

To add or remove columns in [SAM.gov](https://sam.gov) award searches, you must use the **Data Bank** section, specifically the **Ad Hoc Report Builder**, which allows for full customization of visible data fields (columns). Standard search results on the main page generally have fixed columns, but Ad Hoc reporting allows you to select, add, and remove specific attributes.  SAM.gov +2

Steps to Customize Columns (Add/Remove) in SAM.gov:

1. **Sign In:** Navigate to SAM.gov and sign in to access full data bank features.
2. **Go to Data Bank:** Select "Data Bank" from the menu, then select "**Contract Data**" and choose "**Ad Hoc**".
3. **Create/Edit Report:** Select an existing report or create a new one to customize.
4. **Manage Columns (Attributes):**
 1. **Add Columns:** Select attribute groups to view available fields, then click the attribute to add it to your report.
 2. **Remove Columns:** In the report builder, identify the selected attributes (columns) on the right side of the screen and remove them.
5. **Save and Run:** Save your customized report to keep these column settings for future use.  SAM.gov +4

Key Tips for Customizing Reports:

- **Ad Hoc Reports:** These allow you to pick specific fields from the contract data to create a custom view.
- **Filtering & Sorting:** In addition to adding/removing columns, you can sort by column (e.g., highest value contracts) and filter data to narrow results.
- **Save Searches:** You can save your customized search queries, including your tailored column layouts, in your workspace.
- **Data Types:** Reports can be exported in various formats (CSV, etc.).  SAM.gov +3

Note: The FPDS.gov search function is migrating to SAM.gov's Data Bank, so using the SAM.gov interface is recommended.  SAM.gov +1
