REVOLUTIONARY FAR OVERHAUL (RFO) SUBPART 2.101 COMMERCIAL PRODUCT DEFINITION

Commercial product means —

- (1) A product, other than real property, that is of a type customarily used by the general public or by nongovernmental entities for purposes other than governmental purposes (i.e., purposes that are not unique to a government), and—
 - (i) Has been sold, leased, or licensed to the general public; or
 - (ii) Has been offered for sale, lease, or license to the general public;
- (2) A product that evolved from a product described in paragraph (1) of this definition through advances in technology or performance and that is not yet available in the commercial marketplace, but will be available in the commercial marketplace in time to satisfy the delivery requirements under a Government solicitation;
- (3) A product that would satisfy a criterion expressed in paragraph (1) or (2) of this definition, except for—
 - (i) Modifications of a type customarily available in the commercial marketplace; or
 - (ii) Minor modifications of a type not customarily available in the commercial marketplace made to meet Federal Government requirements. A minor modification does not significantly alter the function or essential physical characteristics of an item or component or change the purpose of a process.
- (4) Any combination of products meeting the requirements of paragraph (1), (2), or (3) of this definition that are of a type customarily combined and sold in combination to the general public;
- (5) A product, or combination of products, referred to in paragraphs (1) through (4) of this definition, even though the product, or combination of products, is transferred between or among separate divisions, subsidiaries, or affiliates of a contractor; or
- (6) A nondevelopmental item developed exclusively at private expense and sold in substantial quantities, on a competitive basis to multiple State and local governments or to multiple foreign governments.
