Contracting Responsibilities.

Review and validate the documentation listed above. This documentation must be submitted by the Contractor to the Contracting Officer (CO) no less than 30 days prior to entrance on duty of a contract guard. FAA contract guard personnel will not begin duty at an FAA facility without a favorable review of this documentation by the Contracting Officer's Representative (COR). Copies of documentation identified with an asterisk will be maintained at the facility receiving the FAA contract security officer services and will be made available to the SSE for review upon request. Other documentation listed above will be reviewed, validated, and returned or forwarded in accordance with the applicable FAA Contractor and Industrial Security program guidance in FAA Order 1600.69C. For the documentation not kept, a certification checklist will be maintained in the CO/COR file indicating that this information was reviewed, validated, the date, and by whom.
