1. List of HAZMAT by Site	3

Summary

This document includes a reference list of hazardous materials by site. It may not include all the items that are currently at each site. There may also be duplicate information because of how each site keeps inventory of these materials. This list is for reference only and the Contractor will have to inventory, identify, and manage the actual HAZMAT for each site beginning at Transition-In.

Summary

This document includes a reference list of hazardous materials by site. It may not include all the items that are currently at each site. There may also be duplicate information because of how each site keeps inventory of these materials. This list is for reference only and the Contractor will have to inventory, identify, and manage the actual HAZMAT for each site beginning at Transition-In.
