6C. BUYING OFFICE NAME / SYMBOL M67001 MCIEAST		6D. EMAIL ADDRESS VICTORIA.YARDLEY@USMC.MIL	
6E. PHONE NUMBER (include area code) 910-451-1295		7A. ITEM AND / OR SERVICE DESCRIPTION This is a requirement for a commercial, firm-fixed-price subscription for ten (10) user licenses of the Augury Silver Software Tool subscription. The II Marine Information Group (II MIG) requires this software to conduct mission-critical cyber defense and threat intelligence operations. The tool provides comprehensive situational awareness by integrating massive-scale network data for forensic analysis, compromised device identification, and real-time threat tracking. This is a proprietary tool developed and sold exclusively by Argonne Ridge Group, as no other known source can provide the integrated capabilities necessary to meet the Government's essential needs.	
7B. PRODUCT AND / OR SERVICE CODE 7A21		7C. NAICS CODE 541511	
7D. SIZE STANDARD 34,000,000		8. PERIOD OF PERFORMANCE / DELIVERY DATES (with options) FY26 to FY27

11A. MARKET RESEARCH Attach supporting analysis, including results of sources-sought or request-for-information synopsis, J&A, etc. Market research was conducted to identify all potential sources for this requirement, which is classified under Product Service Code (PSC) 7A21 (IT and Telecom - Business Application Software) and NAICS code 541511 (Custom Computer Programming Services). The research began with a review of mandatory sources as required by FAR Part 8. The required software subscription was not found to be available through these sources. Further research techniques included reviewing the acquisition strategies of recent, similar procurements (N0018921PZ114, HDTRA123Q0010, W912PX16C0001), analyzing publicly available information on alternative commercial tools, and direct consultation with technical subject matter experts from the II Marine Information Group (II MIG). This consultation confirmed that alternative software solutions are insufficient for the Government's capabilities and would not meet the essential requirements detailed in the Performance Work Statement. Using different, less capable software or a collection of disparate tools would have a significant negative operational impact, forcing analysts into a manual process that would unacceptably delay threat response times. The results of the market research conclude that only the OEM, Argonne Ridge Group, can provide proprietary software that meets the Government's mission-critical needs.		11B.
