2.1.2. **Nongovernment**

2.1.2.1. ANSI/ITSDF B56 (series)

- 2.2. **Order of precedence** - In the event of conflict between the text of this specification and that of the references cited above, the text of this specification shall take precedence. Nothing in this specification, however, shall supersede applicable laws or regulations unless a specific exemption has been obtained.

3. **REQUIREMENTS**

- 3.1. Machine capacities listed in Table-1 are approximate, actual required capacity range is noted in the Unit Specifications Table(s).
 - 3.1.1. Tables 2 through 6 will be returned with the bid submittal indicating yes or no in the checklist for compliance with each noted specification.
 - 3.1.2. Vendors must list the specific make and model offered for units 4 and 7.
 - 3.1.3. In the event that no bidder is able to fully meet the specifications without requiring the exceptions listed, the units that best meet the operational needs of the Government will be selected.
 - 3.1.4. Vendors that are unable to provide a machine in accordance with the specifications of Unit 4 may substitute it for an additional unit meeting the requirements of Units 1 and 2. However, bids with this substitution will only be considered in the event that no vendor is able to provide all equipment as specified in tables 2 through 6.
- 3.2. All units must be DIESEL powered

4.3. Maintenance

4.3.1. Surveillance Checks

- 4.3.1.1. The Government will conduct daily fluid level checks; however, the contractor shall be responsible for adding fluids to the equipment to ensure the loss of fluid is not due to a more serious mechanical issue.
- 4.3.1.2. Except for daily fluid checks, the contractor shall be responsible for all materials and labor for preventative maintenance and repairs not arising out of abuse or negligence by the Government.

4.3.2. Preventative Maintenance

- 4.3.2.1. The Contractor shall coordinate with the COR, TPOC, ZM and Off-Yard TL, in writing, to schedule preventative maintenance.
- 4.3.2.2. Any routine preventative maintenance will be completed by the Contractor during normal first-shift hours unless alternative arrangements are made ahead of time.
- 4.3.2.3. During routine maintenance, or emergency breakdown repairs, the Contractor shall provide liquid spill protection to the ground surface. All spills shall be contained and cleaned up prior to leaving the site. If a spill is caused by a broken or leaking liquid line or some other system on the Contractor's equipment, the Installation Fire Department will be alerted to contain the spill until the Contractor can make the necessary repairs. Applicable emergency contact numbers will be obtained by the Contractor from the local pass office prior to commencement of any work. It shall be the responsibility of the Contractor to reimburse the Government for containing the spill.
- 4.3.2.4. If at the determination of the Government, leaks are unacceptably frequent, the unit will be swapped out for a different unit meeting the same specification.
- 4.3.2.5. The Contractor is responsible for disposal of any fluids or hazardous material generated as a result of maintenance, spills, or leaks.

4.3.3. Repairs

- 4.3.3.1. The Contractor shall provide a qualified service technician to repair all equipment deficiencies and malfunctions and return the system to an operable condition. The response time for the repair or replacement of deficient equipment shall meet the requirements defined in section 4.2.2.
- 4.3.3.2. The Contractor shall validate all completed repairs by either signing the appropriate PNSY provided MHE Inspection Sheet, or by providing a completed repair order.
- 4.3.3.3. If breakdowns become frequent, the equipment will be removed from the shipyard and replaced with a more reliable unit in accordance with the unit specifications outlined herein upon request by the Government.

5. DELIVERY / ACCEPTANCE / RETURN.

5.1. Delivery

5.1.1. The Contractor shall be responsible for shipping, loading, and unloading of the equipment. Delivery truck(s) will be capable of loading/unloading the unit(s) at ground level without a loading dock or additional material handling equipment.

5.1.2. The Contractor shall deliver machinery that is fully-charged/fueled, fully-assembled, ready-to-use, and in a first-class-operating condition and functions as intended. Machines shall be functionally tested prior to delivery.

5.1.3. All units will be in compliance with any and all applicable laws governing internal combustion equipment and its operation in the State and/or jurisdiction where the rental will be used. **All units for use in California will have a CARB EIN clearly visible on each machine.**

5.1.4. The machinery with its support equipment shall be delivered to the site on or prior to the request date. The Contractor shall confirm the date and time of delivery prior to each delivery with the COR, TPOC, ZM & Off-Yard TL, if appointed.

5.1.5. The Contractor shall provide the COR, TPOC, ZM & Off-Yard TL with an itemized list of all equipment delivered at the time of delivery.

5.2. **Security** – For work performed at a government installation, the Contractor and personnel assigned to perform the contract, shall meet the security requirements of that installation/activity. To be allowed onto a government Shipyard, personnel must be US citizens and in possession of appropriate personal identification. Proof of US citizenship may be necessary and can be required for access to the equipment installation location. Allowable documentation of US citizenship is an official government issued Certificate of Birth or Naturalization (w/ raised seal & not a photocopy) or a US passport. Vehicular access requires a non-expired personal REAL ID Driver's License and appropriate vehicle identification or registration. The transport vehicle must have the company's name / logo prominently displayed. To gain access to the drydock environs, personnel must be escorted and possess / wear their own personal safety gear.

5.3. Receipt Inspection Criteria

5.3.1. An inspection of each forklift shall be performed by a shipyard licensed operator using a PNSY provided MHE Inspection Sheet on delivery. Any machines not meeting the requirements of this statement of work or having defects or damage that negatively affect the operation of the machine will be refused.

5.3.2. If there are de minimis defects or damage found that are determined to be superficial in nature and that do not affect the operation of the machine, they will be noted on the inspection form. The Contractor's representative will sign the PNSY

REQUEST FOR QUOTATION

inspection form or attest in writing that the damage was pre-existing and does not affect the operation of the machine. This will be completed before the unit is accepted by the Government.

5.4. **Final Acceptance** - Upon satisfactory completion of inspection and test of the equipment, the authorized Government Representative (COR, TPOC, ZM, or Off-Yard TL) will sign and forward the acceptance document(s) to PNSY, Code 420 COR for completion. The rental period does not begin until the government has accepted the MHE. Unloading of equipment from Contractor's transport does not signify acceptance.

5.5. **Return** - The Government will provide a temporary storage location convenient for Contractor pick-up. The Government will notify the Contractor as well as the Contracting Office as to when the rental Item has been released and is available for pick-up.

52.212-1 Instructions to Offerors—Commercial Products and Commercial Services.

As prescribed in 12.205(a)(1), insert a clause substantially as follows:

INSTRUCTIONS TO OFFERORS—COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (DEVIATION DATE)

(a) *Submission of offers.* Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. As a minimum, offers shall include—

- (1) The solicitation number;
- (2) The name, address, telephone number of the Offeror;
- (3) The Offeror's Unique Entity Identifier (UEI) and, if applicable, Electronic Funds Transfer (EFT) indicator;
- (4) Information necessary to evaluate the factors contained in the provision at 52.212-2 or as described in the solicitation;
- (5) Responses to provisions that require Offeror completion of information, representations, and certifications (other than those collected via the System for Award Management (SAM)); and
- (6) A statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation and any solicitation amendments.

(b) *Period for acceptance of offers.* The Offeror agrees to hold the prices in its offer firm for 60 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(c) *Late submissions, modifications, revisions, and withdrawals of offers.*

- (1) Offerors are responsible for submitting offers and any modifications or revisions to the Government office designated in the solicitation by the time specified in the solicitation.
- (2) Any offer, modification, or revision received after the time specified for receipt of offers is "late" and will not be considered unless it is received before award is made and the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition. However, a late modification of an otherwise successful offer that makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.
- (3) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

REQUEST FOR QUOTATION

N3904026Q3118

(4) Offerors may withdraw their offers by written notice to the Government received at any time before award.

(d) *Contract award (not applicable to Invitation for Bids)*. The Government intends to evaluate offers and award a contract without discussions with Offerors. Therefore, the Offeror's initial offer should contain the Offeror's best terms. However, the Government reserves the right to conduct discussions, if necessary. The Government may reject any or all offers if such action is in the public interest, accept other than the lowest offer, and waive informalities and minor irregularities in offers received.

(e) *Debriefings*. If a postaward debriefing is given to requesting Offerors, the Government will disclose the following information, if applicable:

(1) The agency's evaluation of the significant weak or deficient factors in the debriefed Offeror's offer.

(2) The overall evaluated cost or price and technical rating of the successful Offeror and the debriefed Offeror and past performance information on the debriefed Offeror.

(3) The overall ranking of all Offerors when any ranking was developed by the agency during source selection.

(4) A summary of the rationale for award.

(5) For acquisitions of commercial products, the make and model of the product to be delivered by the successful Offeror.

(6) Reasonable responses to relevant questions posed by the debriefed Offeror as to whether the agency followed source-selection procedures set forth in the solicitation, applicable regulations, and other applicable authorities.

(End of provision)

SUPPLEMENTAL INSTRUCTIONS

ADDENDUM TO 52.212-1 Instructions to Offerors--Commercial Items

I. GENERAL

In addition to FAR 52.212-1, "Instructions to Offerors – Commercial Items" and any other instructions contained elsewhere in this solicitation, the following information is provided:

Objections to any of the terms and conditions of the RFQ will constitute a deficiency which will make the offer unacceptable.

IMPORTANT NOTES:

- (1) Vendors shall respond to all requirements of the solicitation document. Vendors are cautioned not to alter the solicitation.
- (2) Initial quotes and any modifications thereto are to be submitted to the Contracting Office on or before the closing dated time cited elsewhere in this Request for Quote.
- (3) Responses should be submitted via email only
- (4) Please review all specifications carefully.

REQUEST FOR QUOTATION

N3904026Q3118

II. CONTENT OF QUOTE

1. RFQ pricing and information pages completed by the vendor.
2. A Point of Contact, name, email address, phone, CAGE code.
3. Representations and Certifications completed by the vendor in accordance with instructions contained elsewhere in this solicitation. If the vendor has completed all of the representations and certifications required by this solicitation in SAM.gov in accordance with FAR 52.204-7, then the vendor need not submit the hardcopy Representations and Certifications.
4. Technical Submission as noted below.
 - a. Submission of technical information demonstrating compliance with the specifications, including, but not limited to:
 - Technical Acceptability
 - Experience
5. Pricing Submission. Vendors shall provide firm, fixed prices for each CLIN

Factor 1- Technical Acceptability Submissions: Vendors shall demonstrate their Technical Acceptability by meeting specifications and document capabilities

Factor 2- Past Performance Submission:

Past performance information is required for the vendor and any subcontractors that are proposed to perform at least 20% of the contract's value. To facilitate the evaluation of this factor, the Vendor may provide at least one (1) project or contract that demonstrates recent and relevant Past Performance with providing the type of components called out in the Statement of Work.

The Government will only evaluate projects or contracts that have already been completed. For each submitted past performance contract or project, the following information shall be provided:

- (i) customer's name, organization and contact information;
- (ii) contract or project number and title;
- (iii) dates of performance (identify the start and end dates using months and years);
- (iv) the dollar value of the work completed;
- (v) a description of the work performed and how it is relevant to the Statement of Work;
- (vi) whether the prior project was performed as the prime contractor or subcontractor,
- (vii) any negative comments or assessments regarding the mobile crane operator's compliance with safety measures and (viii) copies of any Contract Performance Assessment Reports or similar assessments, if available.

The Vendor shall also submit a consent letter, executed by each subcontractor proposed to perform 20% of the contract's value, that authorizes the Government to release adverse Past Performance information to the Vendor so the Vendor can respond to such information during the evaluation process. For projects or contracts for commercial customers, the Vendor shall submit a letter, executed by that commercial customer, that authorizes that customer to release the Vendor's (or subcontractor's) Past Performance information to the Government.

This information shall be sent with the completed N3904026Q3118 RFQ on or before the due date of this solicitation to William V LeDuc III, Contracting Division, Code 410, Portsmouth Naval Shipyard, Kittery, ME 03904, email: william.v.leduciii.civ@us.navy.mil. The Government reserves the right to contact references for verification or additional information

Factor 3- Adherence to Schedule: Award may be based on delivery and ability to meet the requested schedule.

Factor 4- Price: The Price Factor will not be rated. The Vendor's response will be evaluated for compliance with the Addendum to 52.212-1, completeness and price reasonableness in accordance with FAR 12.204(a).

REQUEST FOR QUOTATION

N3904026Q3118

If the technical submittal is determined “Unacceptable”, it renders the entire quote technically unacceptable. Technical submissions that do not meet the minimum requirements will be rated as “Unacceptable” and will no longer be considered for further competition or award.

52.212-2, Evaluation - Commercial Items is applicable to this procurement.

The Government will award a contract resulting from this solicitation to the responsible vendor whose quote conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The contract will be awarded to the vendor with the Best Value Price to the government. Quotes will be evaluated based on the following criteria:

- Technical Acceptability (Must meet specifications and document capabilities)
- Experience
- Adherence to Schedule (Award may be made based on delivery and ability to meet the requested schedule)
- Price (Best Value, after adherence to other factors)

Vendors will be required to submit a quote that will be evaluated in accordance with the specifications provided in the solicitation, FAR 52.212-1 Instruction to Offerors. Failure to include pricing for all line items shall be cause for rejection of the quote for all line items.

Technical: Please provide documentation demonstrating your capabilities in fulfilling the SOW.

Technical Evaluation Ratings	
Rating	Description
Acceptable	Submission clearly meets the minimum requirements of the solicitation
Unacceptable	Submission does not clearly meets the minimum requirements of the solicitation
