Section D - Packaging and Marking

Additional Regulation or Supplemental Clauses Incorporated by Full Text

WSSTERMDZ03 PRESERVATION, PACKAGING, PACKING AND MARKING

(Nov 2025)

PRESERVATION, PACKAGING, PACKING AND MARKING

The contractor shall preserve, package, pack and mark all items as cited below. Where specifications or standards are cited herein the latest revision of that specification or standard shall apply.

1. PRESERVATION REQUIREMENTS

a. SYSTEM STOCK SHIPMENTS - The contractor shall preserve all items intended to enter the military distribution system for stock in accordance with the MIL-STD-2073-1, "Standard Practice for Military Packaging", Packaging Requirements Code specified in the Schedule. When a Specialized Preservation Code/Method of Preservation (MOP) (Table J-1a) is specified, and one or more of the following packaging fields (WM, CUD, CT, UC) value is a 00 (numeric), the Specialized Preservation/MOP procedure and materials takes precedence. Contractors should disregard the LP field and third digit of the PACK field and use the Unit Container Level (UCL) to identify the level of packing protection the unit container meets for packing requirements. When HM = D, the item is regulated in accordance with Title 49 Code of Federal Regulations (CFR); when HM = N the item is not regulated for transportation.

1) When a specified packaging material has an associated Qualified Products List (QPL), the contractor shall use only packaging materials produced by a manufacturer listed on the applicable QPL. Barrier materials that have QPLs are MIL-PRF-131, MIL-PRF-81705, MIL-PRF-22191, MIL-PRF-3420 and MIL-PRF-22019. Sources for QPL material can be obtained from the Qualified Products Database at <http://qpldocs.dla.mil/>.

b. IMMEDIATE USE/INSTALLATION AND PART NUMBER BUY SHIPMENTS - Government PCO or ACO approval is required to use the packaging standards outlined in this paragraph. Any national stock numbered (NSN) item required for immediate use (used or consumed within 7 days of receipt) or direct installation, or part numbered item (authority granted to ship without NSN) shall be preserved and packed in accordance with ASTM D3951-18 (2023), "Standard Practice for Commercial Packaging", for all shipments to a Continental United States (CONUS) government activity or contractor-owned facility. All material destined for overseas shipment (OCONUS) shall be preserved in accordance with MIL-STD-2073-1.

c. GOVERNMENT-OWNED MATERIAL - In the event that the contract expires, is terminated, or completed, and Government-owned material is to be returned to the supply system, the contractor shall preserve and package this material in accordance with the requirements of paragraph 1.a.

2. PROTECTION FROM DEGRADATION DUE TO ELECTROSTATIC (ES)/ELECTROMAGNETIC (EM) FORCES

a. When ASTM D3951-18 (2023) is authorized for packaging and the item is considered Electrostatic Discharge Sensitive (ESDS), protection shall be in accordance with ANSI/ESD S20.20-2021, "For the Development of an ESD Control Program for - Protection of Electrical and Electronic Parts, Assemblies and Equipment (Excluding Electrically Initiated Explosive Devices)."

b. When MIL-STD-2073-1 is specified and the preservation method code (PMT) in the solicitation does not specify ESD/EM protection (PMT = GX) and the contractor's proposed item of supply is subject to degradation from ES/EM forces, contractors shall provide recommended packaging data with their proposals/quotes.

3. PACKING REQUIREMENTS - The contractor shall pack as follows:

Domestic Shipments (CONUS):	Level B
Overseas Shipments (OCONUS) (including Navy ships at sea):	
Via air, FPO, APO	Level B
Via freight forwarder	Level B
Via surface	Level A

Exterior shipping containers for Packing Levels A and B are listed in MIL-STD-2073-1, Appendix C, Table C.II. Long-life reusable containers and wood containers are shipping containers which do not require overpacking for shipment.

4. MARKING REQUIREMENTS - All unit, intermediate and shipping containers shall be marked in accordance with MIL-STD-129. In addition, the following specific requirements apply:

a. ADDITIONAL MARKING FOR SPARES ONLY - Each MIL-STD-129 label shall also include the following:

1) Procurement Instrument Identifier (PIID) - the 13-digit contract order number,

2) Contract Line Item Number (CLIN) - the 4-digit individual line item number (e.g. 0001, 0002, etc.), and

3) SubCLIN - the 6-digit sub line item number (e.g. 0001AA, 0001AB, 0002AA, 0002AB, etc.).

b. DEPOT LEVEL REPAIRABLE (DLR) LABELS

1) Items identified with a Cognizance (COG) Code of either "7" or an even number preceding the NSN, excluding 6A, 6H and 6X COGs (e.g. 7RH 5826-014289999), are defined as Depot Level Repairable (DLR) items. DLR items require that a DLR label be placed on the outside of the unit, intermediate and shipping containers as close to the bar code label as possible.

EXCEPTION: When a DLR item requires use of both a reusable inner unit container and a reusable outer shipping and storage container (excluding wood and fiberboard), only the inner unit container shall be affixed with a DLR label. In these cases only, DLR labels shall NOT be placed on the outer reusable container.

2) Labels are available via the Naval Forms Online website: <https://forms.documentservices.dla.mil/order/>. The website will advise the procedures for ordering and establishing an account.

3) NAVSUP WSS authorizes contractors to create and print their own DLR labels.

Labels shall follow the standard size and font options listed in below chart. Text shall be in all upper case letters of the same style font. The label used shall be sized proportionate to the size of the container. Labels shall be horizontally printed and consist of yellow "DLR" text font on a solid blue background. Labels shall meet requirements of MIL-STD-129 section 4.2.2. Labels shall be of a water-resistant grade of paper, film, or plastic, coated on one side with water-insoluble, permanent type adhesive. The adhesive shall adhere to metal, plastic, aluminum or fiberboard surfaces under high and low temperatures. Labels shall have a finish suitable for printing and writing on with ink without feathering or spreading, be capable of withstanding normal handling and storage conditions, and remain securely in position. Application specific performance criteria and durability requirements to ensure functionality in various climatic environments should be tailored, if required, using MIL-PRF-61002. MIL-PRF-61002 can be used as an acquisition tool when labels presently being used are not performing satisfactorily or when new conditions or applications require special label stock for those particular situations.

NSN	DESCRIPTION	QUANTITY PER UNIT PACKAGE	APPLICATION	FORM NUMBER

c. SPECIAL MATERIAL IDENTIFICATION CODE (SMIC) FOR NAVSUP WSS MARITIME REQUIREMENTS ONLY

1) Certain program related items are identified by a two-position SMIC, which appears as a suffix to the NSN (e.g. 1H 4730 009001317 L1), and require special markings. Containers shall be marked or labeled with letters, maximum two inches high on two (2) sides and two (2) ends as follows:

5. PALLETIZATION. Palletization of shipments shall be accomplished in accordance with MIL-STD-147 "DOD Standard Practice: Palletized Unit Loads." Failure to meet these palletization/packaging requirements and measures, without a written waiver from the PCO or ACO, may result in charges back to the contractor for repalletization and/or repackaging of items. Pallets shall conform to the requirements of American National Standards Institute, Material Handling-MH1-2016, Pallets, Slip Sheets, and Other Bases for Unit Loads. MH1-2016 may be obtained at the following website: <http://www.mhi.org>

- a. General Purpose Unit Loads - When shipping directly to a Navy afloat unit, pallets meeting MH1-2016, Part No. MH1/9-02SW4048 or MH1/9-10BW4048 for unit loads under 1,500 pounds and MH1/9-03SW4048 for unit loads over 1,500 pounds shall be used.
- b. Hazardous Material Unit Loads - Unless otherwise specified in the contract or purchase order hazardous material containers, except cylinders and 55 gallon drums, shall be palletized utilizing MH1-2016 Part No. MH1/9-07SW4848 pallets.

6. WOOD PACKAGING MATERIAL (WPM). All shipments destined to the DOD must be treated and marked in accordance with the International Standards for Phytosanitary Measures Guidelines for Regulating Wood Packaging Material in International Trade ([ISPM 15](#)) for OCONUS shipments for OCONUS shipments.

- a. For all WPM furnished under this contract the contractor shall ensure the American Lumber Standards Committee (ALSC) approved mark is applied to every shipment regardless of destination.
- b. Failure to comply with the requirements of ISPM 15 may result in refusal of the shipment, destruction or corrective treatment of WPM at the point of receipt and the associated costs charged back to the contractor.

7. NAVY SHELF-LIFE PROGRAM. Navy shelf-life requirements are listed under the item description in a 3-digit alpha/numeric code. Position one (1) is the DOD shelf-life code, defining the type of shelf-life for an item (Type I, non-extendible or Type II, extendible), and the number of months an item can remain ready for issue in a Navy specified package. Positions two (2) and three (3) combined form the Navy-unique shelf-life action codes used by storage activities, and do not impose any requirements on the contractor. The contractor shall use the applicable shelf-life paragraphs and table in MIL-STD-129 to apply either Type I or Type II shelf-life markings to an item's unit, intermediate and shipping containers. Contractors will ensure that at least eighty-five percent (85%) of the Navy shelf-life requirement is remaining when received by the first government activity.

8. REUSABLE NSN CONTAINERS. An item that has an NSN assigned in the "Container NSN" field (e.g. 8145 012622982) requires shipment in a reusable shipping and storage container.

a. REUSABLE CONTAINERS FOR NAVSUP WSS, MARITIME REQUIREMENTS - Reusable NSN containers for maritime material (designated by a COG Code of "7E", "7G" and "7H") shall be provided as contractor-furnished material (CFM).

b. REUSABLE CONTAINERS FOR NAVSUP WSS, AVIATION REQUIREMENTS - Reusable NSN containers (excluding fiberboard and most wood) for aviation material (designated by a COG Code of "7R", "6K" or "0R") shall be provided as government-furnished material (GFM). Fast pack containers will not be provided as GFM. To obtain GFM reusable containers, the contractor must request via email usn.philadelphia.navsupwssphil.mbx.navsupcrf@us.navy.mil at least 90 days prior to the anticipated shipping date, 30 days prior for repair contracts. If the Navy's Container Management Area (CMA) informs the contractor that containers are unavailable, the following alternate packaging requirements apply. The unavailability of reusable containers shall not be an excusable delivery delay.

52.247-33 F.o.b. Origin, with Differentials. (Feb 2006)

F.O.B. ORIGIN, WITH DIFFERENTIALS (FEB 2006)

(a) The term "f.o.b. origin, with differentials," as used in this clause, means-

(1) Free of expense to the Government delivered-

(i) On board the indicated type of conveyance of the carrier (or of the Government, if specified) at a designated point in the city, county, and State from which the shipments will be made and from which line-haul transportation service (as distinguished from switching, local drayage, or other terminal service) will begin;

(ii) To, and placed on, the carrier's wharf (at shipside, within reach of the ship's loading tackle, when the shipping point is within a port area having water transportation service) or the carrier's freight station;

(iii) To a U.S. Postal Service facility; or

(iv) If stated in the solicitation, to any Government-designated point located within the same city or commercial zone as the f.o.b. origin point specified in the contract (the Federal Motor Carrier Safety Administration prescribes commercial zones at Subpart B of 49 CFR part 372); and

(2) Differentials for mode of transportation, type of vehicle, or place of delivery as indicated in Contractor's offer may be added to the contract price.

(b) The Contractor shall-

(1)

(i) Pack and mark the shipment to comply with contract specification; or

(ii) In the absence of specifications, prepare the shipment in conformance with carrier requirements to protect the goods and to ensure assessment of the lowest applicable transportation charge;

(2)

(i) Order specified carrier equipment when requested by the Government; or

(ii) If not specified, order appropriate carrier equipment not in excess of capacity to accommodate shipment;

(3) Deliver the shipment in good order and condition to the carrier, and load, stow, trim, block, and/or brace carload or truckload shipment (when loaded by the Contractor) on or in the carrier's conveyance as required by carrier rules and regulations;

(4) Be responsible for any loss of and/or damage to the goods-

(i) Occurring before delivery to the carrier;

(ii) Resulting from improper packing and marking; or

(iii) Resulting from improper loading, stowing, trimming, blocking, and/or bracing of the shipment, if loaded by the Contractor on or in the carrier's conveyance;

(5) Complete the Government bill of lading supplied by the ordering agency or, when a Government bill of lading is not supplied, prepare a commercial bill of lading or other transportation receipt. The bill of lading shall show-

(i) A description of the shipment in terms of the governing freight classification or tariff (or Government rate tender) under which lowest freight rates are applicable;

(ii) The seals affixed to the conveyance with their serial numbers or other identification;

(iii) Lengths and capacities of cars or trucks ordered and furnished;

(iv) Other pertinent information required to effect prompt delivery to the consignee, including name, delivery address, postal address and ZIP code of consignee, routing, etc.;

(v) Special instructions or annotations requested by the ordering agency for bills of lading; *e.g., "This shipment is the property of, and the freight charges paid to the carrier will be reimbursed by, the Government"*; and

(vi) The signature of the carrier's agent and the date the shipment is received by the carrier; and

(6) Distribute the copies of the bill of lading, or other transportation receipts, as directed by the ordering agency.

(c)

(1) It may be advantageous to the offeror to submit f.o.b. origin prices that include only the lowest cost to the Contractor for loading of shipment at the Contractor's plant or most favorable shipping point. The cost beyond that plant or point of bringing the supplies to the place of delivery and the cost of loading, blocking, and bracing on the type vehicle specified by the Government at the time of shipment may exceed the offeror's lowest cost when the offeror ships for the offeror's account. Accordingly, the offeror may indicate differentials that may be added to the offered price. These differentials shall be expressed as a rate in cents for each 100 pounds (CWT) of the supplies for one or more of the options under this clause that the Government may specify at the time of shipment.

(2) These differential(s) will be considered in the evaluation of offers to determine the lowest overall cost to the Government. If, at the time of shipment, the Government specifies a mode of transportation, type of vehicle, or place of delivery for which the offeror has set forth a differential, the Contractor shall include the total of such differential costs (the applicable differential multiplied by the actual weight) as a separate reimbursable item on the Contractor's invoice for the supplies.

(3) The Government shall have the option of performing or arranging at its own expense any transportation from Contractor's shipping plant or point to carrier's facility at the time of shipment and, whenever this option is exercised, the Government shall make no reimbursement based on a quoted differential.

(4) Offeror's differentials in cents for each 100 pounds for optional mode of transportation, types of vehicle, transportation within a mode, or place of delivery, specified by the Government at the time of shipment and not included in the f.o.b. origin price indicated in the Schedule by the offeror, are as follows:

_____ (carload, truckload, less-load,
_____ wharf, flatcar, driveaway, etc.)

WSSTERMFZ10 REDISTRIBUTION ORDER/READY FOR ISSUE – NAVSUP WSS TRANSPORTATION (FOB ORIGIN)

(Jan 2025)

I. For Commercial Asset Visibility Repairables Portal (CAV RP) Reporters:

CAV RP reporting is required under this purchase order/contract. Refer to your Basic Ordering Agreement, Long Term Contract or NAVSUP website (<https://www.navsupsup.navy.mil/NAVSUP-Enterprise/NAVSUP-Weapon-Systems-Support/Provisions-Instructions-and-Contract/>) for the CAV RP Reporting requirements contained in the CAV Statement of Work (SOW).

II. For Non-CAV Reporters:

- A. NAVSUP Weapon Systems Support (NAVSUP WSS) has contracted sole responsibility for transportation of repairable assets to the Navy's transportation organization, Advanced Traceability and Control (ATAC). ATAC is responsible for delivery and pickup of Government-owned assets going to and from the repair facility. ATAC will send a subcontracted transporter (e.g. Federal Express, Miramar) to the repair facility to pick up material as specified herein.
- B. Assets to be delivered to your facility for repair in accordance with the contract will include any Depot Level Repairable (DLR) in any condition. Upon receipt of material, compare the quantity of units and the NIIN of the item inside the container to the quantity and NIIN on the DD Form 1348-1A document that accompanies the material. There may be multiple DD Form 1348-1A documents with the material. The appropriate DD Form 1348-1A to use for comparison is the one that reflects the material being shipped to the repair facility. Any discrepancies in quantity or NIIN must be reported by creating a Supply Discrepancy Report (SDR) - SF364 via <https://www.pdrep.csd.disa.mil/> using the EZ PDR Login option.
- C. Assets to be picked up from the repair facility will include material in any of the following conditions:
 1. "A" Condition - Units that have been repaired and are Ready for Issue (RFI)
 2. "F" Condition - Units that are NOT authorized for repair - Not Ready for Issue
 3. "H" Condition - Units that have been determined Beyond Repair (BR) or Beyond Economical Repair (BER)
 4. "J" Condition - Units that have been misidentified or misdirected to the repair facility
- D. Upon completion of the repair of each unit, the repair facility shall:
 1. Contact the Government Quality Assurance Representative (QAR) to schedule an on-site visit date for inspection and acceptance of the material, including, if required, signature or Wide Area Workflow (WAWF) authorization of the DD250 Receiving Report, which is required for payment purposes.
 2. The contractor shall provide to the DCMA QAR the ATAC Request Form which will be obtained by the QAR before signing for acceptance in WAWF DD250 Receiving Report: (The QAR will validate the contract number, delivery order number, CLIN, shipping location, National Stock Numbers, Condition Code, Serial number as applicable and quantities.)
 3. Contact the ATAC Dispatcher at 1-877-846-8728 or ATACCustomerService@navy.mil and provide the information below. The ATAC database will house much of this information, but the repair facility will be asked to verify the following data:
 - a. CAGE or UIC (e.g. 12345 or Q01234)
 - b. National Stock Number (e.g. 01-123-4567)
 - c. Quantity (e.g. 10 each)
 - d. Pieces (number of boxes)
 - e. Receipt Document Number (e.g. N003835001XD01 or N001045001XK01)
 - f. Nomenclature
 - g. Date contractor started repair of the unit
 - h. Condition Code of material (e.g. A, F, H or J)
 - i. Pick-up Address
 - j. Destination Unit Identification Code (UIC) (e.g. SW3117)

- k. Destination Address
- l. Contract Number or Purchase Order Number (e. g. N0038309GA001 or N0010409PDG71)
- m. Delivery Order Number for BOA or LTC (e.g. 0001 or 7001; not applicable for non-BOA or non-LTC purchase orders or contracts)
- n. Contract Line Item Number (e.g. 0001AA)
- o. Serial Number of the Unit
- p. Hazardous Material (Yes or No)
- q. Priority (e.g. Routine or Urgent - requiring immediate pick up)
- r. Available Pick-up Date (date material can be picked up after QAR inspection)
- s. Weight
- t. Dimensions (L, W, H)

Upon receipt of this information, the ATAC Dispatcher will provide instructions for obtaining a DD Form 1348-1A for shipping purposes. A MILSTRIP Document number will be assigned to each individual unit and will appear on the DD 1348-1A. The serial number of the unit will be referenced in Block 27 "Additional Data" in the DD1348-1A to identify for the repair facility which MILSTRIP document number belongs to each unit.

E. Preparation for ATAC pickup

1. Two copies of the DD Form 1348-1A should be affixed to the outside of the shipment container and one copy should be placed inside the container. Units ready for shipment must be either single-packed or packed in multiple quantities of the same NIIN to the same destination. Different NIINs shall NOT be packaged together. DO NOT INCLUDE A COPY OF THE DD FORM 250 WITH THE MATERIAL TO BE SHIPPED.
2. All material shall be placed in a waiting area designated solely for ATAC transportation carrier pickups.
3. Assets which are CLASSIFIED or SECURITY CODED are excluded from the ATAC process and will continue to be shipped under the current method with the issuer scheduling the transportation.
4. Urgent shipments that require immediate pickup after hours or over the weekend when the ATAC dispatching office is closed may be shipped via non-ATAC means with the issuer scheduling the transportation. The repair facility shall notify the ATAC Dispatcher no later than the next business day of any items that were shipped in this manner.
5. Any material determined Beyond Repair (BR) or Beyond Economical Repair (BER) for which Government authorization has been received for local disposal must also be reported to the ATAC Dispatcher.

F. MATERIAL RETURNS:

1. "A, B, C, or D" CONDITION MATERIAL - If the material is to be redistributed directly to an end user/requisitioner, the Contractor will contact the applicable NAVSUP WSS Planner for a document number beginning with the end user's/requisitioner's Unit Identification Code (UIC); this material is not permitted to be shipped using the Repair Cycle Document Number (RCDN).
2. "E, F, K, L, N, P, R, or S" CONDITION MATERIAL - Unless otherwise provided in the order/contract, the Contractor will contact the appropriate NAVSUP WSS Contracting Officer for status on units received without authorization for repair including units excess to those funded under contract or for which there is not otherwise contractual coverage in place within 30 days of receipt. All such determinations, including the basis for the determination, the repair required, the proposed price to repair, and DCMA written concurrence, shall be provided by the contractor to the PCO. After receipt of the required documentation, the PCO shall provide the contractor either disposition instructions or contractual authority for repair of the item. The contractor is NOT authorized to proceed with repair until notification to proceed is received from the PCO. If provided disposition instructions, the contractor shall submit a proposal for BER pricing to the PCO within 30 days of receipt of these instructions. Any disposal action ordered by the PCO shall be performed by the contractor in accordance

with applicable regulations and DCMA disposal procedures and requirements. If it is determined that a unit should be retained by the Defense Distribution Depot (DDD) in lieu of disposal, the contractor shall prepare the units for delivery to the following:

52.213-4 Terms and Conditions-Simplified Acquisitions (Noncommercial). (Deviation) (Feb 2026)

TERMS AND CONDITIONS-SIMPLIFIED ACQUISITIONS (NONCOMMERCIAL) (FEB 2026) (DEVIATION)

(a) *Inspection/Acceptance.* The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. If repair/replacement or reperformance will not correct the defects or is not possible, the Government may seek an equitable price reduction or adequate consideration for acceptance of nonconforming supplies or services. The Government must exercise its post acceptance rights-

(1) Within a reasonable period of time after the defect was discovered or should have been discovered; and

(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(b) *Excusable delays.* The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence. Examples of occurrences include acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. When an excusable delay occurs, the Contractor shall-

- (1) Notify the Contracting Officer in writing as soon as possible;
- (2) Remedy the delay as quickly as possible; and
- (3) Notify the Contracting Officer when the occurrence is over.

(c) *Termination for the Government's convenience.* The Government reserves the right to terminate this contract, or any part hereof, for its sole convenience. In the event of such termination, the Contractor shall immediately stop all work and shall immediately cause any and all of its suppliers and subcontractors to cease work. Subject to the terms of this contract, the Contractor shall be paid a percentage of the contract price reflecting the percentage of the work performed prior to the notice of termination, plus reasonable charges the Contractor can demonstrate to the satisfaction of the Government using its standard record keeping system, have resulted from the termination. The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this purpose. This paragraph does not give the Government any right to audit the Contractor's records. The Contractor shall not be paid for any work performed or costs incurred which reasonably could have been avoided.

(d) *Termination for cause.* The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. The Government will send a cure notice to the Contractor, unless the reason for the termination is late delivery. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(e) *Warranty.* The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

(End of clause)

(Feb 2026)

POSTAWARD SMALL BUSINESS PROGRAM REREPRESENTATION (FEB 2026) (DEVIATION)

- (a) *Definitions.* As used in this clause-

Long-term contract means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

Small business concern-

(1) Means a concern, including its affiliates, that is independently owned and operated, not dominant in its field of operation, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause.

(2) *Affiliates*, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or have the power to control the others. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships. SBA determines affiliation based on the factors set forth at 13 CFR 121.103.

(b) If the Contractor represented that it was a small business concern, a small disadvantaged business concern, or a joint venture that was any of the small business concerns identified in 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (e) of this clause or, if applicable, paragraph (g) of this clause, upon occurrence of any of the following:

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts-

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code(s) assigned to this contract. The small business size standard corresponding to this NAICS code(s) can be found at <https://www.sba.gov/document/support--table-size-standards>.

(d) The small business size standard for a Contractor providing an end item that it does not manufacture, process, or produce itself, for a contract other than a construction or service contract, is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition-

(1) Was set aside for small business and has a value above the simplified acquisition threshold;

(2) Used the HUBZone price evaluation preference regardless of dollar value, unless the Contractor waived the price evaluation preference; or

(3) Was an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(e) Except as provided in paragraph (g) of this clause, the Contractor shall make the representation(s) required by paragraph (b) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting officer in writing within the timeframes specified in paragraph (b) of this clause, that the data have been validated or updated, and provide the date of the validation or update.

(f) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contractor may, but is not required to, take the actions required by paragraphs (e) or (g) of this clause.

(g) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

(e) If, after award, there is a change in the composition of the item(s) or a revision to Federal Standard No. 313, which renders incomplete or inaccurate the data submitted under paragraph (d) of this clause, the Contractor shall promptly notify the Contracting Officer and resubmit the data.

(b) If there has been no change affecting the quantity of activity, or the characteristics and composition of the radioactive material from deliveries under this contract or prior contracts, the Contractor may request that the Contracting Officer or designee waive the notice requirement in paragraph (a) of this clause. Any such request shall-

- (1) Be submitted in writing;

52.246-17 Warranty of Supplies of a Noncomplex Nature.

(Jun 2003)

WARRANTY OF SUPPLIES OF A NONCOMPLEX NATURE (JUNE 2003)

(a) *Definitions.* As used in this clause-

Acceptance means the act of an authorized representative of the Government by which the Government assumes for itself, or as an agent of another, ownership of existing supplies, or approves specific services as partial or complete performance of the contract.

Supplies means the end items furnished by the Contractor and related services required under this contract. The word does not include "data."

(b) Contractor's obligations.

(1) Notwithstanding inspection and acceptance by the Government of supplies furnished under this contract, or any condition of this contract concerning the conclusiveness thereof, the Contractor warrants that for _____ [Contracting Officer shall state specific period of time after delivery, or the specified event whose occurrence will terminate the warranty period; e.g., the number of miles or hours of use, or combinations of any applicable events or periods of time]-

(i) All supplies furnished under this contract will be free from defects in material or workmanship and will conform with all requirements of this contract; and

(ii) The preservation, packaging, packing, and marking, and the preparation for, and method of, shipment of such supplies will conform with the requirements of this contract.

(2) When return, correction, or replacement is required, transportation charges and responsibility for the supplies while in transit shall be borne by the Contractor. However, the Contractor's liability for the transportation charges shall not exceed an amount equal to the cost of transportation by the usual commercial method of shipment between the place of delivery specified in this contract and the Contractor's plant, and return.

(3) Any supplies or parts thereof, corrected or furnished in replacement under this clause, shall also be subject to the terms of this clause to the same extent as supplies initially delivered. The warranty, with respect to supplies or parts thereof, shall be equal in duration to that in paragraph (b)(1) of this clause and shall run from the date of delivery of the corrected or replaced supplies.

(4) All implied warranties of merchantability and "fitness for a particular purpose" are excluded from any obligation contained in this contract.

(c) Remedies available to the Government.

(1) The Contracting Officer shall give written notice to the Contractor of any breach of warranties in paragraph (b)(1) of this clause within _____ [Contracting Officer shall insert specific period of time; e.g., "45 days of the last delivery under this contract," or "45 days after discovery of the defect"].

(2) Within a reasonable time after the notice, the Contracting Officer may either-

(i) Require, by written notice, the prompt correction or replacement of any supplies or parts thereof (including preservation, packaging, packing, and marking) that do not conform with the requirements of this contract within the meaning of paragraph (b)(1) of this clause; or

(ii) Retain such supplies and reduce the contract price by an amount equitable under the circumstances.

(3)

(i) If the contract provides for inspection of supplies by sampling procedures, conformance of supplies or components subject to warranty action shall be determined by the applicable sampling procedures in the contract. The Contracting Officer-

(A) May, for sampling purposes, group any supplies delivered under this contract;

(B) Shall require the size of the sample to be that required by sampling procedures specified in the contract for the quantity of supplies on which warranty action is proposed;

(C) May project warranty sampling results over supplies in the same shipment or other supplies contained in other shipments even though all of such supplies are not present at the point of reinspection; provided, that the supplies remaining are reasonably representative of the quantity on which warranty action is proposed; and

(D) Need not use the same lot size as on original inspection or reconstitute the original inspection lots.

(ii) Within a reasonable time after notice of any breach of the warranties specified in paragraph (b)(1) of this clause, the Contracting Officer may exercise one or more of the following options:

(A) Require an equitable adjustment in the contract price for any group of supplies.

(B) Screen the supplies grouped for warranty action under this clause at the Contractor's expense and return all nonconforming supplies to the Contractor for correction or replacement.

(C) Require the Contractor to screen the supplies at locations designated by the Government within the contiguous United States and to correct or replace all nonconforming supplies.

(D) Return the supplies grouped for warranty action under this clause to the Contractor (irrespective of the f.o.b. point or the point of acceptance) for screening and correction or replacement.

(4)

(i) The Contracting Officer may, by contract or otherwise, correct or replace the nonconforming supplies with similar supplies from another source and charge to the Contractor the cost occasioned to the Government thereby if the Contractor-

(A) Fails to make redelivery of the corrected or replaced supplies within the time established for their return; or

(B) Fails either to accept return of the nonconforming supplies or fails to make progress after their return to correct or replace them so as to endanger performance of the delivery schedule, and in either of these circumstances does not cure such failure within a period of 10 days (or such longer period as the Contracting Officer may authorize in writing) after receipt of notice from the Contracting Officer specifying such failure.

(ii) Instead of correction or replacement by the Government, the Contracting Officer may require an equitable adjustment of the contract price. In addition, if the Contractor fails to furnish timely disposition instructions, the Contracting Officer may dispose of the nonconforming supplies for the Contractor's account in a reasonable manner. The Government is entitled to reimbursement from the Contractor, or from the proceeds of such disposal, for the reasonable expenses of the care and disposition of the nonconforming supplies, as well as for excess costs incurred or to be incurred.

(5) The rights and remedies of the Government provided in this clause are in addition to and do not limit any rights afforded to the Government by any other clause of this contract.

WSSTERMLZ17 EVALUATION AND REPAIR SERVICES (PURCHASE ORDERS)

(Jan 2006)

Evaluation to include inspection, disassembly and tests required to determine the extent of labor and material needed to restore the Government Furnished Property (GFP) described below to an operable condition. For the purposes of this acquisition, an operable condition is defined as capable of functioning and performing as a new unit without necessarily having the appearance of newness.

Repair Services to include labor and material required to repair and package the GFP cited herein. Property repaired hereunder shall be in accordance with drawing revision unless otherwise specified. If upon receipt of the order/ contract such specifications are considered inappropriate, the contractor shall immediately recommend to the cognizant Contracting Officer that the repair work to be done in accordance with specifically identified specifications (including drawings) to which such articles were manufactured, and shall not commence the particular work concerned pending directions to be incorporated by modification. Additionally, whenever any specification of the order provides for the use of a specific article or its equivalent, the contractor may use any equivalent. Also, in those instances where specifications permit and if it is economically feasible to do so, component parts of the item(s) being repaired shall also be authorized to be repaired.

In addition to NSN and P/N markings, repaired units shall be marked with the purchase order number and date of repair in such a manner as to conform with the requirements of Military Standard Identification Marking of U.S. Military Property, MIL-STD-130 current edition (to the maximum extent possible).

The contractor shall determine, in conjunction with the ACO, if the GFP cannot be repaired. Disposition instructions for such property shall be requested from the Post-Award PCO identified in Section G of this award.

NOTE TO CONTRACTOR: UNDER NO CIRCUMSTANCES SHALL THE CONTRACTOR PROCEED WITH THE PERFORMANCE UNDER THIS ORDER/CONTRACT IF THE GOVERNMENT FURNISHED PROPERTY (GFP) RECEIVED (NSN & P/N) DOES NOT EXACTLY MATCH THAT CITED IN THIS ORDER. ALSO, IF THE GFP HAS NOT BEEN RECEIVED WITHIN FORTY-FIVE (45) DAYS FROM THE EFFECTIVE DATE OF THIS ORDER/CONTRACT, CONTACT THE POST-AWARD PCO IDENTIFIED IN SECTION G OF THIS AWARD.

Repair Price Available:

If Block 21 on the DD1155 does not indicate "Ceiling Price" and the Unit Price(s) in Section B of the award (see continuation sheet) does not indicate (EST), the REPAIR PRICE(s) was AVAILABLE to the Government and the funds obligated by this order are the result of negotiation conducted by the PCO and contractor. The amount shown represents the FIRM PRICE to complete repair of the GFP listed in the order.

Repair Price Not Available:

If Block 21 on the DD1155 indicates "Ceiling Price" and the Unit Price(s) in Section B of the award (on the continuation sheet) indicates (EST), the REPAIR PRICE was NOT AVAILABLE to the Government and the funds obligated by this order are provided to initiate evaluation and/or repair work which must be finalized and modification issued to the contractor before payment can be made. The contractor shall submit to the PCO a detailed pricing proposal, to include delivery (turn-around time) for repair of the unit(s) cited in the order. The repair proposal is due no later than 60 days from date of order or when costs incurred against the order are 50% of the contract price, whichever occurs first.
