, but not limited to Associated Press, Navy and ONR styles.

23. Generate timely content and provide editing for still photography, videography, story development and production, scriptwriting, subject matter expert, on camera interviews, digital video conversion from one file format to another, skill in color correction and processing of print and informational imagery. Typical assignments may include but not limited to video and still photography for internal/external communication products, video news releases, ceremonies, infographics, special events, ground testing and demonstrations, conferences and symposiums, community activities, crisis events, and other assignments as requested.
24. Responsible for consistently upgrading and maintaining technical skills and capabilities in the application of new technologies and software. The contractor shall provide content in accordance with appropriate style guides, including, but not limited to Associated Press, Navy and ONR styles.
25. Responsible for the overall production and management of ONR national and international exhibits with the guidance and direction of the CSC Director.
26. Coordinate with sponsoring organization or interface with the lead show organizers, companies and vendors that will provide the services required by the exhibitors.
27. Analyzes existing goals, programs, and recommends improvements.
28. Assist in the management of trade shows and exhibitions to achieve marketing goals.
29. Assist in the managing of the preparation of design, layout, cost estimates, and construction of exhibits and trade show displays.
30. Assist in the management of exhibits within approved budget provided by the CSC Director.
 - Assist in the execution of the command exhibit program, including supporting the development of yearly exhibit themes and collateral material for up to forty (40) national/international events, such as Sea Air Space, Modern Day Marine, National Society of Black Engineers (NSBE), Institute of Electrical and Electronics Engineers (IEEE), American Geophysical Union (AGU), Armed Forces Communications and Electronics Association WEST, Maritime/Air Systems & Technologies (MAST), Pacific Operational Science and Technology (POST), various national STEM and industry events, Fleet Weeks, Navy Weeks and other exhibits, as required.
 - Perform other duties include storing, maintaining, shipping and setting up all ONR display systems, and assisting in the development and management of conference and exhibiting budgets.
 - Responsible for the coordination of securing and renting exhibit space with CSC Director approval through Other Direct Costs, attending design and working group meetings, handling all administrative matters associated with exposition planning (i.e. defining drayage, electrical, LAN hookups), identifying and leasing exhibit hardware, digital signage hardware/software, printing of five to eight (5-8) graphic elements/panel, using pre-existing templates for display materials and making recommendations for government approval.
 - Perform web management support, including content management, social media support and web site improvement coordination extending across the

digital operation, encompassing desktops, mobile phones and other portable devices.

31. Provide web content management support to government employees for the ONR public web site and Intranet using the Site Corp or other Content Management System for the public facing website (www.onr.navy.mil).
32. Provide development and support of customized content management tools, managing two (2) three hundred plus (300+) page websites (one (1) internal, one (1) external) consistent with professional industry standards and adherent to DoN and DoD policy and guidelines, under the supervision of a government official responsible for approving content.
 - Research and analyze available social and mobile media tools. This includes Twitter, Facebook, Instagram, news aggregators, SMS messaging, YouTube, blogging, and other emerging forms of digital media.
 - Manage communications campaigns across entire the organization using native and third party analytics tools.
 - Track, monitor, and report on search metrics.
 - Interact with services to tailor campaigns to specific news events or coverage areas. The contractor shall provide social media expertise for creating new ways to use the media to carry out the organization's missions and goals.
 - Increase visibility of the organization through social media with stakeholder engagements to help with the advancement of the organization's mission of science and technology.
 - Utilize metrics tools to assess visits and page views, bounce rates, average time spent, geography of readership, and other relevant measures of success.
 - Determine causes of problems and pursue opportunities and follow-on assessments regarding the organization's use of online platforms.
33. Provide journalistic quality photography in support of one hundred to two hundred (100 to 200) distinct events each year, which may require travel, portrait shots and capture of technology development, testing and demonstrations co-located with ONR partners.
34. Capture photography in a journalistic style in digital format using Government Furnished Equipment or the Contractor's own equipment if it is determined to be acceptable.
35. Provide photographs that are properly cropped, edited, and captioned according to Navy Style guidelines in order to support archival and search/find of specific photo events on Government Furnished Equipment for use in other command public affairs products.
36. Provide general executive assistant support to the office including answering general phone line, researching news clippings and distribution, tracking assigned taskers, word processing, general filing, and assisting with country clearances.
37. Support the scheduling of conferences and exhibits, constituent service, and coordination of communication meetings and events.
38. Support all local community outreach displays.
39. Produce support material for the ONR exhibits. These materials shall meet the specifications of the ONR exhibit design and structure. Support includes design,

manufacturing, and delivery to government or agreed upon storage location. Examples of printing and exhibit support materials that cannot be done through internal ONR channels may include large signage, banners, specialty brochures or pamphlets, and other items not easily defined.

40. Obtain approval from CSC Director prior to initiating of any printing requirement outside ONR internal channels.
41. Support planning and execution of local community outreach events.
42. Facilitate interactions between scientists and local communities including school visits by scientists and student tours of research facilities.
43. Place primary emphasis on Science, Technology, Engineering and Mathematics (STEM) related initiatives designed to raise public awareness and increase student interest in Navy Science and Technology programs.
44. Serve as Dept. 52's primary liaison with the Navy's STEM office located within ONR.
45. Document and memorialize ONR's historical scientific achievements with foundational scientific linkages to current products/systems/operational doctrine of previous ONR investments.
46. Conduct archival research to create a range of products and outreach programs dealing with historical programs.
47. Ensure current documents and personal experiences at ONR are compiled and analyzed comprehensively and, when required, provide transcription services.
48. Systematically examine documents on current programs to build understanding of ONR's accomplishments, creating a range of products and outreach programs, including command publications, articles, monographs, oral histories, video documentaries, educational teaching aids, and other materials. These duties require frequent interactions with the transcriptionist to provide material for transcription.
49. Provide word-to-word or verbatim transcription services to document recorded English speeches and interviews into a text document. This support shall be completed with audio and video files provided by the customer. Each transcribed file shall be completed with accuracy to allow for easy recall or lookup of desired information by all persons including the hearing impaired or deaf.
50. Assist the CSC Director in the planning, coordination and management of conference and events that are deemed necessary to advance the mission of Naval science and technology as well as research and development. These tasks shall be executed through the development and maintenance of a database of facilities and resources available:
 - Maintain a corporate calendar specifically for tracking all of ONR conference and events; Provide event guidance and assistance directly to ONR senior leaders and program staff with distinguished visitors and very important person visits.
 - Conduct site surveys for potential events to help the CSC Director to select hotel venues based on best value to the government.
 - Develop announcements, invitations and other conference promotional materials that would be transmitted via mail, fax, emails and online platforms.

- Co-develop the design and production of conference materials (handout materials, papers, speaker bios, etc.) with graphics staff.
- Manage vendors and rooming lists.
- Obtain quotes for event space and audiovisual services.
- Collaborate with ONR co-sponsors to create and help to compile information for conference notebooks, conference summary reports, proceedings and CDs.
- Provide professional input on agenda structure, room sets and A/V set up.
- Maintain conference archives with memorandums for the record and after-action reports.
- Populate and maintain up-to-date database of ongoing conference and events pertinent to the ONR mission.
- Deliver on-site support of both CLASSIFIED and UNCLASSIFIED conferences, meetings and events, as needed.
- Attend local and travel to attend out-of-area meetings as necessary.
- Prepare reports and white papers to help leadership make informed decisions regarding various aspects of conference and event support.
- Assist ONR sponsors with invitational travel as needed.
- Perform general and administrative duties; and support ONR's exhibit program, as needed.
- Capture photographic still imagery and prepare draft written copy for web, social media and official correspondence to support promotional marketing and outreach needs related to conferences and events.

51. In addition to assisting the CSC Director in the planning, coordination and management of conference and events, the contractor shall prepare conference attendance and hosting reports, conference approval packages with official routing; liaise with ONR leadership, ASN RD&A and DON AA regarding conferences and attendance submissions, approvals and current guidance; and prepare recommended guidance and training materials on determination of conferences and attendance requirements for the Dept. 52 director and ONR leadership and command staff.

At a minimum, this position requires:

- High School Diploma or GED Equivalent.
- Current valid driver's license. and

- Acceptable driving record as evidenced by a Motor Vehicle Record (MVR) check.

Security Clearance: SECRET (Current or ability to obtain prior to award)

2.6 Engineering Technician IV (1 FTE) 05/54

The support tasks for this position(s), include, but are not limited to:

1. Prepare concept plans for office renovations.
2. Prepare layouts for furniture and equipment.
3. Prepare completed construction drawings and specifications suitable for contracting.
4. Receive and investigate building trouble calls from ONR staff and coordinate with the Lessor's Building Engineer staff to resolve problems.
5. Assist the ONR Facilities Engineer in management of facility projects.
6. Review and update ONR space assignments, room numbering systems, and floor master plans.
7. Assist the ONR Facilities Engineer and the Safety Officer in the correction of safety and environmental deficiencies.

2.6.1 Engineering Technician IV Personnel Requirements

At a minimum, this position requires:

- An associate's degree from an accredited institution in engineering technology and five (5) years of relevant experience as an engineering technician or two (2) a National Institute for Certification in Engineering Technologies and ten (10) years of relevant experience as an engineering technician.

Security Clearance: None

2.7 Exhibits Director (1 FTE) 05/52

1. Assist in the development and execution of strategic communication plans, including message writing, validation and integration in communication products. This includes developing/assisting in the planning, writing and layout/design of an annual communication strategy; planning, writing and layout/design of a monthly tactical communication document; collecting and analyzing metrics for assessment of communication initiatives using Excel spreadsheets and other tools.
2. Develop and create professional speech and feature-length writing. This includes ghostwriting (seven hundred fifty) 750 to three thousand (3,000) word articles for ONR leadership.
3. Edit feature articles written by ONR subject matter experts to comply with editorial standards of preferred stakeholder communication publications and platforms.
4. Prepare presentations for the CNR and ONR leadership in support of for about sixty (60) speaking engagements per year to include development of messages to align ONR initiatives as outlined in the Science and Technology Strategic Plan with DON leadership/stakeholder and partnership messages. The writing support shall be developed in both traditional Word and PowerPoint formats.

5. Provide timely writing, editing, and media relations support for command activities and special events. These command activities shall include, but are not limited to, the activities outlined in 1.2.1 of this performance work statement.
6. Support the preparation of news releases, articles, social media content, storyboards for video products, preparatory content for video interviews, response-to-query statements, communication/media plans, fact sheets, backgrounders, white papers, key messages, anticipated question-and-answer sheets, email and public announcements or displays, media style photography, event scripts, infographics, talking points, speeches, briefing materials, quarterly reports, issue papers, metrics data, and management information reports, media escort, and monitoring of media interviews.
7. Provide the content in accordance with appropriate style guides, including, but not limited to Associated Press, Navy and ONR styles, and require a minimal amount of editing or rework.
8. Provide internal communication support, including professional journalistic writing, editing and design support.
9. Support writing, editing, and layout support for the command's weekly (ONR Snapshot) newsletter using Adobe In Design software for release to ONR employees.
10. Provide other writing and editing of other written Public Affairs products such as press releases and communication plans as needed.
11. Responsible for development of a strategic communication calendar for ONR and CSC, and maintenance of communication documents on the shared drive.
12. Provide external communications support.
13. Support receiving and cataloging media and public inquiries and coordinating responses with appropriate ONR/DON subject matter experts.
14. Assist in the planning and executing of the release of information on significant, pertinent and timely ONR events for placement in media outlets valued as a credible source by ONR customers and stakeholders.
15. Provide risk communication support.
16. Use science-based risk communications principals and strategies to help define communications needs, planning, execution and to shape ONR messaging with internal and external stakeholders to include government, academia, industry, and the public.
17. Provide multimedia documentation and presentation, including audiovisual and photographic production and editing.
18. Provide multimedia support using Government-Furnished equipment for approximately fifteen (15) three-to-five (3 to 5) minute videos on ONR-sponsored technology to support command communication goals.
19. Support on-site audiovisual documentation and feature-length products for up to four (4) events per year using contractor furnished equipment. Products will be used for multiple outlets including video news releases, posting on ONR web site and other communication products. Material must be edited into a professional audiovisual product in accordance with industry audiovisual standards; adhere to Section 508 standards; and be usable by commercial news outlets when specified.

20. Provide timely multi-media, desktop publishing, and presentation support to meet ONR Corporate Strategic Communication Department requirements. Such support includes creating, editing, designing, formatting, and maintaining internet and intranet pages, blogs, social media websites, newsletters, newspapers, magazines, graphic design and artwork, infographics, video production, photographs, photo captions, video descriptions, social media content, articles, audiovisual presentations, video news releases, “b-roll” video clips, and videotaping in support of communication products and services.
21. Provide multi-media support for digital media using appropriate software including but not limited to: Adobe Creative Cloud Suite including Adobe Photoshop, Adobe Acrobat, Adobe Illustrator, Adobe Bridge, Apple Motion and/or Adobe After Effects, Apple DVD Studio Pro, Apple Color, Apple Live Type or new versions or upgrades as required.
22. Provide content in accordance with appropriate style guides, including, but not limited to Associated Press, Navy and ONR styles.
23. Generate timely content and provide editing for still photography, videography, story development and production, scriptwriting, subject matter expert, on camera interviews, digital video conversion from one file format to another, skill in color correction and processing of print and informational imagery. Typical assignments may include but not limited to video and still photography for internal/external communication products, video news releases, ceremonies, infographics, special events, ground testing and demonstrations, conferences and symposiums, community activities, crisis events, and other assignments as requested.
24. Responsible for consistently upgrading and maintaining technical skills and capabilities in the application of new technologies and software. The contractor shall provide content in accordance with appropriate style guides, including, but not limited to Associated Press, Navy and ONR styles.
25. Responsible for the overall production and management of ONR national and international exhibits with the guidance and direction of the CSC Director.
26. Coordinate with sponsoring organization or interface with the lead show organizers, companies and vendors that will provide the services required by the exhibitors.
27. Analyzes existing goals, programs, and recommends improvements.
28. Assist in the management of trade shows and exhibitions to achieve marketing goals.
29. Assist in the managing of the preparation of design, layout, cost estimates, and construction of exhibits and trade show displays.
30. Assist in the management of exhibits within approved budget provided by the CSC Director.
 - Assist in the execution of the command exhibit program, including supporting the development of yearly exhibit themes and collateral material for up to forty (40) national/international events, such as Sea Air Space, Modern Day Marine, National Society of Black Engineers (NSBE), Institute of Electrical and Electronics Engineers (IEEE), American Geophysical Union (AGU), Armed Forces Communications and Electronics Association WEST, Maritime/Air Systems & Technologies (MAST), Pacific Operational Science and Technology (POST),

various national STEM and industry events, Fleet Weeks, Navy Weeks and other exhibits, as required.

- Perform other duties include storing, maintaining, shipping and setting up all ONR display systems, and assisting in the development and management of conference and exhibiting budgets.
- Responsible for the coordination of securing and renting exhibit space with CSC Director approval through Other Direct Costs, attending design and working group meetings, handling all administrative matters associated with exposition planning (i.e. defining drayage, electrical, LAN hookups), identifying and leasing exhibit hardware, digital signage hardware/software, printing of five to eight (5-8) graphic elements/panel, using pre-existing templates for display materials and making recommendations for government approval.
- Perform web management support, including content management, social media support and web site improvement coordination extending across the digital operation, encompassing desktops, mobile phones and other portable devices.

31. Provide web content management support to government employees for the ONR public web site and Intranet using the Site Corp or other Content Management System for the public facing website (www.onr.navy.mil).

32. Provide development and support of customized content management tools, managing two (2) three hundred plus (300+) page websites (one (1) internal, one (1) external) consistent with professional industry standards and adherent to DoN and DoD policy and guidelines, under the supervision of a government official responsible for approving content.

- Research and analyze available social and mobile media tools. This includes Twitter, Facebook, Instagram, news aggregators, SMS messaging, YouTube, blogging, and other emerging forms of digital media.
- Manage communications campaigns across entire the organization using native and third party analytics tools.
- Track, monitor, and report on search metrics.
- Interact with services to tailor campaigns to specific news events or coverage areas. The contractor shall provide social media expertise for creating new ways to use the media to carry out the organization's missions and goals.
- Increase visibility of the organization through social media with stakeholder engagements to help with the advancement of the organization's mission of science and technology.
- Utilize metrics tools to assess visits and page views, bounce rates, average time spent, geography of readership, and other relevant measures of success.
- Determine causes of problems and pursue opportunities and follow-on assessments regarding the organization's use of online platforms.

33. Provide journalistic quality photography in support of one hundred to two hundred (100 to 200) distinct events each year, which may require travel, portrait shots and capture of technology development, testing and demonstrations co-located with ONR partners.

34. Capture photography in a journalistic style in digital format using Government Furnished Equipment or the Contractor's own equipment if it is determined to be acceptable.
35. Provide photographs that are properly cropped, edited, and captioned according to Navy Style guidelines in order to support archival and search/find of specific photo events on Government Furnished Equipment for use in other command public affairs products.
36. Provide general executive assistant support to the office including answering general phone line, researching news clippings and distribution, tracking assigned taskers, word processing, general filing, and assisting with country clearances.
37. Support the scheduling of conferences and exhibits, constituent service, and coordination of communication meetings and events.
38. Support all local community outreach displays.
39. Produce support material for the ONR exhibits. These materials shall meet the specifications of the ONR exhibit design and structure. Support includes design, manufacturing, and delivery to government or agreed upon storage location. Examples of printing and exhibit support materials that cannot be done through internal ONR channels may include large signage, banners, specialty brochures or pamphlets, and other items not easily defined.
40. Obtain approval from CSC Director prior to initiating of any printing requirement outside ONR internal channels.
41. Support planning and execution of local community outreach events.
42. Facilitate interactions between scientists and local communities including school visits by scientists and student tours of research facilities.
43. Place primary emphasis on Science, Technology, Engineering and Mathematics (STEM) related initiatives designed to raise public awareness and increase student interest in Navy Science and Technology programs.
44. Serve as Dept. 52's primary liaison with the Navy's STEM office located within ONR.
45. Document and memorialize ONR's historical scientific achievements with foundational scientific linkages to current products/systems/operational doctrine of previous ONR investments.
46. Conduct archival research to create a range of products and outreach programs dealing with historical programs.
47. Ensure current documents and personal experiences at ONR are compiled and analyzed comprehensively and, when required, provide transcription services.
48. Systematically examine documents on current programs to build understanding of ONR's accomplishments, creating a range of products and outreach programs, including command publications, articles, monographs, oral histories, video documentaries, educational teaching aids, and other materials. These duties require frequent interactions with the transcriptionist to provide material for transcription.
49. Provide word-to-word or verbatim transcription services to document recorded English speeches and interviews into a text document. This support shall be completed with audio and video files provided by the customer. Each transcribed file shall be

completed with accuracy to allow for easy recall or lookup of desired information by all persons including the hearing impaired or deaf.

50. Assist the CSC Director in the planning, coordination and management of conference and events that are deemed necessary to advance the mission of Naval science and technology as well as research and development. These tasks shall be executed through the development and maintenance of a database of facilities and resources available:

- Maintain a corporate calendar specifically for tracking all of ONR conference and events; Provide event guidance and assistance directly to ONR senior leaders and program staff with distinguished visitors and very important person visits.
- Conduct site surveys for potential events to help the CSC Director to select hotel venues based on best value to the government.
- Develop announcements, invitations and other conference promotional materials that would be transmitted via mail, fax, emails and online platforms.
- Co-develop the design and production of conference materials (handout materials, papers, speaker bios, etc.) with graphics staff.
- Manage vendors and rooming lists.
- Obtain quotes for event space and audiovisual services.
- Collaborate with ONR co-sponsors to create and help to compile information for conference notebooks, conference summary reports, proceedings and CDs.
- Provide professional input on agenda structure, room sets and A/V set up.
- Maintain conference archives with memorandums for the record and after-action reports.
- Populate and maintain up-to-date database of ongoing conference and events pertinent to the ONR mission.
- Deliver on-site support of both CLASSIFIED and UNCLASSIFIED conferences, meetings and events, as needed.
- Attend local and travel to attend out-of-area meetings as necessary.
- Prepare reports and white papers to help leadership make informed decisions regarding various aspects of conference and event support.
- Assist ONR sponsors with invitational travel as needed.
- Perform general and administrative duties; and support ONR's exhibit program, as needed.
- Capture photographic still imagery and prepare draft written copy for web, social media and official correspondence to support promotional marketing and outreach needs related to conferences and events.

51. In addition to assisting the CSC Director in the planning, coordination and management of conference and events, the contractor shall prepare conference attendance and hosting reports, conference approval packages with official routing; liaise with ONR leadership, ASN RD&A and DON AA regarding conferences and attendance submissions, approvals and current guidance; and prepare recommended guidance and training materials on determination of conferences and attendance requirements for the Dept. 52 director and ONR leadership and command staff.

52. Oversees temporary and permanent exhibit development, design, fabrication, installation, and maintenance for ONR exhibits program.
53. Working with and through the Director of dept. 52, other department Directors, and COR guided by and aligned with the ONR overarching strategic plan, the Exhibits Director recommends both an annual and multi-year exhibit strategy to keep the ONR and NRE exhibits fresh and relevant through periodic renovation and replacement.
54. Conducts annual data calls to help the COR develop and monitor the annual exhibits budget, coordinates with exhibit show organizers and outside vendors as necessary.
55. Ensures that all exhibits comply with accessibility and safety standards.
56. Supervises and when necessary, participate in exhibit installation and dismantle.
57. Develops and implements plans for exhibit remediation, if needed, and ongoing maintenance.
58. Determines optimal exhibit staffing structure for each show to ensure full exhibit coverage during show hours.
59. Provides photography and caption writing support at shows to transmit and further coordinate with other staff members for internal (e.g. newsletter, intranet) and external communications (e.g. social media, public-facing website, media releases) needs.

2.7.1 Exhibits Director Personnel Requirements

At a minimum, this position requires:

- Candidates shall have a bachelor's degree from a fully accredited and at least ten (10) years' experience as a communicator or exhibiting manager in support of various unique, specialized organizational goals.
 - The requirement for a bachelor's degree may be waived if the proposed candidate possesses at least ten (10) years' experience as a communicator or exhibiting manager in support of various unique, specialized organizational goals plus demonstrated experience of at least five (5) years in project management and budgeting.
- Must have at least ten (10) years' experience as a communicator promoting the brand and specialized goals of an organization at tradeshow and expos.
- Domestic and international travel will be required in support of ONR events.

Security Clearance: SECRET (Current or ability to obtain prior to award)

2.8 Financial Analyst I (2 FTEs) 05/59

The support tasks for this position(s), include, but are not limited to:

1. Draft and/or initiate financial execution transactions (e.g., Procurement Requests (PRs) and procurement packages), within applicable financial systems such as the Navy Enterprise Resource Planning (NAVY-ERP), to obtain approval. To ensure the swift progression of each request. Packages should be processed within 3 business days from the initial request. date.
2. Monitor the progress of all procurement packages to ensure timely and accurate delivery of services or goods. This includes tracking each package through the

procurement lifecycle and verifying receipt upon delivery, documenting any discrepancies or issues in accordance with established procedures.

3. Ensure the accuracy and completeness of all spend plans by maintaining up-to-date information in accordance with requirements set forth by the government Business Financial Manager (BFM) and accurately reflecting planned expenditures in all applicable planning and financial systems, such as the Execution Website.
4. Proactively identify and resolve financial discrepancies, such as incorrect invoice payments or unreconciled transactions. Develop and recommend corrective actions to management, and implement processes and tools, such as automated reconciliation procedures or improved data validation controls, to prevent future financial and accounting errors.
5. Produce accurate, professional work products such as financial funding packages, financial reports, budget analyses, and impact statements, ensuring they are free of accounting, calculation, spelling, and grammatical errors.
6. Coordinate with IT personnel to obtain all required technical details for pending requests. Analyze incoming requests to identify any missing information and proactively contact the government BFM to report incomplete submissions, facilitating prompt resolution and preventing bottlenecks.
7. Collect task-related data, such as task assignments, task completion dates and status, resource allocations, and any roadblock encountered, from various sources and input it into designated tasker trackers. Validate the accuracy and completeness of the data and update the trackers on a daily basis to ensure timely and reliable reporting to the government BFM.

2.8.1 Financial Analyst I Personnel Requirements

At a minimum, this position requires:

- Strong analytical, organizational, and communication skills.
- Ability to work independently and manage multiple priorities in a fast-paced environment.

Desired additional qualifications:

- Familiarity with DoD property accountability regulations and FIAR standards.
- Prior experience with asset management systems (DPAS, ERP).
- Prior experience supporting government audits or compliance programs.

Security Clearance: SECRET (Current or ability to obtain prior to award)

2.9 Graphic Designers II (2 FTEs) & III (1 FTE) 05/52

1. Assist in the development and execution of strategic communication plans, including message writing, validation and integration in communication products. This includes developing/assisting in the planning, writing and layout/design of an annual communication strategy; planning, writing and layout/design of a monthly tactical communication document; collecting and analyzing metrics for assessment of communication initiatives using Excel spreadsheets and other tools.

2. Develop and create professional speech and feature-length writing. This includes ghostwriting (seven hundred fifty) 750 to three thousand (3,000) word articles for ONR leadership.
3. Edit feature articles written by ONR subject matter experts to comply with editorial standards of preferred stakeholder communication publications and platforms.
4. Prepare presentations for the CNR and ONR leadership in support of for about sixty (60) speaking engagements per year to include development of messages to align ONR initiatives as outlined in the Science and Technology Strategic Plan with DON leadership/stakeholder and partnership messages. The writing support shall be developed in both traditional Word and PowerPoint formats.
5. Provide timely writing, editing, and media relations support for command activities and special events. These command activities shall include, but are not limited to, the activities outlined in 1.2.1 of this performance work statement.
6. Support the preparation of news releases, articles, social media content, storyboards for video products, preparatory content for video interviews, response-to-query statements, communication/media plans, fact sheets, backgrounders, white papers, key messages, anticipated question-and-answer sheets, email and public announcements or displays, media style photography, event scripts, infographics, talking points, speeches, briefing materials, quarterly reports, issue papers, metrics data, and management information reports, media escort, and monitoring of media interviews.

- Demonstrated creative graphic design and layout skills, creative services skills, be customer focused, show flexibility and attention to detail, be deadline oriented, use desktop publishing tools and demonstrated ability to manage challenging customer service issues.

Security Clearance: SECRET (Current or ability to obtain prior to award)

2.9.1 Graphic Designers III Personnel Requirements

At a minimum, this position requires all the requirements for Graphic Designers II including:

- Candidates must have bachelor's degree in graphics, fine, or visual arts/communications from an accredited institution and have at least ten (10) years of experience in graphic design and/or related communications field.
 - The requirement for ten (10) years of experience may be waived if the proposed candidate possesses a master's degree in visual communications from an accredited institution and five (5) years of recent related experience.

Security Clearance: SECRET (Current or ability to obtain prior to award)

2.11 Human Capital Analyst I (1 FTE) 05/55

The support tasks for this position(s), include, but are not limited to:

1. Assist the HCO in defining needs or problems, conducting analysis of current Human Capital policies, procedures, and processes, provide expertise in the design, development, and installation of total quality systems for ONR organizations, as well as business process reengineering, performance measurement, benchmarking, and complex analysis.
2. Assist with design and implementation of processes and capabilities for the collection of ONR Human Capital initiatives data. Analyze current ONR data and the newly collected data to create summary reports and informational products.
3. Assist with application of appropriate technologies required to implement a diagnostics tool, such as the U. S. government's Office of Personnel Management's Human Capital Framework (HCF), designed to determine ONR's Human Capital relative strengths and weaknesses. The diagnostics tool shall ensure that an employee's employment experience at ONR provides an optimal environment for ensuring a seamless and efficient process from "resume to retirement."
4. Collect and analyze data to produce research, reports, studies, and analysis to influence the emergent behaviors of leaders, managers, and employees as they respond to their environment, encourage behaviors that will achieve organizational goals while also enabling constant reinvention of ONR to address internal and external environmental changes, and ultimately, create a system which enables ONR to efficiently achieve its mission. This information can be used to make sound decisions about compensation, employee changes, employee performance and benefits, and any other decisions made to create a healthy, effective, and efficient workforce at ONR.
5. Use process flow techniques and provide assistance in the review of and updates of selected processes and functions (e.g. pay, training, benefits, recruitment, hiring, etc.).
6. Conduct or provide program workforce and workload analyses to support the ONR HCO.
7. Complete assigned projects; conduct analysis within time and scope parameters; design and administer "system" analysis projects that encompass "end to end" processes affecting multiple ONR organizations; provide effective analysis and reports

on a wide range of projects; and develop strategic business plans, assessments, activity and data modeling, and performance measurements.

8. Perform administrative tasks to include, but not limited to, preparing briefings, tracking issues, planning meetings, and collaborating on status reports.
9. Assist with coordination and development of ONR Human Capital websites (internal website: ONR iConnect Webpage and external website: Navy Total Workforce Management Services (TWMS), portals, publications, and other multi-media or information technology capabilities.
10. All of the following are required in the performance of tasks listed in this Performance Work Statement: the ability to use standard computer software programs, such as Microsoft Office; the ability to utilize exceptional people skills and effective communication skills within all levels of ONR; the ability to analyze situations, identify key issues, and use excellent problem-solving skills to address inefficiencies and weaknesses, capitalize on strengths, take advantage of opportunities, and minimize or eliminate threats to a successful Human Capital strategy at ONR; and the ability to apply a mastery of business process modeling, strategic planning, human resources management, and both traditional and innovative approaches to planning, brainstorming, and analyzing opportunities.
11. The contractor shall perform other tasks as deemed appropriate, necessary, and assigned by the HCO, or designated ONR leadership, which are within the scope of work of this effort.

2.11.1 Human Capital Analyst I Personnel Requirements

At a minimum, this position requires:

- Strong analytical, organizational, and communication skills.
- Ability to work independently and manage multiple priorities in a fast-paced environment.

Desired additional qualifications:

- Familiarity with DoD property accountability regulations and FIAR standards.
- Prior experience with asset management systems (DPAS, ERP).
- Prior experience supporting government audits or compliance programs.

Security Clearance: Public Trust

2.12 Human Capital Analyst III (1 FTE) 05/55

The support tasks for this position(s), include, but are not limited to:

1. Assist HCO in assessing workforce characteristics and future needs based on ONR's mission and strategic plan.
2. Assist HCO in evaluating existing practices and developing new strategies that align ONR's human resources policies and programs with ONR's mission, strategic goals, and performance outcomes, to achieve ONR's goals.
3. Assist HCO in identifying best practices and benchmark successful organizations. Specifically, look at, and assist with application as applicable to ONR, the best

practices of other organizations which have successfully integrated the entirety of the workforce (including civilian government personnel, military personnel, support contractors, Intergovernmental Personnel Act personnel, detailees, and all other employee types) into a cohesive total workforce.

4. Assist with application of methods to measure intellectual capital and incorporating that intellectual capital to improve organizational performance and growth. Specifically, assist in the development of a rotational assignment program for government civilian employees, to encourage intellectual growth and experience.
5. Assist in the development and refinement of key ONR Human Capital activities to include training and development opportunities supporting ONR's vision and mission and implementation of the Human Capital vision.
6. Assist the HCO in defining needs or problems, conducting analysis of current human capital policies, procedures, and processes, provide expertise in the design, development, and installation of total quality systems for ONR organizations, as well as business process reengineering, performance measurement, benchmarking, and complex data analysis.
7. Assist with mentoring coordination, development, and diversity events as needed. The Government anticipates that up to six (6) events (per year) may be scheduled.
8. Support the HCO in the development of ONR's Human Capital Strategic Plan. Support includes the identification, evaluation, analysis and reporting of current Human Capital efforts and best practices, as well as to create, recommend and implement a cohesive Human Capital Strategic Plan for developing exceptional Human Capital initiatives. These include attracting and developing a high caliber and diverse workforce for ONR, and reshaping ONR's relationship with their employees.
9. Assist with development and advocate a culture of continuous learning to attract and retain employees with superior abilities.
10. Accomplish administrative tasks in support of the HCO to include, but not limited to, preparing briefings, tracking issues, planning meetings, and collaborating on status reports.
11. Support coordination, and participate in, the development of ONR Human Capital websites (internal website: ONR iConnect Webpage and external website: Navy Total Workforce Management Services (TWMS)), portals, publications, and other multi-media or information technology capabilities.
12. Assist with design and implementation of processes and capabilities for the collection of ONR Human Capital initiatives data, for providing analysis of this data to create summary reports and informational products, and for disseminating the data and analysis for various reports or when tasked with Human Capital related information requests.

2.12.1 Human Capital Analyst III Personnel Requirements

At a minimum, this position requires:

- Strong analytical, organizational, and communication skills.

- Ability to work independently and manage multiple priorities in a fast-paced environment.

Desired additional qualifications:

- Familiarity with DoD property accountability regulations and FIAR standards.
- Prior experience with asset management systems (DPAS, ERP).
- Prior experience supporting government audits or compliance programs.

Security Clearance: Public Trust

2.13 Information Security Specialist (INFOSEC) (1 FTE) 05/54

The support tasks for this position(s), include, but are not limited to:

1. Responsible for, review of proposed publications, executing/enforcing and implementation of appropriate regulations, policies, and laws related to INFOSEC.
2. Establishes and maintains liaisons with Program Managers (PO's) and Administrative Assistants (AO's), as it pertains to the Public Release Request Tool (PRRT).
3. Assist in the implementation of an effective information security education program, as it relates to ONR military, civilian, and contract employees.
4. Engage to prevent security violations, including suspected compromises or other threats to the safeguarding of classified, the unauthorized disclosure of Controlled Unclassified Information (CUI).
5. Assist the INFOSEC officer on matters related to proper classification marking for classified and CUI information.
6. Assist in the mandatory review of classified, CUI and unclassified information compiled for presentation and sharing.
7. Monitors the ONR Original Classification Authorities (OCA's) annual training requirement that must be forwarded to the Department of the Navy on an annual basis.
8. Provides input supporting ONR directorates on publication of security classification guides (SCGs).
9. Coordinates with scientific, technical, and other subject matter experts to assess risk of loss, value of loss, and the classification level appropriate to information sensitivity.
10. Assist and advise senior leadership in matters pertaining to the enforcement of regulations governing the access to, and the dissemination, reproduction, transmission, transportation, safeguarding, and destruction of classified or CUI information and material.
11. Develops an effective liaison with the ONR contract office, site Contracting Officer Representatives (COR), to effectively assist in managing classified contracts and the Industrial Security Program officer.
12. Reviews DD 254's and provides guidance to CORs and Program Managers in the preparation of the Contract Security Classification Specification requirements.
13. Perform Foreign Disclosure Representative (FDR) duties for ONR.
14. Responsible for coordinating with the ONR FDO prior to approval of Foreign Visits Request (FVR) Reviews and makes suggestions for the release of government information to foreign government representatives.

15. Perform initial and annual refresher foreign disclosure training.

2.13.1 Information Security Specialist (INFOSEC) Personnel Requirements

At a minimum, this position requires:

- An associate's degree from an accredited institution and one (1) year of relevant experience as a security specialist or a High School Diploma or GED Equivalent and three (3) years of relevant experience as a security specialist;
- Functional knowledge of Defense Information System for Security (DISS) or other automated database system; and
- Functional knowledge of Defense Enrollment Eligibility Reporting System (DEERS) and Real-time Automated Personnel Identification System (RAPIDS).

Security Clearance: SECRET (Current or ability to obtain prior to award)

2.14 Laborer Support (2 FTEs) 05/54

The support tasks for this position(s), include, but are not limited to:

1. Receive and handle materials, including supplies, furniture, and equipment.
2. Prepare materials, including supplies, furniture, and equipment for shipping.
3. Assist the ONR Government Inventory Specialist in inventory and spot checks of property.
4. Move furniture and equipment into and out of office spaces.
5. Assemble and disassemble modular systems and conventional furniture, and equipment.
6. Prepare furniture and equipment for property disposal as required.
7. Perform minor touch-up, repair, and painting of office spaces as needed.
8. Hang whiteboards, bulletin boards, signs, large paintings, etc...
9. Operate Government owned or leased vehicles in the performance of the above duties, as required.

2.14.1 Laborer Support Personnel Requirements

At a minimum, this position requires:

- High School Diploma or GED Equivalent.
- Current valid driver's license; and
- Acceptable driving record as evidenced by a Motor Vehicle Record (MVR) check.

Security Clearance: None

2.1.15 Mailroom (1 FTE) 05/54

The support tasks for this position(s), include, but are not limited to:

1. Receive incoming mail.
2. Screen mail by checking the return address, postmark and mailing address.
3. Check names on incoming and outgoing mail against ONR email accounts.

4. Sort and distribute mail.
5. Separate misrouted mail for return to sender.
6. Forward screened mail to mail clerks for sorting and distribution.
7. Open mail following established guidance (see section C 2.3) on mail handling and what to do in an emergency.
8. Process outgoing mail for pick up by United States Postal Service (USPS) or FedEx.
9. Log accountable Certified, Registered or Express mail in Access database.

2.15.1 Mailroom Personnel Requirements

At a minimum, this position requires:

- High School Diploma or GED Equivalent;
- One (1) year of functional experience in operating a centralized mail room; and
- One (1) year of functional experience in operating an automated supply inventory management system.

Security Clearance: SECRET (Current or ability to obtain prior to award)

2.16 Multimedia Specialist III – Photo/Video (1 FTE) 05/52

1. Assist in the development and execution of strategic communication plans, including message writing, validation and integration in communication products. This includes developing/assisting in the planning, writing and layout/design of an annual communication strategy; planning, writing and layout/design of a monthly tactical communication document; collecting and analyzing metrics for assessment of communication initiatives using Excel spreadsheets and other tools.
2. Develop and create professional speech and feature-length writing. This includes ghostwriting (seven hundred fifty) 750 to three thousand (3,000) word articles for ONR leadership.
3. Edit feature articles written by ONR subject matter experts to comply with editorial standards of preferred stakeholder communication publications and platforms.
4. Prepare presentations for the CNR and ONR leadership in support of for about sixty (60) speaking engagements per year to include development of messages to align ONR initiatives as outlined in the Science and Technology Strategic Plan with DON leadership/stakeholder and partnership messages. The writing support shall be developed in both traditional Word and PowerPoint formats.
5. Provide timely writing, editing, and media relations support for command activities and special events. These command activities shall include, but are not limited to, the activities outlined in 1.2.1 of this performance work statement.
6. Support the preparation of news releases, articles, social media content, storyboards for video products, preparatory content for video interviews, response-to-query statements, communication/media plans, fact sheets, backgrounders, white papers, key messages, anticipated question-and-answer sheets, email and public announcements or displays, media style photography, event scripts, infographics, talking points, speeches, briefing materials, quarterly reports, issue papers, metrics

data, and management information reports, media escort, and monitoring of media interviews.

7. Provide the content in accordance with appropriate style guides, including, but not limited to Associated Press, Navy and ONR styles, and require a minimal amount of editing or rework.
8. Provide internal communication support, including professional journalistic writing, editing and design support.
9. Support writing, editing, and layout support for the command's weekly (ONR Snapshot) newsletter using Adobe In Design software for release to ONR employees.
10. Provide other writing and editing of other written Public Affairs products such as press releases and communication plans as needed.
11. Responsible for development of a strategic communication calendar for ONR and CSC, and maintenance of communication documents on the shared drive.
12. Provide external communications support.
13. Support receiving and cataloging media and public inquiries and coordinating responses with appropriate ONR/DON subject matter experts.
14. Assist in the planning and executing of the release of information on significant, pertinent and timely ONR events for placement in media outlets valued as a credible source by ONR customers and stakeholders.
15. Provide risk communication support.
16. Use science-based risk communications principals and strategies to help define communications needs, planning, execution and to shape ONR messaging with internal and external stakeholders to include government, academia, industry, and the public.
17. Provide multimedia documentation and presentation, including audiovisual and photographic production and editing.
18. Provide multimedia support using Government Furnished Equipment for approximately fifteen (15) three-to-five (3 to 5) minute videos on ONR-sponsored technology to support command communication goals.
19. Support on-site audiovisual documentation and feature-length products for up to four (4) events per year using contractor furnished equipment. Products will be used for multiple outlets including video news releases, posting on ONR web site and other communication products. Material must be edited into a professional audiovisual product in accordance with industry audiovisual standards; adhere to Section 508 standards; and be usable by commercial news outlets when specified.
20. Provide timely multi-media, desktop publishing, and presentation support to meet ONR Corporate Strategic Communication Department requirements. Such support includes creating, editing, designing, formatting, and maintaining internet and intranet pages, blogs, social media websites, newsletters, newspapers, magazines, graphic design and artwork, infographics, video production, photographs, photo captions, video descriptions, social media content, articles, audiovisual presentations, video news releases, "b-roll" video clips, and videotaping in support of communication products and services.
21. Provide multi-media support for digital media using appropriate software including but not limited to: Adobe Creative Cloud Suite including Adobe Photoshop, Adobe Acrobat,

Adobe Illustrator, Adobe Bridge, Apple Motion and/or Adobe After Effects, Apple DVD Studio Pro, Apple Color, Apple Live Type or new versions or upgrades as required.

22. Provide content in accordance with appropriate style guides, including, but not limited to Associated Press, Navy and ONR styles.
23. Generate timely content and provide editing for still photography, videography, story development and production, scriptwriting, subject matter expert, on camera interviews, digital video conversion from one file format to another, skill in color correction and processing of print and informational imagery. Typical assignments may include but not limited to video and still photography for internal/external communication products, video news releases, ceremonies, infographics, special events, ground testing and demonstrations, conferences and symposiums, community activities, crisis events, and other assignments as requested.
24. Responsible for consistently upgrading and maintaining technical skills and capabilities in the application of new technologies and software. The contractor shall provide content in accordance with appropriate style guides, including, but not limited to Associated Press, Navy and ONR styles.
25. Responsible for the overall production and management of ONR national and international exhibits with the guidance and direction of the CSC Director.
26. Coordinate with sponsoring organization or interface with the lead show organizers, companies and vendors that will provide the services required by the exhibitors.
27. Analyzes existing goals, programs, and recommends improvements.
28. Assist in the management of trade shows and exhibitions to achieve marketing goals.
29. Assist in the managing of the preparation of design, layout, cost estimates, and construction of exhibits and trade show displays.
30. Assist in the management of exhibits within approved budget provided by the CSC Director.
 - Assist in the execution of the command exhibit program, including supporting the development of yearly exhibit themes and collateral material for up to forty (40) national/international events, such as Sea Air Space, Modern Day Marine, National Society of Black Engineers (NSBE), Institute of Electrical and Electronics Engineers (IEEE), American Geophysical Union (AGU), Armed Forces Communications and Electronics Association WEST, Maritime/Air Systems & Technologies (MAST), Pacific Operational Science and Technology (POST), various national STEM and industry events, Fleet Weeks, Navy Weeks and other exhibits, as required.
 - Perform other duties include storing, maintaining, shipping and setting up all ONR display systems, and assisting in the development and management of conference and exhibiting budgets.
 - Responsible for the coordination of securing and renting exhibit space with CSC Director approval through Other Direct Costs, attending design and working group meetings, handling all administrative matters associated with exposition planning (i.e. defining drayage, electrical, LAN hookups), identifying and leasing exhibit hardware, digital signage hardware/software, printing of five to eight (5-8)

graphic elements/panel, using pre-existing templates for display materials and making recommendations for government approval.

- Perform web management support, including content management, social media support and web site improvement coordination extending across the digital operation, encompassing desktops, mobile phones and other portable devices.
31. Provide web content management support to government employees for the ONR public web site and Intranet using the Site Corp or other Content Management System for the public facing website (www.onr.navy.mil).
32. Provide development and support of customized content management tools, managing two (2) three hundred plus (300+) page websites (one (1) internal, one (1) external) consistent with professional industry standards and adherent to DoN and DoD policy and guidelines, under the supervision of a government official responsible for approving content.
- Research and analyze available social and mobile media tools. This includes Twitter, Facebook, Instagram, news aggregators, SMS messaging, YouTube, blogging, and other emerging forms of digital media.
 - Manage communications campaigns across entire the organization using native and third party analytics tools.
 - Track, monitor, and report on search metrics.
 - Interact with services to tailor campaigns to specific news events or coverage areas. The contractor shall provide social media expertise for creating new ways to use the media to carry out the organization's missions and goals.
 - Increase visibility of the organization through social media with stakeholder engagements to help with the advancement of the organization's mission of science and technology.
 - Utilize metrics tools to assess visits and page views, bounce rates, average time spent, geography of readership, and other relevant measures of success.
 - Determine causes of problems and pursue opportunities and follow-on assessments regarding the organization's use of online platforms.
33. Provide journalistic quality photography in support of one hundred to two hundred (100 to 200) distinct events each year, which may require travel, portrait shots and capture of technology development, testing and demonstrations co-located with ONR partners.
34. Capture photography in a journalistic style in digital format using Government Furnished Equipment or the Contractor's own equipment if it is determined to be acceptable.
35. Provide photographs that are properly cropped, edited, and captioned according to Navy Style guidelines in order to support archival and search/find of specific photo events on Government Furnished Equipment for use in other command public affairs products.
36. Provide general executive assistant support to the office including answering general phone line, researching news clippings and distribution, tracking assigned taskers, word processing, general filing, and assisting with country clearances.

37. Support the scheduling of conferences and exhibits, constituent service, and coordination of communication meetings and events.
38. Support all local community outreach displays.
39. Produce support material for the ONR exhibits. These materials shall meet the specifications of the ONR exhibit design and structure. Support includes design, manufacturing, and delivery to government or agreed upon storage location. Examples of printing and exhibit support materials that cannot be done through internal ONR channels may include large signage, banners, specialty brochures or pamphlets, and other items not easily defined.
40. Obtain approval from CSC Director prior to initiating of any printing requirement outside ONR internal channels.
41. Support planning and execution of local community outreach events.
42. Facilitate interactions between scientists and local communities including school visits by scientists and student tours of research facilities.
43. Place primary emphasis on Science, Technology, Engineering and Mathematics (STEM) related initiatives designed to raise public awareness and increase student interest in Navy Science and Technology programs.
44. Serve as Dept. 52's primary liaison with the Navy's STEM office located within ONR.
45. Document and memorialize ONR's historical scientific achievements with foundational scientific linkages to current products/systems/operational doctrine of previous ONR investments.
46. Conduct archival research to create a range of products and outreach programs dealing with historical programs.
47. Ensure current documents and personal experiences at ONR are compiled and analyzed comprehensively and, when required, provide transcription services.
48. Systematically examine documents on current programs to build understanding of ONR's accomplishments, creating a range of products and outreach programs, including command publications, articles, monographs, oral histories, video documentaries, educational teaching aids, and other materials. These duties require frequent interactions with the transcriptionist to provide material for transcription.
49. Provide word-to-word or verbatim transcription services to document recorded English speeches and interviews into a text document. This support shall be completed with audio and video files provided by the customer. Each transcribed file shall be completed with accuracy to allow for easy recall or lookup of desired information by all persons including the hearing impaired or deaf.
50. Assist the CSC Director in the planning, coordination and management of conference and events that are deemed necessary to advance the mission of Naval science and technology as well as research and development. These tasks shall be executed through the development and maintenance of a database of facilities and resources available:
 - Maintain a corporate calendar specifically for tracking all of ONR conference and events; Provide event guidance and assistance directly to ONR senior leaders and program staff with distinguished visitors and very important person visits.

- Conduct site surveys for potential events to help the CSC Director to select hotel venues based on best value to the government.
- Develop announcements, invitations and other conference promotional materials that would be transmitted via mail, fax, emails and online platforms.
- Co-develop the design and production of conference materials (handout materials, papers, speaker bios, etc.) with graphics staff.
- Manage vendors and rooming lists.
- Obtain quotes for event space and audiovisual services.
- Collaborate with ONR co-sponsors to create and help to compile information for conference notebooks, conference summary reports, proceedings and CDs.
- Provide professional input on agenda structure, room sets and A/V set up.
- Maintain conference archives with memorandums for the record and after-action reports.
- Populate and maintain up-to-date database of ongoing conference and events pertinent to the ONR mission.
- Deliver on-site support of both CLASSIFIED and UNCLASSIFIED conferences, meetings and events, as needed.
- Attend local and travel to attend out-of-area meetings as necessary.
- Prepare reports and white papers to help leadership make informed decisions regarding various aspects of conference and event support.
- Assist ONR sponsors with invitational travel as needed.
- Perform general and administrative duties; and support ONR's exhibit program, as needed.
- Capture photographic still imagery and prepare draft written copy for web, social media and official correspondence to support promotional marketing and outreach needs related to conferences and events.

51. In addition to assisting the CSC Director in the planning, coordination and management of conference and events, the contractor shall prepare conference attendance and hosting reports, conference approval packages with official routing; liaise with ONR leadership, ASN RD&A and DON AA regarding conferences and attendance submissions, approvals and current guidance; and prepare recommended guidance and training materials on determination of conferences and attendance requirements for the Dept. 52 director and ONR leadership and command staff.

2.16.1 Multimedia Specialist III – Photo/Video Personnel Requirements

At a minimum, this position requires:

- Candidates must have bachelor's degree in visual communications, video production or related broadcast field from an accredited institution and have at least ten (10) years of recent experience as a Multimedia Specialist providing scriptwriting, caption writing, video editing, videography, video producing and still photography services in a public affairs/corporate communications environment. - The requirement for ten (10) years of experience may be waived if the proposed candidate possesses a master's degree in visual communications, video production or related broadcast field from an accredited institution and has at least three (3) years of recent related experience.
- Experience with researching, preparing and disseminating information through various digital media.
- Proficient in operating digital video camera equipment and editing video software.
- Produce motion graphics for video using lighting design, sound design, story development and conducting video interviews.
- Strong interpersonal skills with the ability to work as a team member and independently.
- Strong project management skills with ability to take projects from concept to completion.
- Experienced in Adobe Photoshop CS 4/5, Adobe Premier Video Editing, PC and iOS operating systems, digital video conversion from one file format to another, skill in color correction and processing of print and video imagery.
- Effectively manage technical aspects of image distribution and must be familiar with Navy customs and protocols with respect to the correct wearing of the Navy uniform, security considerations, etc.
- Some travel will be required in support of ONR events.

Security Clearance: SECRET (Current or ability to obtain prior to award)

2.17 Policy Analyst III (1 FTE) 05/OSS

The support tasks for this position(s), include, but are not limited to:

- Conduct technical liaison and coordination with the Naval Research Enterprise; the Naval Research and Development Establishment; Program Executive Officer (PEO) and System Command (SYSCOM) stakeholders; academia; the National Academy of Sciences, the Office of the Secretary of Defense, the U.S. Marine Corps, U.S. Army, U.S. Air Force, U.S. Space Force, U.S. Coast Guard, the Defense Advanced Research Projects Agency; and the other Federal Agencies when required.

2.17.1 Policy Analyst III Personnel Requirements

At a minimum, this position requires:

- Strong analytical, organizational, and communication skills.
- Ability to work independently and manage multiple priorities in a fast-paced environment.

Desired additional qualifications:

- Familiarity with DoD property accountability regulations and FIAR standards.
- Prior experience with asset management systems (DPAS, ERP).
- Prior experience supporting government audits or compliance programs.

Security Clearance: Public Trust

2.18 Program Analyst I (1 FTE + 1 FTE Surge), II (7 FTE + 1 FTE Surge), & III (3 FTE + 2 FTE Surge) 05 & 01

The support tasks for this position(s), include, but are not limited to:

- Assist in the planning, facilitation, and execution of ONR's strategic S&T initiatives.
- Coordinate the activities of multi-disciplinary technical personnel to accomplish complex program tasks.
- Conduct special studies and provide recommendations to align ONR programs with Naval needs, strategic concepts, and leadership priorities.
- Support Technology Readiness Assessments (TRA) and Manufacturing Readiness Levels (MRL) by evaluating maturation planning, validating data, and ensuring compliance with DoD/DON doctrine.
- Serve as a technical liaison with stakeholders including PEOs, SYSCOMs, OSD, DARPA, and the Chief of Naval Operations staff.
- Conduct detailed financial analysis and execute funding directives using ONR-specific IT and data management tools.
- Develop and maintain fiscal metrics; track the performance of programs and performers.
- Prepare financial and programmatic summaries, reports, and briefings for data calls, Mid-Year Reviews, Investment Balance Reviews, and other leadership activities.
- Support all phases of financial planning, budgeting, and execution for S&T fiscal submissions, including the Program Objective Memorandum (POM) process.
- Manage multiple budgetary and execution tasks simultaneously, adapting to changing priorities.
- Provide analytical and administrative expertise to ensure smooth day-to-day operations within the Comptroller's office.
- Prepare supporting documentation and briefing materials with high attention to detail for budget reviews and leadership briefings.
- Develop, implement, and evaluate internal Standard Operating Procedures (SOPs) to ensure configuration control and audit readiness in accordance with FMR, FMPM, and OMB Circulars.
- Track and coordinate data calls, official correspondence, and recurring reports to ensure timely and accurate completion.
- Manage all administrative functions for comptroller staff, including onboarding, time and attendance, travel, training, and employee development programs.

- Design and create web page content, graphics, and communication materials to articulate abstract technical concepts and support program goals.
- Manage the FFRDC Sponsor Feedback Process, including documentation, reporting, and maintenance of the online system.
- Document workflows and SOPs within the program.
- Ensure stakeholder awareness of IT initiatives, network status, and planned outages through strategic communications. (Task limited to person that supports 53).
- Serve as the Telecommunications Service Control Officer, managing service calls, reviewing usage, and generating reports. (Task limited to person that supports 53).

2.18.1 Program Analyst I 1 FTE + 1 FTE Surge) Personnel Requirements

At a minimum, this position requires:

- Ability to think critically, analyze information, identify problems, evaluate potential solutions, and make data-driven recommendations.
- Excellent ability to manage and organize multiple complex tasks simultaneously, with meticulous attention to detail and the ability to adapt to shifting priorities.
- Excellent verbal and written communication skills.
- Strong interpersonal skills with the ability to work effectively as a team member and independently.

Desired additional qualifications:

- Direct experience supporting ONR, the Naval Research Enterprise, or a similar S&T organization.
- Familiarity with DoD property accountability regulations and FIAR standards.
- Demonstrated experience with the DoD/DON budget cycle, including POM development, and familiarity with federal financial regulations (e.g., FMR, FMPM).
- Proven ability to liaise effectively with senior military, government, and civilian personnel.
- Proficiency with Navy ERP (or similar financial management systems) and Microsoft Power Apps.

Security Clearance: SECRET (Current or ability to obtain prior to award)

2.18.2 Program Analyst II (7 FTE + 1 FTE Surge) Personnel Requirements

At a minimum, this position requires all the requirements for Program Analyst I, including:

- Candidates must have bachelor's degree in Finance, Business Administration, Public Policy, or a related field from an accredited institution and have at least five (5) years of recent experience in program management, financial analysis, or management consulting within the Department of Defense (DoD) or Department of the Navy (DON).
 - The requirement for a bachelor's degree may be waived if the proposed candidate has a high school diploma or equivalent and at least ten (10) years of recent experience in program management, financial analysis, or management

consulting within the Department of Defense (DoD) or Department of the Navy (DON).

- Proven ability to liaise effectively with senior military, government, and civilian personnel.
- Demonstrated experience with the DoD/DON budget cycle, including POM development, and familiarity with federal financial regulations (e.g., FMR, FMPM).
- Superior written and verbal communication skills, with experience preparing briefs, reports, and official correspondence for senior leadership.

Desired additional qualifications:

- Direct experience supporting ONR, the Naval Research Enterprise, or a similar S&T organization.
- Familiarity with DoD property accountability regulations and FIAR standards.
- Proficiency with Navy ERP (or similar financial management systems) and Microsoft Power Apps.

Security Clearance: SECRET (Current or ability to obtain prior to award)

2.18.3 Program Analyst III (3 FTE + 2 FTE Surge) Personnel Requirements

At a minimum, this position requires all the requirements for Program Analyst I and II, including:

- Candidates must have master's degree in Finance, Business Administration, Public Policy, or a related field from an accredited institution and have at least ten (10) years of recent experience in program management, financial analysis, or management consulting within the Department of Defense (DoD) or Department of the Navy (DON).
 - The requirement for a degree may be waived if the proposed candidate has a high school diploma or equivalent and has at least fifteen (15) years of recent experience in program management, financial analysis, or management consulting within the Department of Defense (DoD) or Department of the Navy (DON).

Desired additional qualifications:

- Direct experience supporting ONR, the Naval Research Enterprise, or a similar S&T organization.
- Familiarity with DoD property accountability regulations and FIAR standards.
- Proficiency with Navy ERP (or similar financial management systems) and Microsoft Power Apps.

Security Clearance: SECRET (Current or ability to obtain prior to award)

2.19 Program Analyst III Lead (1 FTE) 05 (BFM)

The support tasks for this position(s), include, but are not limited to:

- Assist the government Business Financial Manager (BFM) in defending budgets, responding to budget review questions, handling supplemental funding inquiries, and preparing briefings for leadership.
- Prepare and analyze financial funding packages, budget analyses, and detailed impact statements for proposed and existing initiatives, ensuring all work is free of errors.
- Coordinate with stakeholders to gather data for, consolidate, and review budgetary impact statements (initial, draft, and final) to meet strict schedule requirements.
- Track actual IT expenditures against budgeted amounts at the Budget Line Item (BLI) level, ensuring the accuracy of IT budget data.
- Compile, analyze, and update financial execution data from various sources (e.g., DFAS reports, PBIS-IT) to support monthly reports, mid-year reviews, and external status requests.
- Prepare comprehensive financial and performance documentation for mid-year and program reviews in compliance with DoN, ONR, and FMB standards.
- Recommend methods, processes, and tools to improve Key Performance Indicators (KPIs) related to cost, schedule, and performance.
- Enter and manage approved changes within the Navy's IT financial repository (PBIS-IT) during each budget cycle.
- Submit and track non-exempt IT requirements through NAVITAS, providing justification and escalating issues as needed to ensure timely resolution.
- Manage the Information Technology Procurement Request process.
- Collect and validate task-related data, updating tasker trackers daily to ensure reliable reporting to the BFM.
- Coordinate with Comptroller organizations (e.g., ONR, FMB) and the Defense Finance and Accounting Service (DFAS) to ensure accurate posting and reconciliation of financial data.
- Provide essential backup assistance to the financial specialist during peak periods or absences.
- Manage and prioritize the workload and taskers assigned to the program and financial analysts supporting the BFM, ensuring efficient task completion and process improvements.

2.19.1 Program Analyst III Lead Personnel Requirements

At a minimum, this position requires:

- Candidates must have master's degree in Finance, Business Administration, Public Policy, or a related field from an accredited institution and have at least seven (7) years of recent experience in program management, financial analysis, or management consulting within the Department of Defense (DoD) or Department of the Navy (DON).
 - The requirement for a degree may be waived if the proposed candidate has a high school diploma or equivalent and has at least ten (10) years of recent experience in program management, financial analysis, or management

consulting within the Department of Defense (DoD) or Department of the Navy (DON).

- Strong interpersonal skills with the ability to work effectively as a team member and independently.
- Proven experience as a team leader, directly overseeing contractor personnel in a government contracting environment.
- Demonstrated ability to manage team performance, provide constructive feedback, and resolve personnel issues effectively and professionally.
- Ability to critically analyze complex information, identify core problems, evaluate potential solutions, and make data-driven recommendations.
- Demonstrated ability to prepare and deliver briefs, reports, and official correspondence for senior leadership, and to liaise effectively with senior military, government, and civilian personnel.
- Proven ability to manage and organize multiple complex tasks simultaneously in a fast-paced environment, adapting to shifting priorities while maintaining meticulous attention to detail.
- Demonstrated experience with the DoD/DON budget cycle, including Program Objective Memorandum (POM) development, and comprehensive knowledge of federal financial regulations (e.g., FMR, FMPM).
- Proven ability to successfully manage and execute Department of the Navy (DON) IT procurement actions, ensuring compliance with all relevant acquisition regulations and internal approval processes.
- Proficiency with Navy ERP (or similar financial management systems) and the Microsoft Power Platform (including Power Apps).
- Direct experience supporting the Office of Naval Research (ONR), the Naval Research Enterprise, or a similar Science & Technology (S&T) organization is highly desirable.

Security Clearance: SECRET (Current or ability to obtain prior to award)

2.20 Program Manager (1 FTE)

The support tasks for this position(s), include, but are not limited to:

- Act as the primary liaison to the Contracting Officer's Representative (COR), proactively managing the client relationship by providing transparent updates on resources, tasking, and overall contract status.
- Prepare and deliver accurate and timely Bi-Weekly Activity Reports and all other ad-hoc or recurring analyses required by the contract to the COR and Contracting Officer/Specialist, detailing team progress and contract performance.
- Directly supervise all contractor personnel, driving performance excellence by ensuring the team adapts to client needs, provides high-quality support, and adheres to all requirements and expectations discussed in regular team meetings.
- Conduct monthly team meetings and maintain regular communication to set expectations and resolve any personnel-related issues swiftly.

- Oversee the entire personnel security process, ensuring all new and existing staff complete required clearance documentation (SF 86, fingerprints) and mandatory security briefings.
- Ensure all contractual staffing obligations are met by providing qualified replacement or supplemental personnel as directed by the COR.
- Provide continuous skills-based training and updates on procedures, policies, and regulations to maintain a knowledgeable and compliant workforce.

2.20.1 Program Manager Personnel Requirements

At a minimum, this position requires:

- Candidates must have bachelor's degree from an accredited college or university and five (5) years of proven experience in a supervisory or management role, directly overseeing contractor personnel in a government contracting environment.
- Strong understanding of government contract compliance, including staffing requirements and performance reporting.
- Proven ability to prepare and deliver formal contract deliverables, such as activity reports and performance analyses.
- Experience managing the personnel security clearance process, including familiarity with the requirements for the SF 86 (Questionnaire for National Security Positions) and associated procedures.
- Superior written and verbal communication skills, with the ability to liaise effectively between the contractor team and senior government clients.
- Ability to manage multiple priorities simultaneously—including team supervision, client reporting, and administrative duties—with meticulous attention to detail.
- Proactive and adept at identifying potential issues, formulating solutions, and driving resolution to ensure smooth contract operations.
- A demonstrated ability to train and mentor team members, ensuring they are well-equipped with the knowledge of procedures, policies, and regulations required to succeed.

Security Clearance: SECRET (Current or ability to obtain prior to award)

Typical assignments may include but not limited to video and still photography for internal/external communication products, video news releases, ceremonies, infographics, special events, ground testing and demonstrations, conferences and symposiums, community activities, crisis events, and other assignments as requested.
24. Responsible for consistently upgrading and maintaining technical skills and capabilities in the application of new technologies and software. The contractor shall provide content in accordance with appropriate style guides, including, but not limited to Associated Press, Navy and ONR styles.
25. Responsible for the overall production and management of ONR national and international exhibits with the guidance and direction of the CSC Director.
26. Coordinate with sponsoring organization or interface with the lead show organizers, companies and vendors that will provide the services required by the exhibitors.
27. Analyzes existing goals, programs, and recommends improvements.
28. Assist in the management of trade shows and exhibitions to achieve marketing goals.
29. Assist in the managing of the preparation of design, layout, cost estimates, and construction of exhibits and trade show displays.
30. Assist in the management of exhibits within approved budget provided by the CSC Director.
 - Assist in the execution of the command exhibit program, including supporting the development of yearly exhibit themes and collateral material for up to forty (40) national/international events, such as Sea Air Space, Modern Day Marine, National Society of Black Engineers (NSBE), Institute of Electrical and Electronics Engineers (IEEE), American Geophysical Union (AGU), Armed Forces Communications and Electronics Association WEST, Maritime/Air Systems & Technologies (MAST), Pacific Operational Science and Technology (POST), various national STEM and industry events, Fleet Weeks, Navy Weeks and other exhibits, as required.
 - Perform other duties include storing, maintaining, shipping and setting up all ONR display systems, and assisting in the development and management of conference and exhibiting budgets.
 - Responsible for the coordination of securing and renting exhibit space with CSC Director approval through Other Direct Costs, attending design and working group meetings, handling all administrative matters associated with exposition planning (i.e. defining drayage, electrical, LAN hookups), identifying and leasing exhibit hardware, digital signage hardware/software, printing of five to eight (5-8) graphic elements/panel, using pre-existing templates for display materials and making recommendations for government approval.

- Perform web management support, including content management, social media support and web site improvement coordination extending across the digital operation, encompassing desktops, mobile phones and other portable devices.
31. Provide web content management support to government employees for the ONR public web site and Intranet using the Site Corp or other Content Management System for the public facing website (www.onr.navy.mil).
 32. Provide development and support of customized content management tools, managing two (2) three hundred plus (300+) page websites (one (1) internal, one (1) external) consistent with professional industry standards and adherent to DoN and DoD policy and guidelines, under the supervision of a government official responsible for approving content.
 - Research and analyze available social and mobile media tools. This includes Twitter, Facebook, Instagram, news aggregators, SMS messaging, YouTube, blogging, and other emerging forms of digital media.
 - Manage communications campaigns across entire the organization using native and third party analytics tools.
 - Track, monitor, and report on search metrics.
 - Interact with services to tailor campaigns to specific news events or coverage areas. The contractor shall provide social media expertise for creating new ways to use the media to carry out the organization's missions and goals.
 - Increase visibility of the organization through social media with stakeholder engagements to help with the advancement of the organization's mission of science and technology.
 - Utilize metrics tools to assess visits and page views, bounce rates, average time spent, geography of readership, and other relevant measures of success.
 - Determine causes of problems and pursue opportunities and follow-on assessments regarding the organization's use of online platforms.
 33. Provide journalistic quality photography in support of one hundred to two hundred (100 to 200) distinct events each year, which may require travel, portrait shots and capture of technology development, testing and demonstrations co-located with ONR partners.
 34. Capture photography in a journalistic style in digital format using Government Furnished Equipment or the Contractor's own equipment if it is determined to be acceptable.
 35. Provide photographs that are properly cropped, edited, and captioned according to Navy Style guidelines in order to support archival and search/find of specific photo events on Government Furnished Equipment for use in other command public affairs products.
 36. Provide general executive assistant support to the office including answering general phone line, researching news clippings and distribution, tracking assigned taskers, word processing, general filing, and assisting with country clearances.
 37. Support the scheduling of conferences and exhibits, constituent service, and coordination of communication meetings and events.
 38. Support all local community outreach displays.

39. Produce support material for the ONR exhibits. These materials shall meet the specifications of the ONR exhibit design and structure. Support includes design, manufacturing, and delivery to government or agreed upon storage location. Examples of printing and exhibit support materials that cannot be done through internal ONR channels may include large signage, banners, specialty brochures or pamphlets, and other items not easily defined.
40. Obtain approval from CSC Director prior to initiating of any printing requirement outside ONR internal channels.
41. Support planning and execution of local community outreach events.
42. Facilitate interactions between scientists and local communities including school visits by scientists and student tours of research facilities.
43. Place primary emphasis on Science, Technology, Engineering and Mathematics (STEM) related initiatives designed to raise public awareness and increase student interest in Navy Science and Technology programs.
44. Serve as Dept. 52's primary liaison with the Navy's STEM office located within ONR.
45. Document and memorialize ONR's historical scientific achievements with foundational scientific linkages to current products/systems/operational doctrine of previous ONR investments.
46. Conduct archival research to create a range of products and outreach programs dealing with historical programs.
47. Ensure current documents and personal experiences at ONR are compiled and analyzed comprehensively and, when required, provide transcription services.
48. Systematically examine documents on current programs to build understanding of ONR's accomplishments, creating a range of products and outreach programs, including command publications, articles, monographs, oral histories, video documentaries, educational teaching aids, and other materials. These duties require frequent interactions with the transcriptionist to provide material for transcription.
49. Provide word-to-word or verbatim transcription services to document recorded English speeches and interviews into a text document. This support shall be completed with audio and video files provided by the customer. Each transcribed file shall be completed with accuracy to allow for easy recall or lookup of desired information by all persons including the hearing impaired or deaf.
50. Assist the CSC Director in the planning, coordination and management of conference and events that are deemed necessary to advance the mission of Naval science and technology as well as research and development. These tasks shall be executed through the development and maintenance of a database of facilities and resources available:
 - Maintain a corporate calendar specifically for tracking all of ONR conference and events; Provide event guidance and assistance directly to ONR senior leaders and program staff with distinguished visitors and very important person visits.
 - Conduct site surveys for potential events to help the CSC Director to select hotel venues based on best value to the government.

- Develop announcements, invitations and other conference promotional materials that would be transmitted via mail, fax, emails and online platforms.
- Co-develop the design and production of conference materials (handout materials, papers, speaker bios, etc.) with graphics staff.
- Manage vendors and rooming lists.
- Obtain quotes for event space and audiovisual services.
- Collaborate with ONR co-sponsors to create and help to compile information for conference notebooks, conference summary reports, proceedings and CDs.
- Provide professional input on agenda structure, room sets and A/V set up.
- Maintain conference archives with memorandums for the record and after-action reports.
- Populate and maintain up-to-date database of ongoing conference and events pertinent to the ONR mission.
- Deliver on-site support of both CLASSIFIED and UNCLASSIFIED conferences, meetings and events, as needed.
- Attend local and travel to attend out-of-area meetings as necessary.
- Prepare reports and white papers to help leadership make informed decisions regarding various aspects of conference and event support.
- Assist ONR sponsors with invitational travel as needed.
- Perform general and administrative duties; and support ONR's exhibit program, as needed.
- Capture photographic still imagery and prepare draft written copy for web, social media and official correspondence to support promotional marketing and outreach needs related to conferences and events.

51. In addition to assisting the CSC Director in the planning, coordination and management of conference and events, the contractor shall prepare conference attendance and hosting reports, conference approval packages with official routing; liaise with ONR leadership, ASN RD&A and DON AA regarding conferences and attendance submissions, approvals and current guidance; and prepare recommended guidance and training materials on determination of conferences and attendance requirements for the Dept. 52 director and ONR leadership and command staff.

52. Design and create web page content, graphics, and communication materials to articulate abstract technical concepts and support program goals. (This tasker is only for the person that supports CSC)

4.0 REPORTS DATA AND OTHER DELIVERABLES

The ONR Mission Support Directorate (Code 05) is one of the principal officials within ONR and is dedicated to providing a full range of corporate business and logistics functions to enable the Command's mission is one of the principal officials within ONR and is

4.1 Deliverables

3.1.1 Human Capital Summary Report(s)

The Contractor shall provide quarterly summary reports no later than 120 days after performance begins. The report shall address recruitment and retention issues including the number of vacancies that existed on the 1st of each month, how many employees left during each month, how long it took to fill each vacancy (provide name of employee that vacated and how long the position was vacant from identification of replacement personnel and onboarding paperwork submitted and accepted by the COR within 20 days of employee departure). Address all performance issues that occurred during the quarter or are a continuation from prior quarter, how each issue was addressed, and the resolution. Also include metrics (type and quantity) on work accomplished during the quarter.

3.1.2 Individual Personnel Report(s)

The contractor shall prepare a weekly summary report, due Friday of each week. The weekly report may be provided in contractor format (subject to COR approval). The report shall include contractor's name and labor category, contract and subcontract number, date of report, period covered, work accomplished by task, number of hours worked and status of work in progress.

3.1.3 Quality Control Plan

The Contractor shall provide the COR with a contract quality control plan submitted no later than ten (10) days after contract award. The Contracting Officer and Contracting

Officer Representative with review and the final quality control plan will be submitted no later than five (5) days after concurrence. Revisions to the quality control plan must be submitted within five(5) business days via email.

3.1.4 Monthly Financial Status Reports

The Contractor shall provide monthly financial status reports to the COR and the Contract Specialist. For this report, monthly technical progress can be provided in contractor format (subject to COR approval). The financial status portion of the monthly report shall be provided in the format and with the required information found on the Contractor Monthly Financial Status Report Template found at the following site:

<http://www.onr.navy.mil/en/Contracts-Grants/manage-contract.aspx>. The format for the financial status reports may be updated during the life of the contract/task order and if the report template is updated the new version will be uploaded to this website (or any successor website identified via administrative modification to the contract/task order) and the contractor will be notified that an updated version shall be used for future submissions. The monthly financial status report requires the information to be provided as indicated in the Contractor Monthly Financial Status Report Template.

For Event Planner: The contractor shall provide the following reports and other deliverables: REPORT/DELIVERABLE DUE DATE Status Report: The contractor shall provide a detailed status report that covers the key activities that took place during that period. Activities will include: work completed, problem area and concerns, work expended and upcoming travel plans. Contractor format is acceptable. Monthly Financial Report: The contractor shall provide financial report(s) that include level of effort/hours spent on tasks/projects. Contractor format is acceptable. Monthly Event Materials: Presentation material will be developed and submitted to the ONR Program Manager. This will include graphics, reproduction, brochures and all other pertinent material requested. As required by the ONR Program Manager
