

**JUSTIFICATION FOR SOLE SOURCE
(Simplified Procedures - MPT to ≤ SAT)**

Purchase Request/Document number: N0957726PR00019

The supplies or services described herein are being solicited on a sole source basis and competition is precluded in accordance with FAR 12.1-2(a) for reasons indicated below. There are no substitutes available for the supplies or services.

Restricted to the following source.

☐ **Service:**

Contractor:	
Cage Code:	

☒ **Supply:**

Original Manufacturer Name:	Carver Pump
☐ Check here if obtaining product through authorized resellers of the manufacturer.	

Description of the supplies or services required, the estimated price/cost, and required delivery date or period of performance.

For vendor to provide three (3) new potable water pumps required by INSURV and approved by the planning yard (NSWCCD) are needed to complete Boat Alt 2 C.

Part	QTY	Price Ea	Total
Potable Water Pump	3		

- ASTM F Commercial Marine M Series
- Pump size: 1 25in x 1in x 7in
- Rated flow: 1 GPM at psi
- Motor: IEEE 5/IEEE 1-rated 3hp 3 RPM
- Frame size: 1 2JP with 31 SS shaft
- TEFC enclosure
- Electrical: V/3PH/ hz

Cost for materials:

Required Delivery Date: 3 NOV 2 2

In conclusion, the requested supplies or services represent the minimum requirements of the government.

Describe in detail why only this source(s) can furnish the requirements to the exclusion of other sources.

The potable water pumps that required are the only acceptable equipment to meet the Government's requirements due to prior engineering approval and system integration constraints. The specified pumps

manufactured by Carver Pump have been reviewed and approved by INSURV and the Planning Yard (NSWCCD) as part of Boat Alteration (BOATALT) 2 C for TSV-4 Narragansett

Detailed technical drawings system calculations and installation configurations have been developed specifically around these pumps The approved design incorporates exact dimensional mechanical and performance characteristics unique to this manufacturer and model

For these reasons Carver Pump is the only responsible source capable of providing equipment that meets all existing technical operational and regulatory requirements without unacceptable delays or additional cost to the Government

☒ The supplies or services must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate connect or interface with the existing system.

The carver pump matches our pre-existing system and will integrate without extensive alterations. The pump is compatible with form, function and fit. If the government does not acquire the pump the ship would require major ship alterations and would cost the government a significantly amount of money. Thus the ship's fire system would be condemned for months and would be considered "fail to sail".

☒ These are "direct replacement" parts/components for existing equipment.

TECHNICAL/REQUIREMENTS CERTIFICATION: N0957726PR00019

I CERTIFY THAT THE INFORMATION PROVIDED ABOVE IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE. I UNDERSTAND THAT THE PROCESSING OF THIS SOLE SOURCE JUSTIFICATION PRECLUDES THE USE OF FULL AND OPEN COMPETITION.
