

**Statement of Work**  
**Exercise Drone Support**

**1. DESCRIPTION OF SERVICES.**

- 1.1. SCOPE.** This Statement of Work (SOW) defines the effort required by the Contractor to supply service/training opportunities for military exercise operations and procedures outlined below. The 23d FG will be responsible for activities during an exercise from 26-29 May 2026 during regular operating hours. Actual date and location of execution will be relayed to the contract awardee's primary POC via encrypted email.
- 1.2. LOCATION.** Services will be conducted in South Georgia, United States over land in a designated Military Operating Area (MOA). Mission planning will be conducted near the associated MOA in a secure military facility. Launch & recovery operations will be conducted at the discretion of the selected vendor.
- 1.3. BACKGROUND.** 23d FG is requesting an agency to conduct fixed wing, multi-drone operations in support of a Training Exercise. The 23d FG requests these aircraft operations to complete the following training objective: Low & slow fixed wing UAS threat detection and targeting. Aircraft will operate as red forces, but no live fire (Kinetic) will be conducted on the drones (DRY Non-Kinetic operations). The UAS should be safe to operate while being lased by a Litening Gen IV training laser (1.57  $\mu\text{m}$ ). Visual Identification (VID) conducted during Defensive Counter-Air (DCA) operations is an objective. Activities will be conducted over dry land in South Georgia, USA.

**2. GENERAL REQUIREMENTS.**

- 2.1. DRONE SERVICE.** This contract specifically entails the service of operating drone-like aircraft. The contractor will ensure that any Aircraft Systems are not specifically procured for this contract and are already owned by the working contractor.
- 2.2. OPERATING HOURS.** All flying operations shall be accomplished approximately May 26-29 for four (4) consecutive days. Flying will be conducted for 2 x 2 hours vuls each day in alignment with Mission Generation Force Element (MGFE) flying operations. Exact dates and times will be provided to contractor upon award.

**2.3. EQUIPMENT.** The contractor will provide two (2) ea Group 2 or 3 UASs and equipment to effectively maintain and operate for training operations. UASs may be unmanned or manned (pilot on board) as long as they fit size requirements listed.

**2.3.1** UASs will need to be aircraft with a 7-15 ft wingspan and 9-15ft length or something that visually replicates a Shahed signature. Aircraft must be able to mimic Shahed drone maneuvers.

**3. SPECIFIC TASKS.** The contractor must provide the following:

**3.1.** The contractor's duties shall conduct full-spectrum operation of up to 2ea Group 2 or Group 3 aircraft during the exercise window.

**3.1.1.** Launch & Recovery operations of two (2) ea Group 2 or Group 3 aircraft will be coordinated by the contractor.

**3.2.** The contractor shall participate in any requested mission planning with the affiliated MGFs.

**3.3.** The contractor shall operate in the designated air spaces: Moody 2 North and South MOAs and Hawg North and South MOAs.

**3.4.** Operating altitude is required between 1,000 to 18,000 feet.

**3.5.** Operating speed shall be as low as 80 knots, and as high as 160 knots

**3.6.** The UAS should be safe to operate while being lased by a Litening Gen IV training laser (1.57  $\mu\text{m}$ )

**3.7.** The contractor shall maintain continuous communication with a designated planning cell POC during exercise activities.

**3.8.** The contractor must have the ability to reach designated MOAs from their departure/landing location.

**3.9.** As applicable, Contractor must have the ability to acquire 14 CFR Part 107 Waivers or 49 U.S.C section 44807 exemptions and receive FAA approval (as required) **prior** to contract award and exercise operations, with the expectation being mid-May 2026.
