

Statement of Work (SOW)

1. Contractor Responsibilities

The following services and materials will be provided by the Contractor for Whiteman AFB Fire Protection personnel:

- **1.1. Course Delivery:**
 - Provide and conduct one (1) complete Hazardous Materials: Technician course, consisting of at least 50 instructional hours, for up to fourteen (14) students.
 - The course must be delivered on-site at Whiteman Air Force Base.
 - The target dates for this training are 1 August 2026 - 14 August 2026. The final schedule will be coordinated between the contractor and the unit Point of Contact (POC).
 - Utilize fully certified and qualified instructors to deliver all course instruction and to facilitate all required practical, hands-on exercises.
- **1.2. Student Materials and Documentation:**
 - Supply fourteen (14) complete and current student textbook packages required for the course.
 - Provide all necessary course documentation, including sign-in rosters, course outlines, and training schedules to the unit POC prior to the start of the course.
- **1.3. Certification and Reporting:**
 - Provide certification testing that meets accredited standards (e.g., Pro-Board, IFSAC, or equivalent state/national certification).
 - Administer the required certification examination to all attending students at the conclusion of the course.
 - Process all required documentation for certification with the appropriate accrediting agency on behalf of the students.
 - Issue official certification certificates to all students who successfully complete the course requirements and pass the final examination.
 - Provide the unit POC with a final report detailing course completion and certification status for all attending personnel within fourteen (14) days of course completion.
-

2. Government (Whiteman AFB) Responsibilities

The following will be provided by Whiteman AFB personnel to facilitate the training:

- **2.1. Student and Scheduling Coordination:**

- Ensure all registered students are available and present for the entire duration of the course.
- Provide registration information for all students to the contractor as required.
- Designate a primary Point of Contact (POC) to coordinate all on-site logistics and scheduling with the contractor's instructors.
- **2.2. Facility and Access:**
 - Provide a suitable and adequate classroom facility, equipped with appropriate seating and standard audio/visual equipment, to accommodate all students and instructors.
 - Provide access to necessary outdoor or practical training areas, as mutually agreed upon, for hands-on exercises.
 - Ensure contractor personnel have the required access to Whiteman AFB and all designated training locations for the duration of the course.
