Specialty Department Operations – Seafood

In accordance with the Commercial Opportunity Solution – Defense Commissary Agency (DeCA), dated 01.21.2026, paragraph 5.0, the following specific requirement in support of AoI 5.1 Grow Sales is attached.

The Defense Commissary Agency (DeCA) is seeking innovative, commercial approaches for Specialty Department Operations for Seafood. The contractor will provide secure, efficient, and commercially innovative resale operations services for the DeCA's Seafood Departments. The goal is to leverage industry best practices, modern technologies, and creative service models to improve reliability, accountability, and overall service quality.

DeCA's goal to increase sales includes a desire to achieve budget neutrality. To support this objective, DeCA maintains an assortment that includes national brands and private label products consistent with commercial grocery practices. DeCA has also established a National Promotional Calendar to promote consistent execution of agency wide marketing and promotional activities. Innovative commercial solutions should demonstrate how they can operate within this environment and contribute to DeCA's overall goal of improved sales performance, customer value, and operational sustainability.

Core Services

DeCA invites respondents to offer approaches that solve the following operational challenges and achieve our desired outcomes:

- Coverage at the following commissaries: Andrews, Bolling, Fort Belvoir, Fort Eustis, Fort Meade, Fort Lee, Langley, Little Creek, McGuire, Norfolk, Quantico and Fort Bliss.
Challenge: Current coverage expiring 5/31/2026.
- Core item availability: Ensure patrons have reliable, uninterrupted access to a core set of high-demand, competitively priced items that deliver demonstrable value compared to commercial grocery chains.
- Personnel, supervision, food products, miscellaneous operating supplies, and other items necessary to operate a well-stocked seafood market resale operation to include "roadshows" offering a variety of items in quantities to satisfy patron demands, ensure savings, increase sales and maximize patron satisfaction.

Operational Constraints & Foundational Requirements

While DeCA seeks innovative commercial approaches, DeCA seeks solutions that accommodate the following baseline operational constraints:

- Patron savings - Proposed pricing models that deliver verifiable cost savings to commissary customers.

* Interested parties will need to save this file in order to access the attachments panel.

- Installation Access: Contractor personnel has or will timely obtain installation access without DeCA sponsorship.
- Adherence to all applicable requirements of Federal, State and Local regulations regarding sanitation and food safety to include the FDA Food Code.
- Approved sources: All seafood will be procured only from U.S. Army Public Health Command (USAPHC) approved sources as posted on the USAPHC website at <https://ph.health.mil/topics/foodwater/ca/Pages/DoDAApprovedFoodSources.aspx> Instructions on how to become approved are found on the USAPHC website by selecting Appendix B, Section 1- Initial Sanitation Audit Request For the United States, Canada, Mexico, Central America, South America, The Caribbean, And The Pacific Region.
- Labeling: Fish will be labeled with the acceptable market or common name, as provided in the “Guidance for Industry: The Seafood List – FDA’s Guide to Acceptable Market Names for Seafood Sold in Interstate Commerce,” U.S. Department of Health and Human Services, Food and Drug Administration, Center for Food Safety and Applied Nutrition, latest editions.
- Labeling: All seafood shipments, Mollusca shellfish, live shellfish (shell stock) and shucked shellfish must have affixed to the label, the Interstate Shellfish Shippers Number, which indicates the source of the products, in accordance with the Food Code.
- Discontinuations: From time to time, items which are sold within the seafood market resale operations may be added to the endangered species list or a state or local list of prohibited products. In such cases, the Contractor shall discontinue selling any such item within their stock assortment within 30 days.

Our objective is to establish a long-term partnership with a provider whose technology, service model, and commercial terms align with our commitment to enhance and improve the Patron experience. The anticipated period of performance will begin on the date of award and continue through the base year, followed by four additional one-year option periods.

Interested vendors with expertise in the Specialty Departments should submit their Solutions Brief in accordance with section 3.2 Solutions Brief. Solution briefs should include a complete list of commissary locations that the solution provider proposes to cover and services applicable to the solution. The list is not included in the page or slide count.

The closing date for this opportunity is Tuesday, May 5, 2026 at 4:00 PM Eastern Standard Time (EST).

All communications to include questions pertaining to this opportunity shall be sent via email to the following Points of Contact:
