Pre-bid Conference Queries, 191N6526Q0028
Conducted at the American Center on April 10, 2026.

Name of the work	Drone show
Customer Name	American Embassy, Department of United States

SR. No.	Page No.	Clause Header	Reference Point	question	Embassy response
1	10	5.4 Regulatory Compliance & Permissions	Ensure RF (Radio Frequency)-interference-free environment	We will ensure and check an interference-free RF environment prior to the commencement of the drone light show. Additionally, if RF jammers are deployed for VVIP security, the same should be communicated in advance by the event organiser to ensure proper planning and risk mitigation. We request review/ flexibility regarding RF (Radio Frequency) interference conditions, as RF environments are inherently dynamic over time. While, it may not be feasible to control RF interference during the live show.	As discussed during the meeting, the Embassy will inform the Contractor in advance if any RF jammers or frequency blockers are to be deployed due to VVIP movements during the program. This will be coordinated with the Embassy's Security Team. The Contractor is expected to plan accordingly.

Pre-bid Conference Queries, 191N6526Q0028
Conducted at the American Center on April 10, 2026.

2	11	5.10 On-Ground Infrastructure	a. Storage & Preparation Area (Minimum 2 Days): • Air-conditioned space (~1200 sq. ft.) • Minimum 32 kW power supply • At least 15 power outlets (16 Amp) • Tables (12) and chairs (20)	We request that flexibility be provisioned to the Vendor in provisioning of the on ground infrastructure based on their specific requirements for the same and all such affiliated expenditure would be included by the Vendor in the final quote being submitted.	The specifications provided in the Scope of Work represent standard requirements for drone light shows. However, the Embassy is flexible and may allow reasonable modifications based on venue conditions and availability of resources. Such flexibility shall not compromise the quality, safety, or overall outcome of the show.
3	12	7. Project Timeline	• Final programming and testing: 1–2 weeks prior to each show	We request that the timelines be revised to reflect testing one /two days before the scheduled show instead of 1–2 weeks prior. As regulatory requirements, permissions, and compliance are additionally required for the testing day as well.	The Embassy agrees to revise the timeline. Final rehearsal/testing may be conducted 1–2 days prior to the show, considering regulatory approvals and compliance requirements. Changes are made in the Scope of work.
4	13	8. Contractor Qualifications	The Contractor must have at least 5 years of experience in drone light shows	We request that the minimum experience requirement be reduced from 5 years to 3 years. This revision will help create a level playing field for emerging Startups as well as established companies.	The minimum experience requirement has been revised from 5 years to 3 years in the Scope of Work.

Pre-bid Conference Queries, 191N6526Q0028
Conducted at the American Center on April 10, 2026.

5	11	5.6 Safety & Risk Manag ement	Maintain insurance for: o Equipme nt o Personne l o Third- party liability	For insurance we are laid down norms for drones as per IS 2021.	The Contractor shall comply with all applicable drone insurance regulations and standards, including those prescribed under relevant Indian aviation guidelines (e.g., DGCA norms).
6	Page 8	Scope of Show Design, Clause 2.1		• It is proposed that the number of formations within each drone light show be defined within a range of 10 to 12 formations. • This range ensures optimal balance between visual impact, narrative coherence, and operational feasibility.	The number of formations has been revised to 10–12 formations per show in the updated SOW. If possible, additional formations can be added during the take off and landing stage.
7	Page 9	Approv al Timeli ne, Clause 5.4		• The Client is kindly requested to provide final approval of the show at least twenty (20) working days prior to the scheduled execution date. • This timeline is essential to ensure adequate time for programming, simulation, compliance checks, and logistical planning.	The Embassy will make reasonable efforts to provide a 20-day approval window to facilitate programming, compliance, and logistical planning.
8	Page 10	Respon sibility for Approv als, Clause 5.4		• The Contractor shall be responsible for securing all necessary permissions and regulatory approvals required for execution of the drone light show. • The Client (US Embassy) is requested to extend reasonable assistance and facilitation, wherever required, particularly in	While the Embassy will provide necessary support and facilitation, the Contractor remains solely responsible for obtaining all regulatory approvals, including submission of applications, payment of fees, and follow-ups with authorities.

Pre-bid Conference Queries, 191N6526Q0028
Conducted at the American Center on April 10, 2026.

				coordination with relevant authorities.	
9	Page 10	Submission of Approvals, Clause 5.4		RF Interference Disclaimer • The Contractor shall take all reasonable measures to ensure an RF-interference-free operating environment. • Notwithstanding the above, the Contractor cannot guarantee complete elimination (100%) of RF interference, particularly in scenarios involving: - o High-security protocols, and - o Presence of multiple dignitaries and sensitive communication systems. - o Mobile/Wifi towers • Accordingly, this limitation is requested to be formally acknowledged.	The Embassy acknowledges the limitations associated with RF interference. However, the Contractor is expected to take all reasonable measures to mitigate such risks and ensure smooth execution of the show.
10		Interference Disclaimer		• The Contractor shall take all reasonable measures to ensure an RF-interference-free operating environment. • Notwithstanding the above, the Contractor cannot guarantee complete elimination (100%) of RF interference, particularly in scenarios involving: - o High-security protocols, and	The Embassy acknowledges all limitations subject to the condition that the Contractor will make all efforts to overcome these limitations.

Pre-bid Conference Queries, 191N6526Q0028
Conducted at the American Center on April 10, 2026.

				- o Presence of multiple dignitaries and sensitive communication systems. - o Mobile/Wifi towers • Accordingly, this limitation is requested to be formally acknowledged.	
11	Page 13	Programming and Testing, Clause 7		• The Contractor shall submit documented proof of approvals prior to mobilisation. • However, it is requested that the Client adopt a reasonable and flexible approach toward timelines, considering that: - o The approval process involves multiple government and regulatory bodies, and - o Each authority operates under independent procedures and timelines that may not be fully controllable by the Contractor.	The Embassy understands that approval timelines may vary and are not always within the Contractor's control. However, all required approvals must be obtained at least one day prior to the scheduled show.
12	Page 13	Programming and Testing		• Final calibration and testing of each show shall be conducted 1–2 days prior to the main event. • Final animation and programming will require approval 7 days prior to day of event. • This is critical to account for real-world environmental conditions and ensure flawless execution.	The Embassy accepts the proposed timelines: Final testing: 1–2 days prior to the show Final animation/programming approval: 7 days prior to the event

Pre-bid Conference Queries, 191N6526Q0028
Conducted at the American Center on April 10, 2026.

13	Page 15,	Payment Terms, Clause 11		• It is proposed that payment for each show be made within thirty (30) days from the date of successful execution of the respective show. • It is further clarified that: - o Any costs associated with the event venue and/or the designated drone take-off and landing site are not included within the scope of the Contractor's deliverables, and shall not be the responsibility of the Contractor. - o Such costs shall be borne by the Client or arranged separately, as mutually agreed. - o Notwithstanding the above, the Contractor shall, upon request, provide recommendations and suggest suitable venue options that meet the operational and safety requirements of the drone light show.	The Contractor should include venue-related costs in the bid if known in advance. If such costs cannot be estimated beforehand, the Embassy may modify the contract to include these costs based on supporting documentation prior to the event.
14	Page 14	Request for Clarification, Performance Interruption Clause, Clause 9.3		• We kindly request further clarification regarding the clause referencing "no interruption exceeding 30 seconds." • Specifically, clarification is sought on: - o The definition and scope of what constitutes an "interruption"; - o Whether this includes minor positional deviations, temporary signal fluctuations, or only complete system	"No interruption" means continuous, synchronized execution of the drone show without any significant disruption, pause, or system failure affecting visual or operational performance. Minor deviations (up to 5%) from the approved storyline are acceptable for up to 30 seconds. Any penalties or deductions will be determined based on the nature and cause of the interruption.

Pre-bid Conference Queries, 191N6526Q0028
Conducted at the American Center on April 10, 2026.

				halts; o The measurement methodology for such interruptions; and o The implications or penalties, if any, associated with exceeding the stated threshold.	
15				As the take off location is not yet finalised, actual costs of onsite production that will be submitted on 16th April may vary to actual costs incurred, do let us know if there is any provision to modify our price bids at later stage.	The contract may be modified to include additional costs that cannot be reasonably estimated before April 16, 2026, subject to justification and approval.

Pre-bid Conference Queries, 191N6526Q0028
Conducted at the American Center on April 10, 2026.

16			Regulatory Compliance & Permissions can only be applied with the following details 1.Letter of Authorisation or No Objection certification deeming our company to apply for permissions on behalf of the event. 2.Precise Geo Location of Drone Take Off Position in all 3 cities 3.Final dates of testing, rehearsal and show including time of take off 4.Mail from Client directly to MHA requesting for clearance. This will help validate the urgency to the required authorities. Without the above details, it is not possible to apply for Permissions and this makes it impossible to guarantee without providing complete information. We therefore request that the note mentioned be modified accordingly in 5.4 - Failure to obtain required approvals shall constitute a material breach of contract, and the Contractor shall bear full responsibility for any delays, cancellations, penalties, or associated costs. As per the current stage where many details need to be finalised by the client, expecting us to bear the full responsibility for delays or penalties therein must be modified to accommodate realistic timelines and action plans.	The Embassy will provide required letters and official communications to support the approval process. Although the draft of all the letters and mail will provided by the contractor. However, the Contractor remains responsible for: Submitting applications Paying applicable fees Conducting follow-ups with authorities The Embassy will aim to provide a 20-day planning window.
----	--	--	---	--

Pre-bid Conference Queries, 191N6526Q0028
Conducted at the American Center on April 10, 2026.

17				It is not humanly possible to Ensure RF (Radio Frequency)-interference-free environment. Necessary safety checks will be made prior to launch to check for interference, however, it is not within our control if there is unexpected VIP movement along with a jammer, in the vicinity of the event during the 15 mins of the activity. We therefore request that the note mentioned be modified accordingly in 5.4 - Ensure RF (Radio Frequency)-interference-free environment	As stated earlier, the Embassy will inform the Contractor in advance regarding the use of jammers or frequency blockers due to VVIP movements, to minimize impact on show execution. This will be done in consultation of the Security team of the Embassy.
18				Emergency response procedures need to be executed jointly with the security team responsible for the entire event. How can we ensure the coordination and implementation of the same?	The Embassy Security Team will coordinate with the Contractor after contract award to ensure proper planning and execution of emergency response procedures.
19				We require only 25 m x 30 m Level flying surface, however, without knowing the take off location, it is impossible to predict the actual dimensions of take off grid. Can this be adjusted to suit the technology used by us?	Adjustments to the flying surface dimensions may be made after finalization of the take-off location.
20				We have a protocol of keeping the equipment with us, and we will only be needing the security during the show, is the 24/7 security mandatory?	24/7 security applies only if the Contractor stores equipment at the site prior to the event. In such cases, the Contractor is responsible for arranging appropriate security. The Embassy will not be responsible for the safety and security of Contractor's equipment.
21				Please provide reference to SF-1449 cover page containing blocks 12, 17, 19-24, and 30.	Refer page #12 of this response.
22				Please provide details of block 18b of SF-1449 in which invoice copies are to be submitted.	Refer page #12 of this response.
23				Please provide criteria to validate existence and uniqueness of the Offeror for assigning UEI	Refer page #13 of this response. Also, please refer page #35 thru 37 of the solicitation.
24				Will not having a US TIN affect filing and obtaining the CAGE code and SAM UEI registration?	Refer page #13 of this response. Also, please refer page #35 thru 37 of the solicitation.

Pre-bid Conference Queries, 191N6526Q0028
Conducted at the American Center on April 10, 2026.

25				Can the tax exemption under IRS Form W-14 still be applied for without a US TIN?	This clause is applicable for orders above \$350k
26				We need more clarity on the Force Majeure clauses applicable for this activity.	COR will decide case by case at the time of execution

NCAGE and SAM Registration

It is the responsibility of the offeror to comply and register with SAM.

The Government requires an offeror to have a current SAM registration with Unique Entity Identifier Number and NCAGE Code. If your Company does not have a SAM (Unique Entity Identifier) and NCAGE, please follow steps stated below:

Step 1 To obtain NCAGE number use following link
<https://eportal.nspa.nato.int/ac135public/scage/cagelist.aspx>

Step 2 To obtain and to get registered with SAM use following link www.SAM.GOV

- a. Create a User Account in SAM and apply for Unique Entity Identifier number as stated in attach document.
- b. Complete rest of the forms in SAM.gov.
