The Army Contracting Command - Mission & Installation Contracting Command (MICC) Theater Support Center (TSC) in conjunction with the Department of War (DoW), Army Materiel Command (AMC) G4, U.S. Army Installation Management Command (IMCOM), U.S. Army I Corps, and Joint Base Lewis-McChord (JBLM) Department of Public Works (DPW) is sponsoring a Site Visit on May 5 - 6, 2026 to facilitate on-site physical assessments and technical exchanges.

This is an excellent opportunity for businesses of all sizes and socioeconomic categories—large and small—to gain firsthand site familiarity and assess the physical infrastructure requirements essential for the JBLM FORGE initiative.

Site Visit Event Highlights:

On-Site Technical Walkthroughs:

Observe the current state of the JBLM infrastructure. Modernization needs and identify project variables that cannot be captured in written solicitations.

OTA & § 2808a Framework Overview:

Understand the unique statutory guidance of using Other Transaction Authority (OTA) under 10 USC § 2808a. Gain insights into how this expedient construction authority streamlines the procurement and execution lifecycle.

Logistics and Safety:

Attire: This event involves walking and industrial sites conditions. Sturdy, closed-toe shoes are mandatory. High-visibility vests and hard hats are recommended (if available).

Transportation:

Security: Ensure all attendees have a valid Government ID (as listed in registration) for base access.

Utility: Visiting the ranges includes traveling on gravel and undeveloped roads with rough terrain. A utility vehicle is recommended. Group transportation will not be provided by the Government.

Who Should Attend?

This event is highly recommended for but not limited to: Business Owners, Project Managers, Lead Engineers, Estimators, and Construction Superintendents. The Site Visit is designed for technical representatives who need to assess physical site conditions to develop accurate proposals for the projects.
