

**NATIONAL DEFENSE UNIVERSITY LIBRARIES
HEAD CATALOGER - LIBRARY SUPPORT SERVICES
PERFORMANCE WORK STATEMENT**

1.0 PURPOSE

- 1.1 National Defense University (NDU) is an institution of higher education intended to facilitate high-level training, education, and the development of national security strategy. NDU educates joint warfighters and other national security leaders in critical thinking and the creative application of military power to inform national strategy and globally integrated operations, under conditions of disruptive change, in order to prevail in war, peace, and competition.

In support of NDU's mission, the NDU libraries are responsible for providing current students, faculty, staff and esteemed alumni with access to information and resources for ongoing research. NDU libraries require subject matter expertise to assist with migration and implementation of the new Ex Libris Integrated Library System (ILS) that is being utilized at NDU. The ILS provides assistance with organization, maintenance, and improved access to NDU unique print and digital collections.

- 1.2 The Contractor shall provide subject matter expertise in library science and expert knowledge of library cataloging to provide head cataloger services, specifically in Integrated Library System migration and implementation; physical collections maintenance, digital collections maintenance; library technical services; and special collections maintenance and documents management. The Government defines a library science subject matter expert (SME) as someone who has an advanced degree in library science (such as a master's degree or PhD in library science), knowledge of applicable library cataloging principles and practices up to the original cataloging level of expertise, experience in the specific areas required (print, digital, and special collections), and who will demonstrate an understanding of: reference techniques and searching in a digital environment; online resources use and management; web content creation; library systems management; cataloging and catalog maintenance; metadata creation and maintenance; original cataloging creation and maintenance; government documents management; and special collections, archives, record management, and artifact maintenance. These services will support further developing and maintaining a physical and a virtual digital environment and on-campus library services to students and faculty of National Defense University.

2.0 BACKGROUND

- 2.1 The NDU Libraries consist of two physical libraries on two campuses, the main library on Fort McNair in Southwest Washington, DC, and a branch at the Joint Forces Staff College in Norfolk, VA. The two libraries work together in a joint virtual presence to meet the NDU Libraries' mission to advance joint professional military education through teaching information fluency and through collecting, organizing, making accessible, and preserving recorded knowledge and the products of human creativity. The Libraries both have physical collections at their separate locations, but the cataloging professional will report to the Fort McNair location and work from the Fort McNair location. Both locations are migrating to one full implementation of "Ex Libris ILS ALMA / PrimoV / Digital" concentrating on both physical and digital content being fully described and searchable in the new ILS, for increased discovery and website presence for on-site students and distance education students alike.

3.0 SCOPE OF WORK

- 3.1 This Performance of Work Statement (PWS) defines the tasks to be performed by the Contractor. The required library support services will support the capability to manage and execute the migration and full implementation of Ex Libris ALMA / Primo V / Digital and to clean up records and configurations after the full implementation.
- 3.2 The contractor shall provide support including but not limited to: The contractor shall provide support to the NDU Library's knowledge management, technical services, physical collections, special collections and

archives, government documents, and digital content management programs. The contractor shall support the configuration changes and on-going maintenance of the integrated library management system, digital content management systems and associated metadata, including metadata creation, database clean-up, standardization, original cataloging, authority control, and related services in one or more digital archives.

- 3.3 The contractor shall provide support to the creation and maintenance of an accurate, updated catalog of library resources to meet the academic needs of NDU users. Support will include but not limited to: locating appropriate bibliographic records; performing complex editing to improve and enhance the data according to national and local cataloging standards; analyzing subject matter in order to assign appropriate call numbers and subject headings; and derive data from bibliographic records to create new ones. The cataloger will work at the level of “head cataloger” and be able to work as an original cataloger up to the national standards of original cataloging in the United States. The cataloger will support migration and implementation of Clarivate’s Ex Libris ALMA / PrimoV / Digital ILS project and support cleanup after the migration and implementation.

4.0 WORK REQUIREMENTS - TASKS

- 4.1 Core Task Summary: The Contractor shall focus on the following key areas of responsibility:
- 4.2 ILS Migration and Implementation: Support the project management team at Clarivate Ex Libris and the project management team at the NDU Library both: Support the project management and migration of ILS systems from the SirsiDynix Symphony ILS to the Clarivate Ex Libris ALMA ILS including Ex Libris ALMA / PrimoV / Digital products bundle. Manage, support, and assist the implementation of the Ex Libris ILS. Manage, support, and assist the implementation of the Ex Libris ALMA / PrimoV / Digital ILS at the NDU Library at Fort McNair, Washington, D.C.
- 4.3 Creating original cataloging records: Create needed original cataloging records in OCLC if needed during the migration and provide the service level and expertise of a head cataloger librarian to the NDU Library at Fort McNair, Washington, D.C.
- 4.4 Collections Maintenance: Maintain and clean up NDU Library’s Ex Libris records of the physical collection, electronic records, and digital objects up to standards to include MARC, ISO 19115, ISO 19139, Dublin Core, TEI, VRA, CDWA, and EAD. Monitor the development of emerging metadata standards for applicability. Acronyms spelled out below:
- MARC — MACHine-Readable Cataloging
 - ISO 19115 — International Organization for Standardization 19115: Geographic Information — Metadata
 - ISO 19139 — International Organization for Standardization 19139: Geographic Information — Metadata — XML Schema Implementation
 - Dublin Core — Dublin Core Metadata Element Set (often abbreviated DCMES)
 - TEI — Text Encoding Initiative
 - VRA — Visual Resources Association (commonly refers to the VRA Core metadata standard)
 - CDWA — Categories for the Description of Works of Art
 - EAD — Encoded Archival Description
- 4.5 Provide authority control for the physical and digital library collections with the new Ex Libris ILS. Provide subject matter expertise and support for ongoing physical and digital records management and maintenance, applying knowledge of metadata creation, document management, data mining, standardization of taxonomies, authority control, and web support. Create and maintain electronic indexes for correct name, series, and subject headings. Build appropriate user reference structures; disambiguate names; facilitate the collocation of works by the same author, in the same series, or about the same subject. Perform systematic database clean-up and updating of records.

5.0 PERFORMANCE OBJECTIVES AND STANDARDS

5.1 This section establishes measurable outcomes for which will be used for assessment of the contractor's performance

Task / Deliverable	Performance Standard	Acceptable Quality Level (AQL)	Measurement/Verification
4.2 Migration issue resolution	Defects identified and resolved per migration plan; configuration corrections documented	Close $\geq$ 90% of assigned issues within 10 business days	Issue tracker reviewed by COR; closure evidence
4.3 Original cataloging (print & digital)	Records conform to MARC 21 and RDA; correct call numbers and subject headings applied	$\geq$ 99% accuracy; $\leq$ 1 error per 100 records	Random sample review by COR; OCLC validation; error log maintained
4.4 Collections Maintenance: Metadata cleanup & normalization	Legacy records updated to current standards; duplicate and obsolete entries removed	$\geq$ 95% of assigned records updated within 5 business days	Monthly report counts; spot checks against ALMA/Primo indexes
4.5 Authority control	Consistent authorized headings (names/series/subjects) across physical and digital collections	$\geq$ 98% consistency in authorized headings	Authority reports; control file audits; sampling
6.3 Monthly status report	Submitted by the 5th business day; includes required metrics and narrative	100% on-time, complete	Receipt by COR; completeness checklist

6.0 DELIVERABLES

6.1 General: The Contract shall deliver all required products in an electronic format, unless otherwise directed. Deliverables are subject to Government review and may be returned to the Contractor for revision. The Government shall have five (5) working days to provide comments. Upon receipt of comments, the Contractor shall provide the final report five (5) working days after receipt. Status on all deliverables shall be included in the Monthly Status Report (MSR). All written deliverables shall be provided to the COR.

6.2 Meetings between the Contractor and the COR:

- 6.2.1 Within three (3) business days of the contract award, the COR and the Contractor will hold a Post Award Conference by phone or at NDU in Washington, DC. The Contractor shall propose an agenda in advance, in writing, to the COR.
- 6.2.2 The Contractor shall be available once every eight weeks, at a mutually agreed time, not to exceed one (1) hour, to meet with the COR for the purpose of providing a verbal progress report. This deliverable is expected to be ongoing and for the life of the contract.

6.3 Monthly Reports:

- 6.3.1 The Contractor shall be responsible for submitting monthly reports to the COR, a report for each contractor employee, identifying such activities and events as described in the different tasks, but to include at a minimum, work accomplished, significant events, issues, deliverables, and projected events for the following reporting period.
- 6.3.2 Reports shall be submitted to the COR by the fifth day of each month, reporting the activities of the prior month.

6.4 Data Rights. The Government has unlimited data rights on all information developed or delivered under this

delivery order. Any material purchased and paid for under this delivery order is the property of the Government. All materials supplied to the Government are the sole property of the Government and may not be used for any other purpose.

7.0 QUALITY ASSURANCE SURVEILLANCE PLAN (QASP) FRAMEWORK

7.1 The Government will perform surveillance to ensure services conform to contract requirements. The COR will assess the contractor's performance using the methods below, commensurate with risk and complexity:

- 7.1.1 Planned sampling of catalog records against standards (MARC 21/RDA)
- 7.1.2 100% review of deliverables in Monthly Status Reports
- 7.1.3 Spot checks of authority control and discovery results in ALMA/Primo
- 7.1.4 Tracking and verification of migration issues and corrective actions
- 7.1.5 User feedback monitoring when applicable

7.2 NON-PERSONAL SERVICES

- 7.2.1 This contract is for non-personal services. Contractor personnel shall not be subject to the relatively continuous supervision and control of Government personnel, and shall not perform inherently governmental functions. The Government will evaluate outputs and results, not direct day-to-day activities.

7.3 INSPECTION AND ACCEPTANCE

- 7.3.1 Inspection will be performed by or under the direction of Government personnel. Acceptance of services is the responsibility of the Government, which may rely on the COR's recommendations and surveillance records. Acceptance will be based on meeting the performance standards and AQLs specified in Section 5.1

7.4 ENHANCED DELIVERABLES DETAIL

- 7.4.1 In addition to existing deliverables, the contractor shall provide the following artifacts electronically to the COR:
 - 7.4.1.1 Monthly Metrics: counts of original records created, records updated, authority control actions, issues opened/closed
 - 7.4.1.2 Log: description and corrective actions for cataloging errors identified via surveillance
 - 7.4.1.3 Configuration/Change Notes: summary of ALMA/Primo configuration changes or recommendations
 - 7.4.1.4 Issue Tracker Export: current status of migration issues and resolutions

8.0 CONTRACTOR EMPLOYEES

8.1 Contractor shall provide one professional, full-time librarian to meet the requirements of this PWS. One Head Cataloger Librarian will be assigned to the library at Fort McNair in Washington, DC for six months, working 40 hours per week except federal holidays. The professional librarian / head cataloger librarian will have a minimum of five (5) years relevant experience. The Government's preference is for the relevant experience to be in Academic or Special Libraries, not Public Libraries.

8.2 The Contractor shall not employ persons for work on this contract if such employee is identified to the Contractor by the Contracting Officer as a potential threat to the health, safety, security, general well-being or operational mission of the installation and its population.

8.3 Contractor personnel shall present a neat appearance and be easily recognized as contract employees. All contract employees shall wear Government-provided name badges that designates them as Contractors.

8.4 Listing of Employees. The Contractor shall maintain a current listing of employees that provide support under this contract. The list shall include the employee's name and emergency contact information. The list shall be provided to the COR. An updated listing shall be provided when an employee's status or information changes.

8.5 Contractor employees shall be able to fluently read, write, speak, and understand English.

8.6 Contractor shall staff the library with sufficient staff and staff expertise to perform the requirements identified in this PWS. The personnel utilized by the contractor in performance of this PWS shall, as a minimum, meet the experience, training, education, or other background requirements set forth herein and shall be fully capable of performing in an efficient, reliable, and professional manner.

8.7 It is the Contractor's responsibility to ensure all employees have the necessary skills used in the performance of assigned duties.

8.8 Contractor shall notify the COR if there is a vacancy in their workforce that exists for two (2) weeks or more, and shall provide substitute staff, in accordance with the provision in 8.6, for longer absences.

8.9 The Contractor shall ensure professional librarian employee has current and valid professional qualifications before starting work under this contract. Professional library staff shall have a Master's degree in Library Science from an accredited American Libraries Association program. The Librarian shall meet American Library Association standards and be responsible for duties of a professional nature, and shall participate in professional activities.

9.0 TRAINING AND CERTIFICATES

DoD required annual training on information security. This can be completed following arrival at the site. Government will provide. Additional required government training and certifications as needed.

10.0 SECURITY AND IN-PROCESSING

All contract personnel are subjected to background investigations, and a National Agency Clearance Investigation is required.

All in-processing requirements will be coordinated between the Contractor and the COR during the post-award conference or at a mutually agreeable time after the contract award.

11.0 GOVERNMENT FURNISHED EQUIPMENT AND MATERIALS

11.1 Government Furnished Equipment (GFE). The Government shall provide the Contractor with connectivity to unclassified networks, computer equipment, telephones, and scanner/printers.

11.2 Government Furnished Information (GFI). The Government shall provide reference and background materials necessary to perform the required tasks not freely available on open websites, or not discoverable through routine internet browser searches.

12.0 PERIOD OF PERFORMANCE: The period of Performance is anticipated to be:

Base Period: 6-months from date of award

Option 1 Period: 6-months from the end of the base period

13.0 PLACE OF PERFORMANCE - SERVICES

The services specified by this contract shall be performed at the following location(s):

National Defense University

[REDACTED]

[REDACTED]

14.0 Technical point of contact

[REDACTED]

[REDACTED]

15.0 GOVERNMENT POINT OF CONTACT

[REDACTED]

16.0 GENERAL ADMINISTRATION

16.1 Hours of Operation. Normal operating hours are 7:00 am to 6:00 pm, Monday through Friday. The contractor shall work an 8-hour day (exclusive of meal break) with variable scheduling between the hours of 7:00 AM and 6:00 PM depending upon the Government's needs. The contractor may be required to work outside the normal operating hours but shall not exceed a 40-hour work week. Work will primarily be conducted on site, in person. Very limited situational telework may be authorized, based on the library needs, and in accordance with the NDU Telework Policy.

16.2 Federal Holidays. NDU will be closed, and no contractor work authorized, for the following holidays:

- New Year's Day
- Martin Luther King's Birthday
- President's Day
- Memorial Day
- Juneteenth
- Independence Day
- Labor Day
- Columbus Day
- Veteran's Day
- Thanksgiving
- Christmas

When one of the above designated holidays falls on a Saturday or Sunday, NDU will be closed in recognition of said holiday, and no contractor work performed, on the day designated by the government to be observed as a legal holiday.

16.3 Inclement Weather Days. NDU follows OPM guidance for delays, closures, or early releases for the DC Metro area. In the event of inclement weather the Contractor is responsible for listening to the public media or checking the OPM website to determine if NDU has been closed as a result of the weather. The Contractor is reminded that there will be no payments for any labor or services for hours the NDU is closed due to inclement weather.

16.4 Supervision of Contractor Employees. The Contractor's employees will remain under the contractor's direct supervision at all times. Although NDU will coordinate directions with the scope of work of the contract, detailed instructions for Contractors employees and supervision of individual workers shall remain the responsibility of the Contractor.
