

COMMERCIAL SOLUTIONS OPENING (CSO)
INDIVIDUAL PROGRAM REQUIREMENT NOTICE #3

Notice for an Innovative Technology Vision and Execution Framework

NOTICE NUMBER: HT003826SC001-03

ISSUING OFFICE: Program Executive Office Defense Health Management Systems (PEO DHMS)

CSO REFERENCE: This Individual Program Requirement (IPR) Notice is issued pursuant to Commercial Solutions Opening Number HT003826SC001 (the CSO), and all CSO terms, conditions, and procedures apply to this IPR Notice.

DATES:

- Publication Date: 20 March 2026
- Questions Due Date: 25 March 2026
- Proposal Submission Deadline: 16 April 2026

The objective of this IPR Notice #3 is to acquire a comprehensive and innovative commercial solution—a process, methodology, or technology-enabled framework—that introduce new ways of operating to address critical gaps in strategic technology planning, alignment, and risk management.

The Government is seeking a solution to modernize its approach to Enterprise Architecture. The objective is to acquire a solution that defines a future architectural blueprint, creates a data-driven roadmap to optimize the current portfolio, and governs the technology investments that drive the organization toward its target state.

The ideal solution will be a functioning and repeatable framework that can be sustained by Government personnel long-term. In response to this IPR #3, PEO DHMS is seeking proposals for solutions that introduce new technologies, processes, or methods for the outcomes identified in the following AOIs:

- CSO AOI 1: Operations
 - Modernization Roadmap: A data-driven process to continuously optimize our current technology portfolio and deliver a prioritized and time-phased plan for modernization and investment.

- CSO AOI 2: Strategy
 - Target State Architecture: A clear and actionable technology blueprint that defines the Government's future state and directly enables the Government's long-term business strategy.
- CSO AOI 3: Governance
 - Performance Framework: A disciplined governance model that ensures on-time on-budget project execution and provides clear oversight for risk and alignment with the Government's Target State Architecture.

These outcomes directly support all Goals defined in the CSO.

Proposed tangible results (or deliverables) should form the backbone of your solution. To guide offerors, examples of the *types* of deliverables the Government anticipates could include:

- An Enterprise Technology Strategy Roadmap
- Technology Risk Management Framework
- Technology Transformation Change Management Plan
- Annual Technology Report

The Government anticipates that a successful solution for this requirement will be delivered within a period of performance not to exceed nine (9) months.

SUBMISSION INSTRUCTIONS

Questions should be addressed to the ordering Contracting Officers, Louise Lewis and Sharria Wells at the following e-mail address: dha.ncr.peo-ipo.mbx.dhms-enablers@health.mil. Please provide any questions no later than **5:00 PM (EST), 25 March 2026**. Questions received after this date may not be answered.

Proposals must be submitted electronically via a secure online submission portal no later than **5:00PM (EST), 16 April 2026**. Bidscale aids the Government in evaluating acquisitions and reduces submission rounds through a structured submission process for proposal and pricing materials. The submission portal is a tool used solely to receive and evaluate proposals for this solicitation. Only Government signed documents, including evaluation reports and contracts, are considered as the official record for contractual purposes.

1. Digital Submission Portal Access:

Offerors wishing to submit a proposal must first request a user account to access the digital submission portal. To request an account, please send an email to customersuccess@bidscale.com . The email must include the following information:

- a. Subject Line: Submission Portal Account Creation
- b. First Name
- c. Last Name
- d. Email Address
- e. Company Name

Please allow sufficient time for account creation before the submission deadline. Once the account is created, offerors will receive a confirmation email with login instructions. Only one account will be created for each offeror.

2. Upon successful account creation, proposals can be submitted through the link sent to the requesting user:

- a. Supported web browsers include Chrome, Edge, and Firefox.
- b. The proposals must follow the format and guidelines specified in CSO Section 12.
- c. Offerors are able to resubmit your proposal documents up until the above deadline.

3. Confirm receipt of a confirmation email for your submission

Upon submission, each offeror will receive a confirmation email from Bidscale acknowledging receipt of their proposal.

4. Disclaimer:

Generative artificial intelligence (AI) was utilized in the initial drafting of this document. All content has been subsequently revised, validated, and approved by authorized government personnel at the Contracting Directorate - Defense Health Management Systems (CD-DHMS).

Proprietary information submitted in response to this solicitation will be protected from unauthorized disclosure as required by Subsection 27 of the Office of Procurement Policy Act as amended (41 U.S.C.423) (hereinafter referred to as “the Act”) as implemented in the FAR. These companies are bound contractually by Organizational Conflict of Interest and disclosure clauses with respect to proprietary information. Contractor personnel will take

all necessary action to preclude unauthorized use or disclosure of an offeror's proprietary data.

The exclusive responsibility for source selection will reside with the Government.

The cognizant contracting officer is the sole POC to vendors for any proposal related questions. Bidscale is not authorized to address any issues/questions related to contractor proposal submissions. Vendors are encouraged to review all instructions carefully and ensure full compliance with all requests for proposal requirements to avoid any disqualification.

Bidscale is only authorized in a limited capacity to issue access to the submission portal and provide basic technical support with its utilization. If a confirmation email was not received or technical issues occur with the submission portal, contact Bidscale for assistance at customersuccess@bidscale.com.
