

Statement of Work (SOW)

1. Scope

The contractor shall provide diagnostic, repair, and calibration services for a Canon Medical Aquilion 32 CT scanner (Serial Number: KDA1282149) located at Rosebud Hospital, Rosebud, South Dakota. The purpose of this requirement is to restore the CT system to full operational status for clinical use.

2. Background

The CT system is currently experiencing a malfunction during angiography protocols when using Region of Interest (ROI) with SureStart, generating an error that prevents proper scan execution. This impacts the facility's ability to perform critical diagnostic imaging and affects patient care.

3. Tasks

The contractor shall:

- Perform on-site diagnostic evaluation and troubleshooting
- Identify root cause of system malfunction
- Perform necessary repairs and adjustments
- Conduct system calibration and functional testing
- Verify proper functionality of ROI/SureStart features
- Ensure system is safe and ready for clinical use

4. Optional CLINs

Optional CLINs may be exercised at the discretion of the Contracting Officer for additional labor, travel, or parts required based on findings during troubleshooting. These may include follow-up visits or extended repair efforts.

5. Deliverables

The contractor shall provide a service report detailing findings, repairs performed, parts replaced, and system status upon completion.

6. Period of Performance

Performance shall begin upon award. Initial service is expected within 1–2 weeks. The total period of performance shall not exceed 60 days, including any optional services.

7. Place of Performance

Rosebud Hospital
400 Soldier Creek Drive
Rosebud, SD 57570

8. Acceptance Criteria

The Government will accept services when:

- The CT system is restored to full operational status
- ROI/SureStart functionality operates without error
- All required testing and calibration are complete
- Documentation is provided

9. Hours of Performance

Work shall be performed during normal business hours unless otherwise coordinated.

10. Government-Furnished Information

The Government will provide access to the CT system and relevant operational information.
