

STATEMENT OF WORK (SOW)

Agile Products Support Renewal

1. Background

The NASA Marshall Space Flight Center (MSFC) utilizes the Agile Products suite of integrated turbomachinery design and analysis software to support engineering design, analysis, and research and development activities. Continued access to technical support, software maintenance, and product updates is required to ensure uninterrupted capability and alignment with current software performance standards.

2. Scope of Work

The contractor shall provide annual renewal of Agile Products Support (APS) for all currently licensed CAE Agile software products owned by MSFC. The scope includes maintaining active membership in the Agile Products Support (APS) Users Group and ensuring continuity of services without interruption.

3. Services to be Provided

Contractor shall provide the following services:

A. Technical Support

Access to vendor technical assistance for troubleshooting, usage guidance, and issue resolution related to Agile Products software.

B. Software Maintenance

Ongoing maintenance of existing software, including bug fixes and performance improvements.

C. Software Updates and Upgrades

Access to the latest software releases, enhancements, and feature upgrades issued during the period of performance.

D. User Group Membership

Continued participation in the Agile Products Support (APS) Users Group, including access to user resources, updates, and feedback channels that support product improvement.

E. Customer Support Services

Vendor support services to address user inquiries and provide assistance as needed to ensure effective use of the software suite.

4. Period of Performance

The period of performance shall be one (1) year from the date of renewal activation. Renewal must be completed prior to April 30, 2026, to prevent any lapse in support services.

5. Deliverables

- Continuous access to technical support services
- Delivery of all applicable software updates and upgrades released during the performance period
- Maintenance of active APS membership status

6. Place of Performance

Work shall be performed remotely by Contractor, with services delivered electronically to MSFC personnel.

7. Assumptions and Constraints

- The renewal applies only to currently owned and licensed Agile Products software.
- Failure to renew prior to the stated deadline may result in interruption of support services.
- No new software licenses are included under this effort unless separately procured.
