

Notice of Intent to Award a Sole-Source Purchase Order

The Department of the Interior, Bureau of Reclamation, intends to award a **sole-source** purchase order pursuant to the authority of **FAR 13.501(a)**, *Special Documentation Requirements*, for commercial items to:

Dole Engineering Company

123 Felton Street

Marlborough, MA 01752

Requirement

The Government requirement is for **RTS (Relay Testing Software) Annual Maintenance and Support**, which provides specialized proprietary diagnostic, monitoring, and operational oversight of protective relay systems across Reclamation power facilities. RTS and associated maintenance/support services are an integral component of Reclamation's relay testing infrastructure and is necessary to ensure reliable operation, fault detection, and compliance with internal safety and operational requirements.

Justification for Sole Source

This acquisition is being conducted as a **sole-source** procedure under **FAR Subpart 13.5** for the following reasons:

1. **Only one responsible source** is capable of providing the required RTS support. The RTS platform is **proprietary**, and maintenance, updates, and technical support can only be provided by the original developer.
2. The software requires **continuous compatibility** with existing installed Reclamation systems. Switching to another vendor would require complete replacement of existing RTS infrastructure, introduce significant operational risk, and result in unacceptable delays to mission-critical power operations.
3. Market research conducted by the Bureau of Reclamation has confirmed **no alternative sources** capable of providing compatible, supported maintenance for the existing RTS equipment.
4. The Government therefore determines that **only one source is reasonably available**, consistent with FAR 13.501(a)(1)(ii).

This notice is being posted in accordance with **FAR 13.501(a)(1)(iii)–(iv)**, which permits sole-source awards for commercial items when the contracting officer determines that only one source is reasonably available.

This is **not** a request for competitive offers.

No solicitation is available.

NAICS Code

513210 – Software Publishers

Small business size standard: **\$47.0 Million**

Intent

The Government intends to award a firm-fixed-price purchase order to the vendor identified above.

Interested organizations may submit a **capability statement** demonstrating their ability to provide:

- Fully compatible brand specific RTS maintenance and support
- Demonstration of authorization or capability to provide RTS support services
- Technical capability to maintain and update the proprietary RTS system

Responses must be **clearly documented** with sufficient detail to allow the Government to determine whether competition is appropriate.

The determination not to compete this requirement remains solely within the discretion of the Government.

Response Deadline

Responses must be received no later than:

Sunday, April 26, 2026 @ 9:59 pm MDT/10:59 pm CDT/11:59 pm EDT

Submit capability statements to:

Michelle Romine, Contract Specialist
