

JUSTIFICATION AND APPROVAL

For Other Than Full and Open Competition

(Commercial Products or Commercial Services – SAT Level)

1. Contracting Activity

U.S. Department of Health and Human Services (HHS), National Center for Health Statistics (NCHS), Division of National Health and Nutrition Examination Surveys (DHANES).

2. Description of the Action

Approval of a **sole-source award** for **commercial services**, using **simplified acquisition procedures**, to SCINOMIX, INC.

3. Description of the Commercial Requirement

The Government requires **commercial services**, as defined in **Revolutionary FAR Overhaul Part 12**, to support the six Sci-Print VXL/AQ Perform liquid handlers as part of data collection in the National Health and Nutrition Examination Survey (NHANES). The data from the NHANES are used by government agencies, state and community organizations, private researchers, consumer groups, companies, and health care providers. NCHS introduced the Sci-Print VXL/AQ Perform liquid handler in 2025. We maintain seven mobile examination centers (MECs), five of which travel to different locations across the United States every ten weeks. Scheduling participants for examinations starts three weeks before each MEC arrives at its location; the team has two days to set up the equipment. Each MEC has a lab trailer where one Sci-Print VXL/AQ Perform liquid handler allows the Medical Technologists to quickly and effectively process specimen from all NHANES participants. Keeping this same line of product is critical in ensuring the validity of the data over time by supporting consistent and efficient processing, improving turnaround time, preserving specimen integrity, and therefore, safeguarding analyte stability. Only Scinomix is authorized to provide service and maintain the Sci-Print VXL/AQ Perform liquid handler, as they are proprietary equipment. The requirement will provide preventive maintenance, repair, parts, and technical support to ensure ongoing instrument performance and data integrity.

4. Authority for Other Than Full and Open Competition

This acquisition is justified under **Revolutionary FAR Overhaul 6.103-1, Only One Responsible Source and No Other Supplies or Services Will Satisfy Agency Requirements**.

This justification is prepared in accordance with **Revolutionary FAR Overhaul Part 6**, including **Revolutionary FAR Overhaul 6.3**, and **HHSAR 306.303**.

5. Unique Qualifications of the Contractor

SCINOMIX, INC is the only responsible commercial source capable of meeting the Government's minimum requirements because:

- The requirement is for a **proprietary or uniquely configured commercial product/service**; and
- The contractor controls the **intellectual property, technical data, or integration capability** necessary to meet the requirement.

No other known commercial sources can provide a functionally equivalent product or service without unacceptable cost, schedule, or performance impact.

The Sci-Print VXL/AQ Perform liquid handler is proprietary equipment of Scinomix. Scinomix is the only authorized provider capable of performing warranty and post-warranty service, providing OEM parts, and performing certified repairs for this model.

6. Efforts to Obtain Competition

Market research was conducted in accordance with **Revolutionary FAR Overhaul Parts 10 and 12**, including review of commercial sources and prior acquisitions. The research confirmed that only one responsible source is capable of meeting the requirement.

7. Fair and Reasonable Price Determination

The Contracting Officer will determine price reasonableness using **commercial price analysis techniques** in accordance with **Revolutionary FAR Overhaul Part 12** and **Revolutionary FAR Overhaul Part 15**, as applicable.

8. Other Supporting Facts

This sole-source determination is based solely on the authority cited in **Revolutionary FAR Overhaul 6.103-1**. Simplified acquisition procedures do not constitute a competition exception.

9. Certification

I certify that this justification is accurate and complete to the best of my knowledge and belief.

Contracting Officer: Sheena Delaine Date: 04/22/2026

Approving Official: Sheena Delaine Date: 04/22/2026

(Approval IAW **Revolutionary FAR Overhaul 6.304** and **HHSAR 306.304**)
