

PERFORMANCE WORK STATEMENT

Performance Work Statement for Carrier Strike Group Four Joint Expeditionary Base Little Creek

1.0 INTRODUCTION:

This Performance Work Statement (PWS) defines the requirements for the procurement and delivery of three (3) new potable water pumps. These pumps are required by INSURV and approved by the Planning Yard (NSWCCD) to support completion of Boat Alteration (BOATALT) 20C for TSV-4 Narragansett, assigned to Carrier Strike Group Four and homeported at Joint Expeditionary Base Little Creek (JEBLC), Virginia Beach, VA.

This document establishes the minimum technical and delivery requirements for the specified equipment.

2.0 PERIOD OF PERFORMANCE: The period of performance shall be from 12/16/2026 - 12/16/2027 due to long lead time material (LLTM) of 30-32 weeks.

3.0 DELIVERY:

The Contractor shall provide and deliver three (3) potable water pumps in accordance with the specifications outlined in Section 4.0. Delivery shall be coordinated with Carrier Strike Group Four to ensure receipt at Joint Expeditionary Base Little Creek (JEBLC), Virginia Beach, VA, within the period of performance.

4.0 DETAILED TASK DESCRIPTION:

The Contractor shall provide the following:

Three (3) new potable water pumps meeting the following minimum specifications:

- ASTM F998 Commercial Marine M Series
- Pump size: 1.25 in x 1 in x 7 in
- Rated flow: 10 GPM at 60 psi
- Motor: IEEE45/IEEE841-rated 3HP, 3600RPM
- Frame size 182JP
- Shaft material: 316 stainless steel (316SS)
- Enclosure: Totally Enclosed Fan Cooled (TEFC)
- Electrical: 460V/3Phase/60Hz

5.0 ADDITIONAL INFORMATION:

- All equipment shall be new and unused

- All materials shall meet applicable marine and INSURV standards.
- Contractor shall include all necessary documentation, certifications, and manufacturer data sheets upon delivery.

6.0 ACCEPTANCE CRITERIA:

Acceptance will be based on verification that delivered equipment meets all technical specifications and is free from defects or damage.
