

ABERDEEN PROVING GROUND ADVANCED PLANNING BRIEFING TO INDUSTRY

**U.S. ARMY TEST AND EVALUATION COMMAND
FY26 CONTRACT OPPORTUNITIES**

**MRS. MELISSA SAMPSON
DIVISION CHIEF, CONTRACTS
22 APRIL 2026**

"The forecast data is for planning purposes, does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal, and is not a commitment by the government to purchase the desired products and services."

What does ATEC do for the Army?

Mission

U.S. Army Test and Evaluation Command (ATEC) performs test and evaluation, while in direct support of U.S. Army Transformation and Training Command, to inform Army senior leaders and enable Army's Continuous Transformation.

Laws

Safety

Acquisition

Independence

We work to ensure it works, is safe, and Soldiers have what they need, when they need it!

ATEC T&E Authorities

- **Title 10, U.S. Code**
 - Section 139: Requires annual report to Congress for oversight systems.
 - Section 4172: Requires Live Fire T&E, and test report to congressional defense committees.
 - Section 4171: Requires independent Initial Operational T&E (IOT&E) before proceeding beyond low-rate initial production for all major defense acquisition programs.
 - Section 4231: Quantities for IOT&E are established by the DOT&E for oversight systems, and by OTAs for others.
 - **AR 70-1 Army Acquisition Policy**
CDR, ATEC on behalf of the CSA...
 - Supports the system acquisition, force development, and experimentation processes through overall management of T&E programs.
 - **AR 73-1 Test & Evaluation Policy, Section 2-18**
 - ATEC is the Army's OTA reporting directly to the CSA...plan and conduct independent OT; report results; provide assessments and/or evaluations of operational effectiveness, operational suitability, and survivability.
 - **AR 385-10 The Army Safety Program**
 - Issue safety releases for training, testing, and demonstrations when Soldiers are involved.
 - Issue safety confirmations in support of major milestone decisions, materiel release decisions, and fielding decisions in support of materiel release.
- NDAA (National Defense Authorization Act):** Law
FMR (Financial Management Regulation): Regulation/Policy
MRTFB (Major Range and Test Facility Base): Designation

"The forecast data is for planning purposes, does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal, and is not a commitment by the government to purchase the desired products and services."

Call for Solutions (CFS) - Innovative Solutions for Automated System Safety Evaluation

DESCRIPTION: Operational Evaluation Command (OEC) seeks an innovative solution to accelerate the safety evaluations of Army systems by automating data synthesis and efficiently drafting safety documents. This solution must ingest diverse data types to identify credible hazards with transparent, source-based rationale, while maintaining a persistent knowledge base to improve future assessments. The desired solution should operate in a secure Army environment, keep a human-in-the-loop for verification, and focus analysis to support rapid and rigorous decision-making.

ATEC Industry Range Access & Army Open Solicitation (AOS)

Streamlined Access to National Test Ranges

- ATEC offers industry, academia, and government partners access to our unique national test ranges
- Leverage expert personnel and one-of-a-kind environments to accelerate research, development, and testing efforts
- Mature and validate capabilities in realistic environments

Test Mission Areas Include but not limited to:

- Air/Missile Defense Systems
- Aircraft Systems (manned and unmanned)
- Counter-Unmanned Aircraft Systems (C-UAS)
- Electronic Warfare/Offensive Cyber Operations
- Missiles/Rockets
