A Task Monitor does not have authority to request or authorize work to be performed outside the scope of the task order. Each Task Monitor works in conjunction with the COR, however, if any discrepancies exist between the direction given by a COR and a Task Monitor to the Contractor, the COR's direction shall take precedence. ## **B.20 DEFENSE PRODUCTION ACT (DPA)**

Task orders under this contract may include a priority rating under the Defense Priorities and Allocations System (DPAS) regulation (15 CFR, part 700). Contractors receiving a DPAS rated order are required to follow all provisions of the DPAS regulation. The priority rating will be identified in the task order proposal request and subsequent task order standard form issued.

The DPAS provides that DHS/FEMA contracts are assigned priority ratings to assure that these contracts are afforded service priorities ahead of unrated orders. Ratings will be assigned per individual task order. The Contractor is obligated to accept the rated order, to schedule service operations to satisfy requirements of each rated order, and to extend the priority rating to subcontractors to assure that the required services are performed in the timeframe requested.

The DPAS provides for two levels of rated order priority: “DX” and “DO”. The symbols “DX” and “DO” are not acronyms for any terms. They simply indicate the level of priority. DX rated orders take precedence over DO rated orders and unrated orders (commercial orders without a DPAS priority rating). DO rated orders only take precedence as necessary over unrated (commercial) orders as necessary to meet delivery or performance requirements of the DO rated orders. All DX rated orders have equal priority with each other and all DO rated orders have equal priority with each other. DHS has eight DPA programs eligible for the Priorities and Allocations Authority (N-1 through N-8).

## **B.21 DISASTER ASSISTANCE ACTIVITIES**

In accordance with FAR 26.2, Contractors shall give preference to the maximum extent feasible and practicable to local firms. Preference may be given through a local area set-aside or an evaluation preference.

### **C.3 52.212-4 CONTRACT TERMS AND CONDITIONS – COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (AUG 2025) (DEVIATION 25-21)**

(a) *Definitions.* The clause at Federal Acquisition Regulation (FAR) 52.202-1, Definitions, is incorporated by reference.

(b) *Inspection/Acceptance.* The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. If repair/replacement or reperformance will not correct the defects or is not possible, the Government may seek an equitable price reduction or adequate consideration for acceptance of nonconforming supplies or services. The Government must exercise its post acceptance rights—

- (1) Within a reasonable time after the defect was discovered or should have been discovered; and
- (2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(c) *Assignment.* The Contractor or its assignee may assign its rights to receive payment due as a result of performance of this contract to a bank, trust company, or other financing institution, including any Federal lending agency in accordance with the Assignment of Claims Act (31 U.S.C. 3727). However, when a third party makes payment (e.g., use of the Government wide commercial purchase card), the Contractor may not assign its rights to receive payment under this contract.

(d) *Changes.* Changes in the terms and conditions of this contract may be made only by written agreement of the parties.

The Contractor shall proceed diligently with performance of this contract, pending final resolution of any dispute arising under the contract.

(f) *Excusable delays.* The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence. Examples of occurrences include acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. When an excusable delay occurs, the Contractor shall—

- (1) Notify the Contracting Officer in writing as soon as possible;
- (2) Remedy the delay as quickly as possible; and
- (3) Notify the Contracting Officer when the occurrence is over.

For the purpose of computing the discount earned, payment shall be considered to have been made on the date which appears on the payment check or the specified payment date if an electronic funds transfer payment is made.

(4) *Overpayments.* If the Contractor becomes aware of a duplicate contract financing or invoice payment or that the Government has otherwise overpaid on a contract financing or invoice payment, the Contractor shall—

The interest rate shall be the interest rate established by the Secretary of the Treasury as provided in 41 U.S.C. 7109, which is applicable to the period in which the amount becomes due, as provided in (i)(6)(v) of this clause, and then at the rate applicable for each six-month period as fixed by the Secretary until the amount is paid.

#### **E.7 52.212-2 EVALUATION – COMMERICAL PRODUCTS AND COMMERCIAL SERVICES (AUG 2025) (DEVIATION 25-21)**

- (a) *Evaluation factors.* The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

| Phase I    |          |                                            |
|------------|----------|--------------------------------------------|
| Volume I   | Factor 1 | Demonstrated Experience                    |
| Phase II   |          |                                            |
| Volume II  | Factor 2 | Technical Capability & Management Approach |
|            | Factor 3 | Assurance Plans                            |
|            | Factor 4 | Past Performance                           |
| Volume III | Factor 5 | Price                                      |

Evaluation of the non-price factors, (Factors 1-4), will consider the offeror's demonstration of understanding of the requirement and completeness of the proposal submission. Each factor will be evaluated separately. Factors 1-4 are equal in importance. Subfactors will be evaluated individually and will be used to determine the Factor rating as a whole. Factor 1-4, when combined, are significantly more important than price

As the technical merit of competing proposals become more equal, the price factor increases in importance in the award decision. Failure to include required documents such as Quality Control plan or Key Personnel resumes may cause the proposal to be deemed technically unacceptable and removed from competition.

- (b) *Options (if applicable)*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).
- (c) *Notice of award*. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. #### **Factor 5 - Price**

The Price Template will be utilized for evaluation. The Price Factor will not receive a confidence rating.

The total evaluated price will be calculated by adding the subtotal price for each CLIN. The total evaluated price will be utilized to ensure that the offeror's price is fair and reasonable. For the price to be reasonable in its nature and amount, which would be incurred by a prudent person in

the conduct of a competitive business. Offerors are cautioned that unreasonably high or low prices may cause your proposal to be deemed unreasonable and removed from competition.

In evaluating price, the Government will utilize one or more proposal analysis techniques from FAR 15.404-1. Examples of such techniques include, but are not limited to the following:

- Comparison of proposed prices received in response to the solicitation. Normally, adequate price competition establishes a fair and reasonable price.
- Comparison of proposed prices to historical prices paid, whether by the Government or other than the Government, for the same or similar items. This method may be used for commercial items including those “of a type” or requiring minor modifications.
- Comparison with competitive published price lists, published market prices of commodities, similar indexes, and discount or rebate arrangements.
- Comparison of proposed prices with independent Government cost estimates.
- Comparison of proposed prices with prices obtained through market research for the same or similar items.

The Evaluation of Options (FAR 52.217-5). The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. Evaluation of options will not obligate the Government to exercise the option(s).

Except when it is determined in accordance with FAR 17.206(b) not to be in the Government’s best interests, the Government will evaluate offers or quotations for award purposes by adding the total price for all options to the total price for the basic requirement to determine the total evaluated price. This includes options under FAR clause 52.217-8, Option to Extend Services, which applies to this solicitation. Evaluation of options will not obligate the Government to exercise the option(s).

The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement.” To account for the option periods possible under 52.217-8 (maximum of six months), Options to Extend Services, the Government will evaluate the option to extend services by adding six months of the offeror’s final option period price to the offeror’s total price. This amount will be the total evaluated price. The Government may choose to exercise the Option to Extend Services at the end of any performance period (base or option periods). Prices for the base and option periods, including the 6-month option available under FAR 52.217-8, will be evaluated to ensure that they are fair and reasonable for performance of the requirements established in the solicitation and as proposed in the technical submission.

The price for the effort associated with FAR 52.217-8 will not be included in the total value at contract award. If, at the end of the contract's/order's period of performance (the end of the base period or any exercised option period) and within the time period established in the clause, the Government chooses to exercise this option, the pricing will be pursuant to the rates specified in the contract for the preceding performance period.

The Government intends to award without discussions but reserves the right to hold discussions if the contracting officer finds discussions to be in the best interest of the government.

Since the response to Factor 2, Subfactor 1, is intended to test the offeror's understanding of the requirement in responding to the types of situations that might be encountered in contract performance, offerors will not be given an opportunity to revise or correct the response under Factor 1, Subfactor 1, if discussions are held.

## **E.10 BASIS FOR AWARD**

The proposals received under Request for Proposal (RFP) #70FB7026R00000014 will be evaluated in accordance with instructions contained in this RFP. Multiple awards shall be made using best-value-trade-off (BVTO) and will be based upon the offeror's proposal that provides the best value to the Government using the evaluation factors and tradeoff process as outlined in FAR part 15.101-1. Best value is defined as the offer that results in the most advantageous acquisition decision for the Government as determined by an integrated assessment and trade-off analysis among non-price and price factors. As the technical merit of competing proposals became more equal, the price factor increases in importance in the award decision.

The Government may award any resulting contract to other than the lowest priced Offeror, or other than the Offeror with the highest non-price rating. The Government intends to award without discussions but reserves the right to hold discussions if the contracting officer finds discussion to be in the best interests of the government.
