This is normal and expected.
 - iii. A change between contract writing systems may cause important information concerning solicitation response (amendments) or accepted terms (awards) to take on different formatting or appear in different parts of later documents issued. Offerors shall review all documents carefully to locate this important information and direct any questions or concerns to the Contract Specialist or Contracting Officer.
 - (2) The Government does not intend to use the transition between contract writing systems to effect any changes to solicitation or award terms and conditions without accompanying document narratives explicitly stating such changes are deliberate and desired. While the Contract Specialist and Contracting Officer will take care to minimize or eliminate any inadvertent changes when adapting to the new contract writing software, you, as the Offeror, may still be the first to spot such errors. Therefore, Offerors shall:
 - i. Notify the Contracting Officer immediately if any observed changes, removals, or additions affect your award eligibility, violate or alter existing quote/proposal terms, or could affect Contract performance post-award.
 - ii. Take special care to ensure all fill-in Clauses are populated and

remain populated across documents received from the Contracting Office throughout the Solicitation and Award process.

- iii. Contact the Contracting Officer listed on the first page of the solicitation or solicitation amendment for guidance if you notice or suspect any inadvertent change has occurred between document issuances.
- (3) The Contracting Officer will correct problems affecting award documents (if any) via bilateral modification, at no cost to the Contractor. Any such modification will reconcile the award with the latest version of this solicitation reflecting deliberate action by the Contracting Officer (e.g. the first issuance if no amendments, or the latest amendment with accompanying narratives), inclusive of any documented pre-award negotiations or accepted supplemental offer terms.
- (4) In the unlikely event a network disruption, contract writing system error, or financial system error threatens timely award of the requirement set forth in this solicitation, the Contracting Officer:
 - i. May elect to use alternative mechanisms to obligate funds and allow work or deliveries to legally begin to the benefit of, and with legal protection for, both parties.
 - ii. Will incorporate the latest version of this Solicitation into such mechanisms to serve as a framework for contract execution until any such system problems are resolved.
 - iii. Will ensure any action taken does not conflict with the stated offer evaluation and award methodology of this requirement.
 - iv. Will issue a complete, properly-formatted award accurately reflecting this requirement and all applicable terms and conditions once systems return to normal.

H-13 Organizational Conflict of Interest

Offerors are hereby notified that performance under the contract resulting from this solicitation may give rise to a potential Organizational Conflict of Interest (OCI), as described in Federal Acquisition Regulation (FAR) Subpart 9.5. The successful Offeror shall agree that any data furnished by the Government to the Contractor not generally available to other contractors shall be used only for performance under its contract, and all copies of such data shall be returned to the Government upon completion of the effort. Any data furnished by the Government containing trade secrets or commercial or financial data of other contractors shall be treated as proprietary data. Further, the successful Offeror shall agree not to reveal to third parties any data

generated and/or reported to the Government in the performance of this effort. These restrictions are not intended to protect information furnished voluntarily without limitations on its use or availability to the U.S. Government or Contractor from other sources without restriction.

For the purpose of this clause, the terms "successful Offeror" and "Contractor" means the Contractor, its subsidiaries and affiliates, any joint venture involving the Contractor, any entity which the successor or assignee of the Contractor acting as a prime Contractor, subcontractor, or consultant to either the prime Contractor or subcontractor.

Furthermore, the parties agree that the successful Offeror shall ensure that this clause, "Organizational Conflict of Interest", is included in all subcontracts (changing identities of the parties as appropriate), at any level necessary to meet the requirements of this clause.

The exclusionary provisions of this clause will be effective for the duration of any contract resulting from this RFP. The Contractor shall include the same exclusion in its subcontract agreements.
