

A couple details on the NOI Submittal:

-Please have the contractor name Matt as the Navy Signatory. I believe that when you search his name there are two “Matthew Wollert” profiles to choose from. Please have the contractor select:

User ID	First Name	Last Name	Organization	CDX Role	Address	Action
MATTHEW.WOLLERT@NAVY.MIL	Matthew	Wollert	Naval Station Great Lakes	Signatory	310 Seabee Way Building 1H, Great LakesGreat Lakes, IL 60088, US	Select

-When the contractor submits all the required documentation, Matt will need to go into the portal and sign off before the NOI is transferred to the IEPA for review.

-For planning purposes: Unless notified by the IEPA with a Notice of Incompleteness letter, coverage under the Stormwater General NPDES permit is automatic after 30 days. The specific language is, “Operators are authorized to discharge stormwater from construction sites under the terms and conditions of the permit 30 days after the date the NOI is received by the Agency.”
