

N0017826Q6733 Question & Answer

- 1) Is it possible to ask for an extension on this?

A: Thanks for your interest in bidding. Regrettably, we cannot offer an extension on the closing date due to our tight schedule.

- 2) Upon our working with the vendor, we evaluated that we do not have a tower solution that meets your system specifications. Can you take a 5U rackmount server instead of a tower?

A: The customer is requesting the item listed on the SF1449.

- 3) Since Nvidia does not make any liquid cooled H200 PCIe GPU's would the customer be open to a Grace Blackwell based workstation? This system is supported with closed loop liquid cooling and would deliver better performance then and H200 based system. Would the customer be open to a briefing on this system and options to understand the specifications in relation to their specific system requirements?

A: While these new architectures are interesting, they have not been vetted for operation on our network and would require extensive time and resources to get them qualified.
