1. SCOPE.

The contractor shall provide professional communication training to assigned personnel. The training will employ methodology to improve clarity, concision, and effectiveness in verbal communication, written products, and meeting facilitation. This requirement includes delivery of four integrated courses: (1) Intro to Briefing Communication (2) Brief Meeting Facilitation (3) Intermediate Writing (4) Advanced Writing – SITREP Storytelling.

2. PURPOSE.

The purpose of this effort is to establish a shared communication framework that enables staff and support personnel to brief clearly and confidently, write concise, audience-focused products, and facilitate meetings that efficiently drive decisions and produce operational reports and SITREPs that are clear, structured, and decision-oriented. This training supports unit intent to elevate the quality of written products for internal use and professional publication, while reducing wasted time caused by unclear communication and ineffective meetings.

3. BACKGROUND

The assigned members operate in a high-tempo environment characterized by complex information flow and limited leader attention. Effective mission execution requires disciplined communication practices that reduce noise, improve preparation, and ensure clarity across staff sections. This requirement addresses those needs through structured, repeatable communication tools applicable to daily operations, staff work, and leadership engagement.
