The United States Department of State requires preventive maintenance services for the electrochemical chlorine and chlorine dioxide generator systems installed at the Singh House Compound, U.S. Embassy Kathmandu, Nepal. These systems are manufactured by Dioxide Pacific.

The water treatment systems to be maintained are as follows

- Electrochemical Chlorine Generator (Dioxide Pacific, Model: HGB-2.5)
- Chlorine Dioxide Generator System (Dioxide Pacific, Model: CDE-10)
- Associated Dosing Pumps (SEKO, Model: Spring MS1B)

The equipment is manufactured by Dioxide Pacific. The contractor shall provide all logistics, customs, shipping, transportation, labor, water treatment chemicals, tools, water treatment testing kits/equipment, administrative and all associated management support functions necessary for the maintenance of these systems.

Please note this solicitation is not ready to be issued as of this date. US Embassy Nepal will launch the solicitation on the SAM.gov website when it is available.

The contractor must submit the Authorization Letter from the Original Equipment Manufacturer. All responsible sources may submit a quotation, which will be considered.

The Government may award the contract based on the initial offer without discussion. The resultant contract will be a firm fixed price type contract.

All contractors have to be registered in the [SAM \(System for Award Management\) Database](http://SAM (System for Award Management) Database) prior to contract award pursuant to FAR provision 52.204-7. Therefore, prospective offerors are encouraged to register prior to the submittal of quotations/proposals.

Electronic Submission/Responses:

Your quotation must be submitted electronically to KTMContracts@state.gov. It is important to make sure the submission is made in specific size and format; in MS-Word 2007/2010 or MS-Excel 2007/2010 or Adobe Acrobat (pdf) file format. The file size must not exceed 20MB. If the file size should exceed the 20MB, the submission must be made in separate files and attached to separate emails with less than 20MB each.
