MEMORANDUM FOR RECORD

FROM: [REDACTED]

SUBJECT: LOAD CELL SYSTEM – Salient Characteristics

1. The 97th Aircraft Maintenance Squadron requires the acquisition of one Load Cell System. Our current load cell for our aircraft jack tester must be sent off once a year for calibration and leaves us unable to test equipment for 30 days or longer. Below are the essential characteristics that the Load Cell System must possess:

Specifications:

- Be compatible with jack tester COLUMBUS JACK Model: 1074-8000 150 Ton (136 Metric Ton) Universal Jack Tester.
- 300k pounds or more testing capability.

2. If there are any questions or concerns regarding this memorandum, please contact [REDACTED]
